» A Word to Potential Investors

» All Investments Involve Risk

Investing in the Fund involves risk, including the possible loss of some or all of your investment.

With these Sub-Funds, as with most investments, future performance may differ from past performance. There is no guarantee that any Sub-Fund will meet its objectives or achieve any particular level of performance.

Before investing in any Sub-Fund, you should understand the risks, costs, and terms of investment that apply, and should understand how well these characteristics align with your own financial circumstances and tolerance for investment risk. We recommend that every investor consult a financial adviser and a tax adviser before investing.

Note that if your currency as an investor is different from the currency of the Unit Class, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

» Who Can Invest in these Sub-Funds

Distributing this Prospectus, offering Units of the Fund for sale, or investing in these Units is legal only where the Units are registered for sale or where local law or regulation does not prohibit sale. These Units are not available to, or for the account or benefit of, US Persons.

As a potential investor, you should inform yourself of the legal requirements and tax consequences within your country of residence and domicile that apply to the acquisition, holding or disposal of Units, as well as any relevant foreign exchange restrictions.

Investing through a nominee vs. directly with the Fund

You will only be able to fully exercise your investor rights directly against the Fund, if you are registered yourself and in your own name in the Fund's register of Unitholders. If you invest through an entity that holds your Units under its own name (a nominee account), that entity is legally entitled to exercise certain rights associated with your Units. In cases where you invest in the Fund through a nominee account, your rights to indemnification in the event of errors/non-compliance with the investment rules applicable to a Sub-Fund may also be impacted and only exercisable indirectly. If you want to retain all investor rights, you may invest directly with the Fund. Be aware that in some jurisdictions, a nominee account may be the only option available. We recommend that you consult your financial advisor about your rights.

» Which Information to Rely On

In deciding whether to invest in a Sub-Fund, you should read all of the following:

- this Prospectus, including any sections with applicable country-specific information

- the relevant key information document (KID), which is required to be provided to investors in good time before their proposed investment
- the application form
- any country-specific supplements (which will be provided in accordance with each country's laws and regulations)
- the Fund's most recent annual report and, if the annual report is more than 9 months old, the semi-annual report.

This Prospectus is not valid without these other documents. By buying Units in any of these Sub-Funds, you are considered to have indicated your acceptance of the terms described in these documents. In case of any inconsistency in translations of this Prospectus, the English version will prevail.

Together, the documents identified in the above list contain the only approved information about the Units, the Sub-Funds, and the Fund. No person has been authorised to give any information or to make any representation beyond what is contained in the Prospectus and the Management Regulations in connection with the offer of Units, and, if given or made, such information or representation must not be relied upon as having been authorised by the Management Company on behalf of the Fund.

The Management Company is responsible for the information in this Prospectus. The Directors of the Management Company have taken all reasonable care to ensure that the facts stated in this Prospectus are, at the date of this Prospectus, true and accurate in all material respects, and that no material facts are omitted that would make such information misleading.

We recommend that you keep the Prospectus and other Fund information for future reference and that you consult your financial adviser about any questions you may have about the Prospectus.

» Obtaining Copies of Documents

You can access various documents about the Fund at www.amundi.lu/amundi-funds and at the Management Company's main office, including:

KIDs
Annual and semi-annual reports
Application forms
Prospectus
Net Asset Value
Certain Sub-Fund specific information
Historical Sub-Fund performance

At the Management Company's office, you can also read or get copies of the Management Company's remuneration policy, the articles of incorporation and certain key agreements between the Management Company and the Investment Manager and service providers.

Copies of all of the above are also available from:

- Société Générale Luxembourg, the Depositary, Paying Agent, and Administrator

- the local information agents in each jurisdiction where the Fund is marketed

» Definitions

The terms listed below have the following meanings within this Prospectus. The mention of any directive, law or regulation refers to the same as amended from time to time.

2010 Law The Luxembourg law of 17 December 2010 on undertakings for collective investment.

Agent Any entity appointed directly or indirectly by the Management Company for the purposes of facilitating subscriptions, conversion or redemptions of Units.

AML/CFT anti-money laundering/countering the financing of terrorism

Bank Deposits at Sight Bank deposits at sight that are accessible at any time.

Base Currency The assets and liabilities of a Sub-Fund are valued in its Base Currency and the financial statements of the Sub-Funds are expressed in the Base Currency.

Board The Board of Directors of the Management Company.

Bond Bond includes debt and debt-related instruments

Business Day Any day that is a full bank business day in Luxembourg, and in any other city specified in a Sub-Fund's description in "The Sub-Funds".

CDSC means contingent deferred sales charge.

Credit Institution Deposits deposits, excluding Bank Deposits at Sight, that can be withdrawn on demand and having a maturity of no longer than 12 months.

Disclosure Regulation or SFDR means Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability related disclosures in the financial services sector, as may be amended, supplemented, consolidated, substituted in any form or otherwise modified from time to time.

Emerging Markets Countries generally defined as emerging or developing economies by the World Bank, the United Nations or other authorities, or included in the MSCI Emerging Markets Index or other comparable index.

Equity equity includes equity and equity-linked instruments

ESG means environmental, social and governance matters.

ESG rated a security which is ESG rated or covered for ESG evaluation purposes by Amundi Asset Management or by a regulated third party recognised for the provision professional ESG rating and evaluation.

EU European Union.

EU Level 2 Regulation Commission Delegated Regulation (EU) No 2016/438 of 17 December 2015 supplementing the Directive 2009/65/EC of the European Parliament and of the Council with regard to obligations of depositaries.

Environmentally Sustainable Investments means an investment in one or several economic activities that qualify as environmentally sustainable under the Taxonomy Regulation.

Environmentally Sustainable Economic Activities an investment in one or several economic activities that qualify as environmentally sustainable under the Taxonomy Regulation. For the purpose of establishing the degree to

which an investment is environmentally sustainable, an economic activity shall qualify as environmentally sustainable where that economic activity contributes substantially to one or more of the environmental objectives set out in the TR, does not significantly harm any of the environmental objectives set out in the TR, is carried out in compliance with the minimum safeguards laid down in the TR and complies with the technical screening criteria that have been established by the European Commission in accordance with the TR.

the Fund Amundi S.F., a Fonds Commun de Placement.

GDPR Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data.

Group of Companies Companies that draw up consolidated accounts in accordance with Directive 2013/34/EU.

Investment Grade A debt or debt-related instrument that is rated at least BBB- by Standard & Poor's, is rated the equivalent by any other internationally recognised statistical rating organisation, or considered to be of comparable quality by the Management Company.

Management Regulations The management regulations of the Fund.

Member State A member State of the EU.

Mémorial Mémorial C, Recueil des Sociétés et Associations.

Money Market Instruments Instruments that are normally dealt in on the money market, are liquid, and have a value that can be accurately determined at any time.

MiFID European Parliament and Council Directive 2004/39/EC.

MiFID II European Parliament and Council Directive 2014/65/EU.

Net Asset Value/NAV The Net Asset Value per Unit stated in the Pricing Currency of the Unit Class calculated by dividing the total net assets (assets less liabilities) attributable to the Unit class by the total number of Units of that class outstanding on the relevant Valuation Day.

Other Regulated Market A market that is regulated, operates regularly, and is recognised and open to the public, as defined by the 2010 Law.

Other State Any country that is not a member State of the EU.

Pricing Currency The currency in which the Units in a particular Class within a Sub-Fund are denominated.

Prospectus The prospectus of the Fund.

Regulated Market A regulated market as defined in paragraph 14 of Article 4 of Directive 2004/39/EC. A list of regulated markets is available from the European Commission or at: <http://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=OJ:C:2010:348:0009:0015:EN:PDF>

Regulatory Authority The Commission de Surveillance du Secteur Financier or its successor in charge of the supervision of the UCI in the Grand Duchy of Luxembourg.

RESA Recueil électronique des sociétés et associations.

Responsible Investment Policy The responsible investment policy as described in the "Sustainable Investing" section.

RTS A consolidated set of technical standards defined by European Parliament and the Council, which provide additional detail on the content, methodology and presentation of certain existing disclosure requirements under the Disclosure Regulation and the Taxonomy Regulation.

Safe-keeping Delegate Any entity appointed by the Depositary, to whom Safe-keeping Services (as defined in the Depositary Agreement) have been delegated in accordance with article 34bis of the 2010 Law and articles 13 to 17 of the EU Level 2 Regulation.

SFT Securities financing transactions.

Sustainability Factors for the purposes of art. 2.(24) of SFDR environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainable Investment for the purposes of art. 2.(17) of the SFDR (1) An investment in an economic activity that contributes to an environmental objective, as measured by key resource efficiency indicators on (i) the use of energy, (ii) renewable energy, (iii) raw materials, (iv) water and land, (v) on the production of waste, (vi) greenhouse gas emissions, or (vii) its impact on biodiversity and the circular economy, or (2) an investment in an economic activity that contributes to a social objective (in particular an investment that contributes to tackling inequality or that fosters social cohesion, social integration and labour relations), or (3) an investment in human capital or economically or socially disadvantaged communities, provided that such investments do not significantly harm any of those objectives and that the investee companies follow good governance practices, in particular with respect to sound management structures, employee relations, remuneration of staff and tax compliance. Information on Amundi's methodology to assess if an investment qualify as a Sustainable Investment can be found in the Amundi Sustainable Finance Statement available on <https://www.amundi.lu/retail/regulatory-documents-11>.

Sustainability Risk for the purpose of art. 2 (22) of the SFDR an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment.

Taxonomy Regulation or TR means regulation 2020/852 of the European Parliament and of the Council of 27th November 2019 on the establishment of a framework to facilitate sustainable investment and amending Regulation (EU) 2019/2088 'disclosure regulation' or 'SFDR'.

Transferable Securities A category that includes all of the following:

- shares and other securities equivalent to shares
- bonds and other debt instruments
- any other negotiable securities (but not techniques or Instruments), that confer the right to acquire transferable securities through purchase or exchange.

TRS Total return swaps.

UCI Undertaking for Collective Investment.

UCITS Undertaking for Collective Investment in Transferable Securities governed by the UCITS Directive.

UCITS Directive European Parliament and Council Directive 2009/65/EC.

Units Units are the form in which an investor can participate in a Sub-Fund. They do not represent interests in or obligations of, and are not guaranteed by any government, the Investment Managers, the Depositary, the Management Company or any other person or entity.

U.S., USA The United States of America.

Valuation Day A day on which a Sub-Fund calculates a Net Asset Value.

» The Fund

Fund name Amundi S.F.

Fund type Fonds commun de placement (FCP).

Duration Indefinite.

Management regulations First effective on 6 June 2003 and published in the Mémorial on 28 June 2003. Last modified on 21 November 2025.

Legal jurisdiction Grand Duchy of Luxembourg.

Regulatory authority

Commission de Surveillance du Secteur Financier (CSSF)

283, route d'Arlon

L-2991 Luxembourg, Luxembourg

Management Company Amundi Luxembourg S.A., a company incorporated in the Grand Duchy of Luxembourg.

Financial year 1 January – 31 December.

Minimum capital (under Luxembourg law)

EUR 1,250,000 or equivalent in any other currency.

Par value of Units None.

Structure

The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under Part 1 of the 2010 Law, and is registered on the official list of

collective investment undertakings maintained by the CSSF. The Fund is governed by the Management Regulations, which appear in their current form in this Prospectus.

The Fund exists to manage its assets for the benefit of those who invest in the Sub-Funds. A separate pool of assets is invested and maintained for each Sub-Fund and is invested consistent with its own investment objective, as described in this Prospectus. As a result, the Fund is an “umbrella fund” enabling investors to choose between one or more investment objectives by investing in the various Sub-Funds. Investors may choose which Sub-Funds are most appropriate for their specific risk and return expectations as well as their diversification needs.

The assets and liabilities of each Sub-Fund are segregated from those of other Sub-Funds, and from those of the Management Company; there is no cross-liability among these entities.

The Management Company has overall responsibility for the Fund's investment activities and other operations.

The Management Company has delegated the day-to-day management of each Sub-Fund to an investment manager. The Management Company retains supervisory approval and control over the investment managers and Investment sub-managers and closely monitors their performance, investment strategies and cost

» The Sub-Funds

All of the Sub-Funds described in this Prospectus are sub-funds of the Fund. These Sub-Funds are divided into three main groups, Bond Sub-Funds Absolute Return Sub-Funds and Commodities Sub-Funds.

Investors have the opportunity to invest in one or more Sub-Fund(s) and thus determine their own preferred exposure on a region-by-region and/or asset class by asset class basis.

The specific investment objectives, strategies and main risks of each Sub-Fund are described in this section, along with other information that a potential investor is likely to want to know. In addition, all Sub-Funds are subject to the general investment policies and restrictions that are outlined in the last major section of this document, “Management Regulations”.

The Management Company may create additional Sub-Funds with investment objectives different from the existing Sub-Funds and additional Classes of Units with features different from existing Classes. Upon creation of new Sub-Funds or Classes, the Prospectus will be updated or supplemented and a KID will be issued.

More information about the Management Company and the Investment Manager begins on page 75.

» Unit Classes

Within each Sub-Fund, the Fund may create and issue different Unit Classes with various characteristics and investor eligibility requirements. Each Unit Class represents a proportional Unit of the underlying portfolio of the Sub-Fund. All purchases, switches and redemptions are made on the basis of an unknown net asset value.

The Unit Classes currently offered are: A, A2, AT, B, C, D, E, E2, F, F2, G, G2, M, M2, P, P2, U, W, W1 Units available for all investors. Any minimum investments or other eligibility requirements are described in “The Sub-Funds.”

H, I, I2, J, J2, R, R2, S, X Units available for investors making initial minimum investments, either directly or through a nominee, as detailed below. In some cases, additional requirements apply. The Management Company may waive the minimum investment requirement of any of these Unit Classes.

Z Units available to funds (other than feeder funds and funds domiciled in Italy) managed by an Amundi Group company.

Minimum investment requirements The minimum EUR (or currency equivalent) investment and other requirements of these Unit Classes are:

Class H: EUR 1 million.

Class I and Class I2: EUR 10 million. Purchases by Italian domiciled investors are subject to receipt of confirmation to the satisfaction of the Management Company or its agents that the Units purchased will not be the underlying investment for any product ultimately marketed to a retail distribution channel.

Class J and J2: EUR 30 million. If investment value falls below that amount, the Management Company may switch the Units without switching fee, to Class I and I2 Units respectively of the same Sub-Fund and shall notify investors accordingly. Purchases of Class J or J2 Units by Italian domiciled investors are subject to receipt of confirmation to the satisfaction of the Management Company or its agents that the Units purchased will not be the underlying investment for any product ultimately marketed to a retail distribution channel.

Class R and R2: Reserved for intermediaries or providers of individual portfolio management services that are prohibited from retaining inducements either contractually or in application of MiFID II or equivalent rules and regulations.

Class S: EUR 10 million. Prior Management Company approval is required. Units held without approval will be redeemed. The management and/or performance fees specified for Class J Units shall be applicable to Class S Units 18 months after the launch date of the relevant Sub-Fund. Prior to the expiry of that period, Class S Units are subject to fees agreed between the Management Company and the relevant investors, which will not be greater than the management and/or performance fees specified for Class J Units of the relevant Sub-Fund.

Class X: EUR 25 million. Purchases of Class X Units are subject to receipt of confirmation to the satisfaction of the Management Company or its agents that the Units purchased will not be the underlying investment for any product ultimately marketed to retail investors in Italy.

Hedged Unit Classes

The Management Company may issue hedged Unit Classes that are designed to reduce the effects of changes in the exchange rate between the currencies or the predominant currency of a Sub-Fund’s assets and the Pricing Currency of the Unit Class. Although the hedging seeks to reduce the effect of these foreign exchange rate fluctuations, the Management Company makes no guarantee as to the likely success of any hedging activity. Each hedged Unit Class bears all costs, gains or losses arising in connection with such hedging.

Availability of Unit Classes

Not all Unit Classes are available in all Sub-Funds, and some Unit Classes and Sub-Funds that are available in certain jurisdictions may not be available in others. For the most current information on available Unit Classes, go to www.amundi.lu/amundi-funds or request a list free of charge from the Management Company

Unit Class	Entry Charge (Max)	CDSC (Max)	Exit Charge (Max)	Management Fee (Max)	Distribution Fee (Max)	Performance Fee (Max)
Z	5.00%	None	None	1.00 %	None	20%

» Master-Feeder Structures

A Sub-Fund may act as a master fund.

Amundi S.F. –

Diversified Short-Term Bond Select

» Objectives and Investment Policy

Objective

Seeks to increase the value of your investment and provide income over the recommended holding period.

Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. For further details on how the Sub-Fund complies with the requirements of the Disclosure Regulation, the Taxonomy Regulation and the RTS, please refer to Appendix II- ESG Related Disclosures to this Prospectus.

The Sub-Fund invests mainly in a broad range of Investment Grade bonds issued by companies, local authorities, international public and supranational bodies, based in the Euro zone, as well as money market securities in order to achieve its investment goals and/or for treasury purposes and/or in case of unfavourable market conditions and Credit Institution Deposits in order to achieve its investment goals and/or for treasury purposes and/or in case of unfavourable market conditions. The Sub-Fund will aim to reduce the interest rate risk of the portfolio by the use of floating rate bonds, bonds with short maturity and interest rate hedging techniques using financial derivative instruments such as interest rate swaps or futures contracts. The Sub-Fund will seek to maintain interest rate duration in the range of -2 and +2.

All debt and debt related instruments will be denominated in Euro. The Sub-Fund may invest in non-Euro denominated instruments provided that the currency exposure is principally hedged back to the Euro.

The Sub-Fund may invest up to 35% of its assets in below-Investment Grade bonds (excluding securities unrated by an international credit rating agency), up to 20% in asset-backed securities and up to 10% in contingent convertible bonds. The Sub-Fund may have material exposure to subordinated securities issued mainly by companies based in the Euro zone.

Whilst the Sub-Fund aims to invest in ESG rated securities not all investments of the Sub-Fund will have an ESG rating and in any event such investments will not be more than 10% of the Sub-Fund. The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure to various assets, markets or income streams.

Benchmark

The Sub-Fund is actively managed. The Euro short-term rate serves a posteriori as an indicator for assessing the

Sub-Fund's performance and for the relevant unit classes calculating the performance fees. There are no constraints relative to the benchmark restraining portfolio construction. The Sub-Fund has not designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation

Investment process

The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section "Sustainable Investing" of the Prospectus and to Appendix II- ESG Related Disclosures to this Prospectus.

The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear more creditworthy than their ratings indicate.

The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe represented by the Bloomberg Euro Aggregate Corporate 1-3 Year index. In determining the ESG score of the Sub-Fund and the universe, ESG performance is assessed by comparing the average performance of a security against the security issuer's industry in respect of each of the three ESG characteristics of environmental, social and governance. The selection of securities through the use of Amundi's ESG rating methodology takes into account principal adverse impacts of investment decisions on Sustainability Factors according to the nature of the Sub-Fund.

When analysing ESG score against the universe, the Sub-Fund is compared with the ESG score of its investment universe after 20% of the lowest ESG rated securities have been excluded from the investment universe.

» Sub-Fund Details

Recommended for retail investors

- With a basic knowledge of investing in funds and no or limited experience of investing in the Sub-Fund or similar funds.
- Who understand the risk of losing some or all of the capital invested.
- Seeking to increase the value of their investment over the recommended holding period.

Recommended holding period 3 years.

Base currency / performance fee currency EUR.

Investment manager Amundi Asset Management.

Initial subscription price EUR 5 for Class E Units; EUR 1,000 for Class H Units.

Minimum investment EUR 50 for Class E Units.

Unit dealing You may place orders to buy, switch or redeem units on any Business Day in Luxembourg City. Orders received by the Transfer Agent before 14:00 CET on a Business Day will be processed that day, at the NAV to be calculated for that day.

Amundi S.F. –

Euro Curve 7-10year

» Objectives and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period.

Policy

The Sub-Fund invests mainly in euro denominated bonds issued by governments, supranational and municipal entities, and with a residual life of between 7 and 10 years.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure to various assets, markets or income streams.

Investors should be aware that the Sub-Fund pursues an investment strategy which seeks to provide returns similar to that of a reference index.

Benchmark

The Sub-Fund is actively managed and seeks to outperform (after applicable fees) the JP Morgan GBI EMU 7-10 Yrs Index. The Sub-Fund is predominantly exposed to the issuers of the benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the benchmark. The Sub-Fund monitors risk exposure in relation to the benchmark and the extent of deviation from the benchmark is expected to be limited whilst, at the same time, the manager seeks to generate excess return through managing specific overlay strategies.

Investment Process

The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section “Sustainable Investing” of the Prospectus.

Given the Sub-Fund’s investment focus, the investment manager of the Sub-Fund does not integrate a consideration of Environmentally Sustainable Economic Activities (as prescribed in the Taxonomy Regulation) into the investment process for the Sub-Fund. Therefore, for the purpose of the Taxonomy Regulation, it should be noted that the investments underlying the Sub-Fund do not take into account the EU criteria for Environmentally Sustainable Economic Activities. The Investment Manager will construct a portfolio which maintains a level of risk similar to that of the JP Morgan GBI EMU 7-10 Index, with the ability to provide an enhanced return through the use of a risk-managed overlay strategy designed to increase

Sub-Fund returns, while limiting the relative deviation from the return of the index. Typically, the overlay strategy targets sovereign and duration spreads, interest rate related investment strategies and seeks to take advantage of price differentials between correlated financial instruments, or may also be based on the direction in which a specific security is heading.

Amundi S.F. –

SBI FM India Bond

» Objectives and Investment Policy

Objective

Seeks to increase the value of your investment and to provide income over the recommended holding period.

Policy

The Sub-Fund invests mainly in government bonds, corporate bonds and Money Market Instruments issued by the government of India, state governments of India, or their agencies and companies incorporated or headquartered in India (the latter in order to achieve its investment goals and/or for treasury purposes and/or in case of unfavourable market conditions). The Sub-Fund's assets may be denominated in Indian Rupee as well as any OECD currency. Investment in Indian bonds may from time to time be restricted by Indian domestic regulation and hence the Sub-Fund may have significant exposure to US Dollar denominated investments issued by entities outside India.

While complying with the above policies, the Sub-Fund may also invest in other bonds or Money Market Instruments in order to achieve its investment goals and/or for treasury purposes and/or in case of unfavourable market conditions, Credit Institution Deposits in order to achieve its investment goals and/or for treasury purposes and/or in case of unfavourable market conditions, and up to 10% of its assets in UCIs and UCITS.

The Sub-Fund makes use of derivatives to reduce various risks and for efficient portfolio management.

Benchmark

The Sub-Fund is actively managed and seeks to outperform (after applicable fees) the JPM GBI-EM Broad India sub-index. The Sub-Fund is mainly exposed to the issuers of the benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the benchmark. The Sub-Fund monitors risk exposure in relation to the benchmark and the extent of deviation from the benchmark is expected to be significant.

Investment process

The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section "Sustainable Investing" of the Prospectus.

The investment manager will use combination of top down and bottom up approach for constructing the portfolio to achieve income accrual and capital appreciation. The investment manager may optimize returns by combining

exposure to the Indian Rupee, interest rates and credit spreads while maintaining a high level of liquidity.

Investment process

The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section "Sustainable Investing" of the Prospectus.

Given the Sub-Fund's investment focus, the investment manager of the Sub-Fund does not integrate a consideration of Environmentally Sustainable Economic Activities (as prescribed in the Taxonomy Regulation) into the investment process for the Sub-Fund. Therefore, for the purpose of the Taxonomy Regulation, it should be noted that the investments underlying the Sub-Fund do not take into account the EU criteria for Environmentally Sustainable Economic Activities.

High Potential Bond

» Objectives and Investment Policy

Objective

Seeks to increase the value of your investment and provide income over the recommended holding period.

Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. For further details on how the Sub-Fund complies with the requirements of the Disclosure Regulation, the Taxonomy Regulation and the RTS, please refer to Appendix II- ESG Related Disclosures to this Prospectus.

The Sub-Fund invests mainly in a broad range of subordinated securities from corporate issuers anywhere in the world, including Emerging Markets, and denominated in any currency.

The Sub-Fund's investments may include, but are not limited to, subordinated bonds, senior bonds, preferred securities, perpetual bonds, convertible securities such as corporate hybrid bonds (up to 50% of its assets), and contingent convertible bonds (up to 20% of its assets).

The Sub-Fund may also invest in debt and debt-related instruments denominated in any currency issued by any government or by supranational bodies, local authorities and international public bodies, as well as Money Market Instruments in order to achieve its investment goals and/or for treasury purposes and/or in case of unfavourable market conditions and Credit Institution Deposits in order to achieve its investment goals and/or for treasury purposes and/or in case of unfavourable market conditions.

The Sub-Fund may invest in Investment or Sub-investment grade bonds.

While complying with the above policies, the Sub-Fund may invest more than 10% of its assets in UCIs and UCITS.

The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure to various assets, markets or income streams.

Benchmark

The Sub-Fund is actively managed by reference to and seeks to outperform (after applicable fees) the 15% ICE BofA Contingent Capital Index; 25% ICE BofA Euro Subordinated Financial Index; 20% ICE BofA Global Hybrid Non-Financial Corporate Index; 20% ICE BofA BB-B Global High Yield Index; 20% ICE BofA Emerging Markets Corporate Plus Index. The Sub-Fund is mainly exposed to the issuers of the benchmark, however, the management of the Sub-Fund is discretionary, and will be

exposed to issuers not included in the benchmark. The Sub-Fund monitors risk exposure in relation to the benchmark however the extent of deviation from the benchmark is expected to be material. Further, the Sub-Fund has designated the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The benchmark comprises broad market indices, which do not assess or include constituents according to environment characteristics and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund. Information in respect of the methodology used for the calculation of the benchmark can be found at www.amundi.com.

Investment Process

The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section “Sustainable Investing” of the Prospectus and to Appendix II- ESG Related Disclosures to this Prospectus.

The investment team analyses interest rate and economic trends (top-down) to identify geographic areas and sectors that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select issuers and securities (bottom-up) and to construct a diversified portfolio.

Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the benchmark. In determining the ESG score of the Sub-Fund and the benchmark, ESG performance is assessed by comparing the average performance of a security against the security issuer's industry, in respect of each of the three ESG characteristics of environmental, social and governance. The selection of securities through the use of Amundi's ESG rating methodology takes into account principal adverse impacts of investment decisions on Sustainability Factors according to the nature of the Sub-Fund.

Amundi S.F. –

Absolute Return Multi-Strategy Control

» Objectives and Investment Policy

Objective

Seeks to achieve a positive return in all types of market conditions over the recommended holding period.

Policy

The Sub-Fund invests mainly in a broad range of equities and bonds of any type, from any type of issuer worldwide, including Emerging Markets. The Sub-Fund may invest up to 30% of its assets in equities, up to 10% in convertible bonds and up to 10% in contingent convertible bonds. The Sub-Fund's investments will be mainly denominated in euro, other European currencies, U.S. dollar or Japanese yen.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (either long or short) to various assets, markets or income streams. This may generate a high level of leverage. In particular, the Sub-Fund may invest in short and medium-term interest rate swaps. At all times, the long positions of the Sub-Fund will be sufficiently liquid to cover obligations arising from its short positions.

Benchmark

The Sub-Fund is actively managed. The Euro short-term rate serves a posteriori as an indicator for assessing the Sub-Fund's performance and for the relevant unit classes calculating the performance fees. There are no constraints relative to the benchmark restraining portfolio construction.

Investment process

The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section "Sustainable Investing" of the Prospectus.

Given the Sub-Fund's investment focus, the investment manager of the Sub-Fund does not integrate a consideration of Environmentally Sustainable Economic Activities (as prescribed in the Taxonomy Regulation) into the investment process for the Sub-Fund. Therefore, for the purpose of the Taxonomy Regulation, it should be noted that the investments underlying the Sub-Fund do not take into account the EU criteria for Environmentally Sustainable Economic Activities. The investment manager first constructs a macro strategy portfolio to provide a return not correlated to any market, and then uses a risk-managed overlay strategy designed to increase returns.

The macro strategy portfolio consists of any type of equities and bonds from any type of issuers worldwide and the asset

allocation and long or short positioning are driven by macroeconomic, thematic and regional scenarios.

The overlay strategy mainly targets interest rates, credit risk, equities, corporate bonds, currencies, duration and commodities. This strategy will take advantage of price differentials between correlated financial instruments, but will also be based on the direction in which a specific security is heading.

EUR Commodities

» Objectives and Investment Policy

Objective

Seeks to increase the value of your investment over the recommended holding period.

Policy

The Sub-Fund seeks generally to track the performance of representative commodity index (e.g. the Bloomberg Commodity Total Return Index), hedged into euro.

At least two thirds of the Sub-Fund's assets will be exposed to the performance of a representative commodity index, which is currently the Bloomberg Commodity Index. The Sub-Fund also invests at least 51% of its assets in bonds and money market securities in order to achieve its investment goals and/or for treasury purposes and/or in case of unfavourable market conditions and Credit Institution Deposits in order to achieve its investment goals and/or for treasury purposes and/or in case of unfavourable market conditions. The Sub-Fund's bond investments may include convertible bonds, bonds with attached warrants, other fixed interest securities and zero coupon bonds. At least two thirds of the Sub-Fund's investments will either be denominated in euro or another OECD currency. Non-OECD currencies may be held and currency risk may be reduced by hedging non-euro investments.

The Sub-Fund may invest up to 10% of its assets in other UCIs and UCITS.

The Sub-Fund invests in derivatives whose value is linked to commodity market indices or to particular commodity prices. The Sub-Fund uses indices that are sufficiently diversified, and periodically reviews its selection of indices and rebalances its allocations to each index. The indices may be rebalanced monthly or annually at no additional cost. Not more than 20% of an underlying index shall be exposed to a single commodity or 35% in the case of highly correlated commodities. The indices used by the Sub-Fund will be disclosed in the financial statements of the Fund and an historical list of indices invested will be published monthly on www.amundi.lu/amundi-funds.

The Sub-Fund may also use derivatives, including credit default swaps, to reduce various risks, for efficient portfolio management or as a way to gain exposure to various assets, markets or income streams. Further information relating to the indices used is provided in the Prospectus.

Benchmark

The Sub-Fund is actively managed by reference to and seeks to outperform (after applicable fees) the Bloomberg Commodity Index, hedged into euro. The Sub-Fund is predominantly exposed to the issuers of the benchmark,

however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the benchmark. The Sub-Fund monitors risk exposure in relation to the benchmark and the extent of deviation from the benchmark is expected to be limited.

Investment Process

The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section "Sustainable Investing" of the Prospectus.

Given the Sub-Fund's investment focus, the investment manager of the Sub-Fund does not integrate a consideration of Environmentally Sustainable Economic Activities (as prescribed in the Taxonomy Regulation) into the investment process for the Sub-Fund. Therefore, for the purpose of the Taxonomy Regulation, it should be noted that the investments underlying the Sub-Fund do not take into account the EU criteria for Environmentally Sustainable Economic Activities.

The investment manager uses its own analysis of commodity inventory levels and other quantitative factors to identify the most attractive and least attractive commodity investments, while also investing for income flows that can help reduce the effect of commodity index price declines.

» Additional Information for Maturity Date Sub-Funds

Minimum amount If at any point the Net Asset Value of the Maturity Date Sub-Funds falls below EUR 50 million, the Management Company may decide not to launch, or to liquidate, the Sub-Fund.

Liquidation at maturity date On the maturity date, the Sub-Funds will be liquidated and the Management Company, acting through the Investment Manager and in the best interest of all Unitholders, will seek to liquidate the

securities as quickly as possible and to distribute the net proceeds to Unitholders.

To the extent that the Sub-Funds hold any securities that are distressed, in default or otherwise difficult to value or to sell, distribution of the full amount of net proceeds of liquidation may be delayed. In such a case, Unitholders will receive their portion of proceeds due as they become available.

» Derivatives and Efficient Portfolio Management

Use of Derivatives

The Sub-Funds may use derivatives for a variety of hedging, investment and efficient portfolio management purposes, as further described in the investment policy of each Sub-Fund. Hedging may include a wide range of techniques such as currency hedging, interest rate hedging or credit risk hedging. Efficient portfolio management may include techniques to manage risk such as market and currency risk or to reduce or manage costs as well securities lending or repurchase transactions.

Types of Derivatives used

Each Sub-Fund may invest in any type of financial derivative instrument. These may include: currency forwards (including non-deliverable forwards); currency swaps; credit default swaps and other credit derivatives; equity swaps; futures contracts; inflation-linked swaps; interest rate swaps options, options on futures contracts; TRS; volatility futures; warrants.

TRS are agreements in which one party (total return payer) transfers the total economic performance of a reference obligation to the other party (total return receiver). TRS entered into by a Sub-Fund may be in the form of funded and/or unfunded swaps as specified in Appendix I where relevant. An unfunded swap is a swap where no upfront payment is made by the total return receiver at inception. A funded swap is a swap where the total return receiver pays an upfront amount in return for the total return of the reference asset. Funded swaps tend to be costlier due to the upfront payment requirement.

The maximum and expected exposure of the Sub-Funds' assets to TRS are disclosed in Appendix I. In certain circumstances these proportions may be higher. Further securities financing transactions and total return swaps considerations for each Sub-Fund are set out in Appendix I.

OTC and Exchange Traded Derivatives

All Sub-Funds may invest in exchange-traded derivatives or OTC ("over the counter") derivatives.

OTC derivatives are agreements between a Sub-Fund and one or more counterparties and they are not as highly regulated as market-traded securities. OTC derivatives carry greater counterparty risk and liquidity risk, and it may be more difficult to force a counterparty to honor its obligations to a Sub-Fund. A Sub-Fund may find itself unexpectedly exposed to risks or losses, including losses from a derivative position for which it was unable to buy an offsetting derivative.

It is generally impractical for the Fund to divide its OTC derivative transactions among a wide variety of counterparties, therefore a decline in the financial health of a counterparty could cause significant losses.

Such OTC derivatives will be safe-kept with the Depositary.

Exchange-traded derivatives are generally considered lower-risk than OTC derivatives, however, there is still the risk that

a suspension of trading in derivatives or in their underlying assets could make it impossible for a Sub-Fund to realise gains or avoid losses, which in turn may cause a delay in processing redemptions of Units. There is also a risk that settlement of exchange-traded derivatives through a transfer system may not happen when or as expected.

Any revenues from TRS will be returned to the applicable Sub-Fund and unit class, less direct and indirect operational costs and fees.

Efficient Portfolio Management

For efficient portfolio management, the Sub-Funds may use SFT, such as securities lending and repurchase transactions as well as derivatives transactions, as further described in the investment policy of each Sub-Fund.

Securities or instruments relating to such transactions will be safe-kept with the Depositary.

Securities lending involves a Sub-Fund lending its securities to a third party against agreed collateral and this may be done either directly or through a recognised clearing institution or a financial institution. Borrowers of securities are approved by the Management Company based on an assessment of the borrower's status and financial standing.

Costs and Fees

The net revenues (that represent the gross revenues minus the direct and indirect operational costs and fees) achieved from techniques and instruments on securities lending transactions remain with the relevant Sub-Fund.

Direct and indirect operational costs and fees may be deducted from the gross revenues delivered to the relevant Sub-Fund. These costs represent 35% of the gross revenues and are paid to Amundi Intermediation for its role as securities' lending agent. Out of the 35% it receives, Amundi Intermediation, covers its own fees and costs and shall pay any relevant direct fee and cost (including 5% to CACEIS bank, Luxembourg Branch acting as collateral agent). The remaining 65% of the gross revenue goes to the Fund. For repurchase transactions, all revenues remain with the funds, and standard transaction costs of 0.005% on gross value of the transaction are separately charged. Such direct fees and costs are determined in accordance with market practice and consistent with the current market levels.

As of the prospectus date, Amundi Intermediation acts as Securities Lending Agent. It is in charge of counterparty selection and best execution. CACEIS bank, Luxembourg Branch acts as collateral manager. Both Amundi Intermediation and CACEIS bank, Luxembourg Branch are related parties to the Management Company, Amundi Luxembourg S.A. The counterparties with whom securities lending transactions are entered will be detailed in the Annual Report of the Fund.

Where a Sub-Fund receives cash collateral in connection with securities lending, it must either deposit this with approved credit institutions, invest it in high quality

government bonds, or use it for reverse repurchase agreements (but only if the Sub-Fund has the right to recall the full amount of the cash at any time, or invest them in short-term money-market funds). The Sub-Fund must continue to meet diversification requirements in how it invests or uses cash collateral.

Reinvestment of collateral may create leverage risk. Securities lending and repurchase transactions may involve several forms of counterparty risk. If a counterparty fails to meet its obligations to the Sub-Fund, the value of collateral held by the Sub-Fund as security against loss in such a case may prove to be worth less than the cash or securities owed to the fund, whether from market action, inaccurate pricing, deteriorating issuer credit, or market liquidity problems.

If a counterparty is late in honouring its obligations, it could affect the Sub-Fund's ability to meet its own obligations to other counterparties and could cause a delay in the processing of redemptions. Making a lending commitment involving a long term or large sum could lead to similar problems.

Repurchase transactions also have risks similar to those of options or forwards.

The maximum and expected exposure of the Sub-Funds' assets to such SFT are disclosed in "The Sub-Funds". In certain circumstances these proportions may be higher.

Collateral Policy

A Sub-Fund may receive collateral through an OTC derivative, a repurchase contract or a securities lending agreement.

Cash collateral

Cash collateral may be placed on deposit, invested in high quality government bonds, used for reverse repurchase transactions (so long as the cash is callable at any time), or invested in Short-Term Money Market Funds.

Any investments into which cash collateral is reinvested are subject to the policies for non-cash collateral.

Non-cash collateral

Non-cash collateral must be:

- sufficiently liquid
- traded on a regulated market or multilateral trading facility with transparent pricing
- valued daily
- subject to suitably conservative haircut policies if it is highly volatile of high credit quality
- sufficiently diversified in terms of country, markets and issuers
- capable of being fully enforced at any time, and should not be sold, re-invested or pledged

Haircut policies (The percentage by which an asset's market value is adjusted when calculating capital requirement, margin and collateral levels)

Securities lending programmes

The borrowers participating in the programme are required to post collateral to mitigate the credit risk. Haircuts may be applied to the collateral received according to the type a

collateral taking into account credit quality, price volatility and any stress test results. Haircuts on debt securities are mainly based on the type of issuer and the duration of the securities. Higher haircuts are used for equities.

The securities lending agents/service providers and the Investment Manager monitor the collateral policy closely in the light of market events. Collateral is monitored and marked to market daily. Regular reporting is provided to the Management Company, Depositary, Administrator, and Investment Manager. The Board is authorised to amend or remove the list of eligible collateral, changes to haircut policies or revise the list of authorised counterparties.

OTC derivatives

If the counterparty to an OTC derivative is a credit institution and the counterparty risk exposure exceeds 10% of the Sub-Fund's assets, the Sub-Fund must cover this excess through collateral. For non-credit institution counterparties, the exposure limit is 5%.

For TRS or other derivatives with similar characteristics, a Sub-Fund must choose the counterparty authorised by the Management Company. These authorised counterparties will be specialised in the relevant types of transactions and will be either credit institutions that have a registered office in a Member State or investment firms (without any legal status criteria) that are authorised under MiFID and are subject to prudential supervision, with a rating of at least BBB- or its equivalent.

Collateral is posted and received in order to mitigate the counterparty risk in OTC financial derivative transactions. The Management Company determines what is eligible for use as collateral and currently operates a more restrictive collateral policy than that required by UCITS regulation. Typically, cash and government debt may be accepted as collateral for OTC financial derivative transactions. However, other securities may be accepted, where agreed by the Management Company. Government debt may include, but is not limited to, debt of the US, Germany, France, Italy, Belgium, Netherlands, UK, Sweden, and other agreed Eurozone governments. Any Sub-Fund may be fully collateralised in securities issued or guaranteed by US, Germany, France, Italy, Belgium, Netherlands, UK, Sweden, and other agreed Eurozone governments.

Collateral is monitored and marked-to-market daily. Regular reporting is provided to the Management Company, Depositary, Administrator, and Investment Manager. The Board has established authorised counterparties, eligible collateral, and haircut policies; and these may be revised or amended by the Management Company at any time.

Any haircuts that apply to collateral are agreed conservatively with each OTC derivative counterparty on a case-by-case basis. They will vary according to the terms of each collateral agreement negotiated and prevailing market practice and conditions.

The following guidance as to acceptable levels of haircut for collateral in OTC transactions is applied by the Management Company (which reserves the right to change it at any time).

Collateral haircuts for the counterparty risk calculation

Collateral	Haircut — same-currency exposure	Haircut — cross-currency exposure
Cash	Zero	10%
Government bonds	10%*	15%*
Non-government bonds	15%	20%
Other	20%	20%

*These may vary depending on the maturity period of the security.

Exceptions to the above haircuts may apply where a ratings criteria has been set against the collateral.

Contracts with counterparties generally set threshold amounts of unsecured credit exposure that the parties are prepared to accept before asking for collateral. These usually range from EUR 0 to 10 million. Minimum transfer amounts, often in the range of EUR 250 - 1 million, are set to avoid unnecessary costs involved in small transfers.

Leverage

Although UCITS funds may not borrow to finance investments, they may use financial derivative instruments to gain additional market exposure in excess of their net asset value. This is known as leverage.

Any Sub-Fund that uses the Absolute or Relative Value at Risks (“VaR”) approaches must also calculate its expected gross leverage, which is stated in the Sub-Fund information. Under certain circumstances, gross leverage might exceed this percentage. This percentage of leverage might not reflect adequately the risk profile of the Sub-Funds and should be read in conjunction with the investment policy and objectives of the Sub-Funds. Gross leverage is a measure of total derivative usage and is calculated as the sum of the notional exposure of the derivatives used, without any netting that would allow opposite positions to be considered as cancelling each other out. As the calculation neither takes into account whether a particular derivative increases or decreases investment risk, nor takes into account the varying sensitivities of the notional exposure of the derivatives to market movements, this may not be representative of the actual level of investment risk within a Sub-Fund. The mix of derivatives and the purposes of any derivative’s use may vary with market conditions.

» Management and Monitoring of Derivatives Risks

The Management Company uses a risk-management process that enables it to monitor and measure at any time the risk of each derivative position and its contribution to the overall risk profile of each Sub-Fund. Risk calculations are performed daily, whether or not the Sub-Fund calculates a NAV for that day.

There are two methods which may be employed to calculate the global exposure of each Sub-Fund and to represent its risk profile:

- the commitment approach; or

- the “VaR, approach - Absolute VaR and Relative VaR depending on the nature of funds

The Management Company has selected the VaR approach as the appropriate measurement methodology for all the Sub-Funds.

The VaR approach,

Is a widely used measurement of the maximum potential loss from market risk that a specific portfolio of assets is likely to experience. Using the VaR approach, the Sub-Fund seeks to estimate, with 99% confidence, the maximum loss it could experience in a month (meaning 20 trading days), from market actions and under normal market conditions. Absolute VaR or Relative VaR may be applied as shown in the Sub-Fund information. Relative VaR is the same as Absolute VaR except that the Sub-Fund measures its VaR relative to the VaR of its reference portfolio (described in the specific Sub-Fund information). The VaR of the Sub-Fund must not exceed twice the VaR of its reference portfolio. Absolute VaR is limited to 20% of its NAV (with 99% confidence and 20 trading days holding period).

All Sub-Funds using the VaR approach are required to calculate their derivatives exposure using the “sum of the notionals” method. If it is consistent with a Sub-Fund’s investment management strategy, the Management Company may decide that a Sub-Fund will also calculate its derivatives exposure using the commitment method.

The commitment approach

By using the commitment approach for the calculation of the global exposure, each financial derivative instrument position is converted into the market or notional value of an equivalent position in the underlying asset of that derivative. Embedded derivatives and leverage linked to EPM techniques are also considered in the calculation. Netting and hedging arrangements may be taken into account. In accordance with the 2010 Law, the global exposure of a Sub-Fund using the commitment approach must not exceed 100% of the Sub-Funds’ NAV.

Additional Risk Requirements

Global exposure calculations for derivatives must consider numerous factors, including current value of underlying assets, counterparty risk, foreseeable market movements and the time available to liquidate positions.

For purposes of compliance and risk monitoring, any derivatives embedded in transferable securities or money market instrument count as derivatives, and any exposure to transferable securities or money market instruments gained through derivatives (except for index-based derivatives) counts as investment in those securities or instruments.

Asset Pooling

For effective management, and where the investment policies of the Sub-Funds permit, the Management Company may choose to pool, and manage in common, the assets of certain Sub-Funds (co-management).

A Sub-Fund’s interest in the pool is a function of the assets it has added to and subtracted from the pool, and of the investment performance of the pool. In the sense, the pool

functions according to the same principle as a UCITS or other collective investment (although one that is internal and whose only eligible direct “investors” are the Sub-Funds)

» Sustainable Investing

» Disclosure Regulation

On 18 December 2019, the European Council and European Parliament announced that they had reached a political agreement on the Disclosure Regulation, thereby establishing a pan-European framework to facilitate Sustainable Investment. The Disclosure Regulation provides for a harmonised approach in respect of sustainability-related disclosures to investors within the European Economic Area's financial services sector.

The scope of the Disclosure Regulation is extremely broad, covering a very wide range of financial products (e.g. UCITS funds, alternative investment funds, pension schemes etc.) and financial market participants (e.g. E.U. authorised investment managers and advisers). It seeks to achieve more transparency regarding how financial market participants integrate Sustainability Risks into their investment decisions and consider adverse sustainability impacts in the investment process. Its objectives are to (i) strengthen protection for investors of financial products, (ii) improve the disclosures made available to investors by financial market participants and (iii) improve the disclosures made available to investors regarding the financial products, to, amongst other things, enable investors make informed investment decisions.

For the purposes of the Disclosure Regulation, the Management Company meets the criteria of a "financial market participant", whilst the Fund and each Sub-Fund of the Fund qualify as a "financial product".

» Taxonomy Regulation

The Taxonomy Regulation aims to identify economic activities which qualify as environmentally sustainable.

Article 9 of the Taxonomy Regulation identifies such economic activities according to their contribution to six environmental objectives: (i) Climate change mitigation; (ii) Climate change adaptation; (iii) Sustainable use and protection of water and marine resources; (iv) Transition to a circular economy; (v) Pollution prevention and control; (vi) Protection and restoration of biodiversity and ecosystems.

An economic activity shall qualify as environmentally sustainable where that economic activity contributes substantially to one or more of the six environmental objectives, does not significantly harm any of the other five environmental objectives ("do no significant harm" or "DNSH" principle), is carried out in compliance with the minimum safeguards laid down in Article 18 of the Taxonomy Regulation and complies with technical screening criteria that have been established by the European Commission in accordance with the Taxonomy Regulation.

The Sub-Funds identified as Article 8 or Article 9 in their respective supplements may commit or may not commit to invest at the date of this Prospectus, in economic activities that contribute to the environmental objectives set out in the Article 9 of the Taxonomy Regulation.

For the Sub-Funds identified as Article 8, the "do no significant harm" principle applies only to those investments underlying the relevant Sub-Funds, if any, that take into account the European Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of these Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.

The Sub-Funds which are not identified as Article 8 or Article 9 in their respective supplements do not promote environmental or social characteristics and do not have as their objective sustainable investment and are therefore not subject to the additional disclosure requirements for financial products referred to in Article 8 or Article 9 of the Disclosure Regulation. For this reason, these Sub-Funds are not subject to the requirements of the Taxonomy Regulation and the investments underlying such Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.

For more information on Amundi's approach to the Taxonomy Regulation please refer to Appendix II – ESG Related Disclosures to this Prospectus and to the Amundi Sustainable Finance Statement on <https://www.amundi.lu/retail/regulatory-documents-11>.

Commission Delegated Regulation (EU) 2022/1288 of 6 April 2022

On 6 April 2022, the European Commission published its Level 2 Regulatory Technical Standards ("RTS") under both the Disclosure Regulation and the Taxonomy Regulation. The RTS were accompanied by five annexes, which provide mandatory disclosure templates.

The RTS are a consolidated set of technical standards, which provide additional detail on the content, methodology and presentation of certain existing disclosure requirements under the Disclosure Regulation and the Taxonomy Regulation.

Commission Delegated Regulation (EU) 2022/1288, setting out the RTS was published on 25 July 2022 in the Official Journal of the EU (OJ). The RTS apply from 1 January 2023.

Further to art. 14.(2) of the RTS, information about the environmental or social characteristics of Article 8 sub-funds is available in Annex II- ESG Related Disclosures to this Prospectus.

For further details on how a Sub-Fund complies with the requirements of the Disclosure Regulation, the Taxonomy Regulation and the RTS, please refer to the supplement for that Sub-Fund, the annual financial statements of the Fund and also to Appendix II- ESG Related Disclosures to this Prospectus.

» Overview of the Responsible Investment Policy

Since its creation, the Amundi group of companies (“Amundi”) has made responsible investment and corporate responsibility one of its founding pillars, based on the conviction that economic and financial actors have a greater responsibility towards sustainable society and that ESG is a long-term driver of financial performance.

Amundi considers that, in addition to economic and financial aspects, the integration within the investment decision process of ESG dimensions, including Sustainability Factors and Sustainability Risks, allows a more comprehensive assessment of investment risks and opportunities.

Integration of Sustainability Risks by Amundi

Amundi’s approach to Sustainability Risks relies on three pillars: a targeted exclusion policy, integration of ESG scores in the investment process and stewardship.

Amundi applies targeted exclusion policies to all Amundi’s active investing strategies by excluding companies which contravene the Responsible Investment Policy, such as those which do not respect international conventions, internationally recognized frameworks or national regulations.

Amundi has developed its own ESG rating approach. The Amundi ESG rating aims to measure the ESG performance of an issuer, i.e. its ability to anticipate and manage Sustainability Risks and opportunities inherent to its industry and individual circumstances. By using the Amundi ESG ratings, Investment Managers are taking into account Sustainability Risks in their investment decisions.

Amundi’s ESG rating process is based on the “best-in-class” approach. Ratings adapted to each sector of activity aim to assess the dynamics in which issuers operate.

ESG rating and analysis is performed within the ESG Research team of Amundi, which is also used as an independent and complementary input into the decision process as further detailed below.

The Amundi ESG rating is a ESG quantitative score translated into seven grades, ranging from A (the best scores) to G (the worst). In the Amundi ESG rating scale, the securities belonging to the exclusion list correspond to a G.

For corporate issuer’s ESG performance is assessed by comparison with the average performance of its industry, through the three ESG dimensions:

1. Environmental dimension: this examines issuers’ ability to control their direct and indirect environmental impact, by limiting their energy consumption, reducing their greenhouse emissions, fighting resource depletion and protecting biodiversity.
2. Social dimension: this measures how an issuer operates on two distinct concepts: the issuer’s strategy to develop its human capital and the respect of human rights in general.
3. Governance dimension: This assesses the capability

of the issuer to ensure the basis for an effective corporate governance framework and generate value over the long-term.

The methodology applied by Amundi ESG rating uses 38 criteria that are either generic (common to all companies regardless of their activity) or sector specific which are weighted according to sector and considered in terms of their impact on reputation, operational efficiency and regulations in respect of an issuer. Amundi’s scoring methodology for sovereign issuers relies on a set of about 50 criteria deemed relevant by Amundi ESG Research team to address Sustainability Risks and Factors.

To meet any requirement and expectation of Investment Managers in consideration of their sub-funds management process and the monitoring of constraints associated with a specific sustainable investment objective, the Amundi ESG ratings are likely to be expressed both globally on the three E, S and G dimensions and individually on any of the 38 criteria considered.

For more information on the 38 criteria considered by Amundi please refer to the Responsible Investment Policy and Amundi Sustainable Finance Statement available on <https://www.amundi.lu/retail/regulatory-documents-11>.

The Amundi ESG rating also considers potential negative impacts of the issuer’s activities on sustainability (principal adverse impact of investment decisions on Sustainability Factors, as determined by Amundi) including on the following indicators:

- Greenhouse gas emission and Energy Performance (emissions and energy use criteria)
- Biodiversity (waste, recycling, biodiversity and pollution criteria, responsible management Forest criteria)
- Water (water criteria)
- Waste (waste, recycling, biodiversity and pollution criteria)
- Social and employee matters (community involvement and human rights criteria, employment practices criteria, board structure criteria, labour relations criteria and health and safety criteria)
- Human rights (community involvement & human rights criteria)
- Anti-corruption and anti-bribery (ethics criteria)

The way in which and the extent to which ESG analyses are integrated, for example based on ESG scores, are determined separately for each Fund’s Sub-Fund by the Investment Manager.

Stewardship activity is an integral part of Amundi’s ESG strategy. Amundi has developed an active stewardship activity through engagement and voting. The Amundi Engagement Policy applies to all Amundi funds and is included in the Responsible Investment Policy.

More detailed information are included in the Amundi’s Responsible Investment Policy and in the Amundi Sustainable Finance Statement available at <https://www.amundi.lu/retail/regulatory-documents-11>.

Impact of Sustainability Risks on a Sub-Fund's return

Despite the integration of Sustainability Risks in the Sub-Funds' investment strategy as detailed above and in the Amundi Sustainable Finance Statement, certain Sustainability Risks will remain unmitigated.

Unmitigated or residual Sustainability Risks at the issuer level may result, when they materialise, over time horizons that can be also long-term, in a lower financial performance of certain holdings of the Sub-Funds. Depending on the exposure of the Sub-Funds to the affected securities, the impact of unmitigated or residual Sustainability Risks on the Sub-Fund's financial performance can have varying levels of severity.

Integration of Amundi's Sustainability Risks approach at Sub-Fund Level

The Sub-Funds listed below are classified pursuant to Article 8 of the Disclosure Regulation and aims to promote environmental or social characteristics and to invest in companies that follow good governance practices. In addition to applying the Responsible Investment Policy, these Article 8 Sub-Funds aims to promote such characteristics through increased exposure to sustainable assets gained by seeking to achieve an ESG score of their portfolios greater than of their respective benchmark or investment universe. The ESG portfolio score is the AUM-weighted average of the issuers' ESG score based on the Amundi ESG scoring model. These Article 8 Sub-Funds integrate Sustainability Risk via a targeted exclusion policy, via integration of ESG scores in their investment process and via a stewardship approach.

- Amundi S.F. – High Potential Bond
- Amundi S.F. - Diversified Short-Term Bond Select

The Fund does not currently have Sub-Funds that have sustainable investment as their objective pursuant to article

9 of the Disclosure Regulation.

FINALLY, IN ACCORDANCE WITH AMUNDI'S RESPONSIBLE INVESTMENT POLICY, THE INVESTMENT MANAGERS OF ALL OTHER SUB-FUNDS, NOT CLASSIFIED PURSUANT TO ARTICLE 8 OR 9 OF THE DISCLOSURE REGULATION, INTEGRATE SUSTAINABILITY RISKS IN THEIR INVESTMENT PROCESS. AS A MINIMUM VIA A STEWARDSHIP APPROACH AND POTENTIALLY, DEPENDING ON THEIR INVESTMENT STRATEGY AND ASSET CLASSES, ALSO VIA A TARGETED EXCLUSION POLICY.

PRINCIPAL ADVERSE IMPACTS

Principal Adverse Impacts are negative, material, or likely to be material effects on Sustainability Factors that are caused, compounded by or directly linked to investment decisions by the issuer.

Amundi considers PAIs via a combination of approaches: exclusions, ESG rating integration, engagement, vote, controversies monitoring.

For Sub-Funds classified pursuant to Article 8 or Article 9 of the Disclosure Regulation information on PAI consideration is detailed in the dedicated section of the relevant pre-contractual annex to this Prospectus.

For all other Sub-Funds not classified pursuant to art. 8 or art. 9 of the Disclosure Regulation Amundi considers only indicator n 14 (Exposure to controversial weapons, anti-personnel mines, cluster munitions, chemical weapons and biological weapons) of Annex 1, Table 1 of the RTS.

Information on principal adverse impacts on Sustainability Factors is available in the Fund's annual report in the Amundi Sustainable Finance Statement available at <https://www.amundi.lu/retail/regulatory-documents-11>.

» Risks to the Sub-Funds

The risk descriptions below correspond to the main risk factors named in the information about the Sub-Funds but also outline other risks, which may affect the Sub-Funds. While the risk information in this Prospectus is intended to give an idea of the main risks associated with each Sub-Fund, any Sub-Fund could be affected by risks not named here, and the risk descriptions themselves are not intended as exhaustive.

Any of these risks could cause a Sub-Fund to lose money, to perform less well than similar investments, to experience volatility (ups and downs in NAV), or to fail to meet its objective over any period of time.

» General Risks

Collective Investment Risk As with any investment fund, investing in any of these Sub-Funds involves certain risks an investor would not face if investing in markets directly. The actions of other investors, in particular sudden large outflows of cash, could interfere with orderly management of a Sub-Fund and cause the Sub-Fund's NAV to fall. An investor cannot direct or influence how a Sub-Fund is invested. A Sub-Fund's transactions may not be optimal for the tax efficiency of a given investor. The Sub-Funds are subject to various investment laws and regulations that limit the use of certain securities and investment techniques that might improve performance. The registration of a Sub-Fund in certain countries may create investment restrictions.

Credit Risk A bond, money market security, instrument or agreement could lose some or all of its value if the issuer or counterparty's financial health deteriorates.

If the financial health of the issuer or counterparty of a bond, money market security, instrument or agreement weakens, the value of the bond, money market security, instrument or agreement may fall. In extreme cases, the issuer or counterparty may delay scheduled payments to investors, or may become unable to make its payments at all.

Currency Risk Exchange rates between currencies can change rapidly and unpredictably. A Sub-Fund's currency exposure may increase the risk of fluctuations in Unit price and may negatively impact performance. Similarly, a Sub-Fund that invests in currency as its primary objective may experience greater than normal currency risk.

To the extent that the assets of a particular Sub-Fund are denominated in one or more currencies that are different from the Sub-Fund's base currency, changes in exchange rates can reduce investment gains, or increase investment losses, generated by those assets.

Conflicts of Interest Risk The Management Company or its affiliates may effect transactions that present a potential conflict between the Management Company's duty to a Sub-Fund and its duty to other investors or its own financial interests. Under applicable rules of conduct, the Management Company must try to avoid conflicts of interest and, when they cannot be avoided, must ensure that its

clients (including the Sub-Fund) are fairly treated. The Management Company will ensure that such transactions are effected on terms no less favourable to the Sub-Fund than if the potential conflict had not existed. However, neither the Management Company nor any of its affiliates will be liable to account to the Sub-Fund for any profit or any commission remuneration made or received from or by reason of such transactions or any connected transactions; nor, unless otherwise provided, will the Management Company's fees be adjusted.

Custody Risk Any bankruptcy or other serious failure affecting the Depositary could place at risk of loss those assets a Sub-Fund has deposited there (typically most or all assets). The risk of loss is higher for cash deposits, which are not segregated from other assets deposited with the Depositary in the way that non-cash assets are.

If the Depositary uses sub-custodians in other countries where the Sub-Funds invest, a Sub-Fund's assets are subject to similar risks at the sub-custodian level. In countries where custodial or settlement systems are not fully developed, there may be a risk that investments are not returned by the Depositary.

The Sub-Fund may invest from time to time in a country where the Depositary has no correspondent. In such a case, the Depositary will identify and appoint after due diligence a local custodian. This process may take time and deprive in the meantime the Sub-Fund of investment opportunities.

Similarly, the Depositary assesses the custody risk of the country where the Fund's assets are safe-kept on an ongoing basis and may recommend the immediate sale of the assets. In doing so, the price at which such assets will be sold may be lower than the price the Fund would have received in normal circumstances, potentially affecting the performance of the relevant Sub-Funds.

Central Securities Depositories In accordance with the UCITS Directive, entrusting the custody of the Fund's assets to the operator of a securities settlement system is not considered as a delegation by the Depositary and the Depositary is exempted from the strict liability of restitution of assets.

Defensive stance risk The more the current NAV gets close to the present value of the protected NAV, the more the Sub-Fund seeks to preserve capital by reducing or eliminating its exposure to dynamic investments and by investing in more conservative investments. This reduces or eliminates the Sub-Fund's ability to benefit from any future value increases.

Interest rate, Inflation, Deflation Risk When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.

With inflation, there is a risk that the real value of a Sub-Fund's assets or income may be worth less in the future, as inflation reduces the value of money. This risk can be

especially significant with cash or other assets whose overall rate of return over the long term may not keep pace with inflation. Conversely, deflation may erode the creditworthiness of an issuer, increasing the likelihood of default.

Jurisdiction Risk Non-Luxembourg investors should note that all the regulatory protections provided by their local regulatory authorities may not apply.

Legal Risk The characterisation of a transaction or a party's legal capacity to enter into it could render the financial contract unenforceable and the insolvency or bankruptcy of a counterparty could pre-empt otherwise enforceable contract rights.

Liquidity Risk In certain market conditions, securities that are liquid may become difficult to value, buy or sell, which could affect a Sub-Fund's ability to process redemption requests.

Market Risk Prices of many securities may be volatile and may rise or fall daily based on the activities of those financial markets where each security trades.

Operational risk Losses may occur due to human error or omission, process errors, system disruptions or external events.

Settlement Risk A party to a transaction faces a settlement risk when it has performed its obligations under a contract but has not yet received value from its counterparty.

Withholding tax Risk Certain income of a Sub-Fund may be subject to withholding taxes, and any such taxes will reduce the return on the investments. In order to avoid these, the Sub-Fund may need to receive certain information from an investor. In particular, the United States Foreign Account Tax Compliance Act (FATCA) requires the Fund to obtain certain identifying information about its investors and potentially provide that information to the United States Internal Revenue Service. Investors that fail to provide the requisite information will be subject to a 30% withholding tax on distributions to them and on proceeds from any sale or disposition. Any withholding taxes imposed will be treated as a distribution to the investors and all Units held by such investors will be compulsorily redeemed.

» Specific Investment Risks

Commodity-Related Investments Commodity values can be highly volatile, in part because they can be affected by many factors, such as changes in interest rates, changes in supply and demand, extreme weather, agricultural diseases, trade policies and political and regulatory developments.

Contingent Convertible Bonds ("CoCo") Certain Sub-Funds may invest in contingent convertible bonds to a limited extent and in any event not more than 5% of their assets, unless otherwise specified in their investment policies. CoCos are higher dividend paying bonds which may convert into the issuers equity or suffer capital losses if pre-specified events occur. Investment in CoCos may result in material losses to the Sub-Fund. Following certain trigger events, including an issuer's capital ratio falling below a particular level, the bond may be converted into the issuer's equity or suffer.

capital losses. These are innovative financial instruments and their behaviour under a stressed financial environment is thus unknown. This increases uncertainty in the valuation of CoCos and the risks of potential price contagion and volatility of the entire CoCos asset class, in particular as it still remains unclear whether holders of CoCos have fully considered the underlying risks of these instruments. Investment in CoCos may result in material losses to the relevant Sub-Fund. In certain scenarios, holders of CoCos will suffer losses ahead of holders of equity securities issued by the same issuer, contrary to the classic order of capital structure hierarchy where equity holders are expected to suffer the loss before debt holders. Some CoCos are also subject to the risk of discretionary cancellation of coupon payments by the issuer at any point, for any reason, and for any length of time. CoCos may be issued as perpetual instruments and it should not be assumed that these will be called on call date.

Callable bonds and perpetual bonds Certain Sub-Funds are permitted to invest in callable bonds (bonds whose issuers have the right to pay off the bond's principal before the maturity date). Any unexpected behaviour in interest rates could hurt the performance of callable bonds. The prices and yields of callable securities typically reflect the assumption that they will be paid off at a certain point before maturity. When interest rates fall, issuers tend to pay off these bonds and re-issue new ones at lower interest rates. Should this happen, the Sub-Fund may have no alternative but to reinvest the money from these prepaid bonds at a lower rate of interest. At the same time, when interest rates rise, borrowers tend not to prepay their low-interest mortgages. This may lead the Sub-Fund to receiving below-market yields until interest rates fall or the securities mature. Callable bonds may include perpetual bonds (bonds without a maturity date) which may be exposed to additional liquidity risk in certain market conditions. The liquidity for such investments in stressed market environments may be limited, negatively impacting the price they may be sold at, which in turn may negatively impact the Fund's performance.

Convertible and Preferred Securities Certain Sub-Funds may invest in convertible or preferred securities, which generally offer interest or dividends and which may be convertible to common stock at a set price or rate. The market value of convertible securities tends to decline as interest rates rise. In addition, such securities may be subject to fluctuations in response to numerous factors, including but not limited to, variation in the periodic operating results of the issuer, changes in investor perceptions of the issuer, the depth and liquidity of the market for such securities and changes in actual or forecasted global or regional economic conditions. Finally, because of the conversion feature, the market value of convertible securities also tends to vary with fluctuations in the market value of the underlying common stock as well as fluctuation in the market generally.

Corporate Hybrid Bonds Corporate hybrids bonds are subordinated bonds that have equity-like features and risks. They typically rank below other bonds for repayment in the event of insolvency of the issuer, have a long final maturity

and some may be issued as perpetual instruments without guarantee that they will be called on call date. Corporate hybrids bonds are also subject to the deferral of interest payments, are influenced by equity volatility more than other bonds and some may be subject to risk of cancellation of coupon payments by the issuer for any reason.

Equity In general, equities and equity-linked instruments involve higher risks than bonds or money market instruments, and their values fluctuate daily, sometimes rapidly and unpredictably.

Equities may be affected by many economic, political and other factors. They may lose value rapidly or over time, and may go up or down regardless of a company's performance. Different industries or market segments may react differently. Equities of rapidly growing companies may be more sensitive to negative publicity, where their value reflects high future expectations. Equities of companies that appear to be priced below their true value may continue to be undervalued.

Some equity-linked instruments, such as warrants and bonds cum warrants, are more volatile and speculative than ordinary shares. Warrants typically earn a return only if the price of a stock rises significantly relatively soon after the warrant is purchased; otherwise, the warrant may be worthless, generating a loss that is equal to its purchase price. In addition, a Sub-Fund may not be able to find a buyer for warrants it wishes to sell before the warrant expires.

High Yield or Below Investment Grade Securities These debt securities have lower credit quality and are considered speculative. The lower the credit quality, the greater the chance that an issuer may not be able to meet its principal and interest payments. These securities can also be subject to greater price volatility than higher quality debt securities, as their prices can be affected not only by interest rate risk but by overall economic news and by market perceptions of the creditworthiness of the issuer. These securities may have liquidity risk as well.

Illiquid securities Certain securities may be or have become hard to value, difficult to sell at a reasonable price or in large volume. traded in small markets or have long settlement periods.

Investment Funds The investments of the Sub-Funds in other investment funds may result in an increase in the total operating, administration, custodian and management fees/expenses.

If a Sub-Fund invests in other investment funds managed by the Management Company or its affiliates, the Sub-Fund will not be charged any subscription or redemption fees.

Money Market Investments When short-term interest rates fall, the yield on money market instruments generally falls.

Money market investments are designed to have very low credit risk, high liquidity. However, this is not guaranteed and they may carry a degree of credit risk and liquidity risk. In addition, a sudden strong rise in interest rates could cause the value of a money market instrument to decline.

Over time, yields on money market instruments may not keep pace with inflation.

Mortgage- and Asset-backed Securities The obligations underlying these debt securities (such as mortgages, credit card receivables and other consumer debt) may have greater credit, liquidity and interest rate risk than government bonds or other debt securities.

The performance of asset-backed securities (ABSs) and mortgage-backed securities (MBSs) depends in part on behavior of interest rates. The market prices of these securities generally contain an implicit assumption that they will be paid off at a certain point before their scheduled maturity. If, because of unexpected interest rate behaviour, they are paid off either significantly earlier or significantly later than anticipated, this can hurt their investment performance.

A fall in interest rates can trigger prepayment risk: the holders of the underlying debt usually refinance to take advantage of lower rates, ending the life of the security and generally forcing a Sub-Fund to invest the proceeds at a time when interest yields are lower than they were (prepayment risk). Conversely, a rise in interest rates can trigger extension risk: the underlying debt will usually not be refinanced, meaning that the Sub-Fund may either be locked into receiving a below-market level of interest or may only be able to sell the security at a loss (extension risk).

Other factors that can affect the performance of these securities include the default rate of the underlying assets, and the health of the economy. To the extent that a Sub-Fund is exposed to subprime mortgages or other credit extended to borrowers whose ability to make timely payments on their debt is less certain, the Sub-Fund takes on a higher degree of credit risk, valuation risk and liquidity risk.

Real estate-Related Investments These investments are affected by risks such as the cyclical nature of real estate values; general and local business conditions; excessive construction and growing competition; increasing property tax and management costs; population change and its impact on investment income; changes in building laws and regulations; losses arising from damage or court decisions; environmental risk; public law restrictions on rental; interest rate risk; changes associated with the attractiveness of land to tenants; and other property-market influences.

Small/Mid Cap equities Equities of small and mid-size companies can be more volatile and less liquid than equities of larger companies. Small and mid-size companies often have fewer financial resources, shorter operating histories and less diverse business lines, and as a result can be at greater risk of long-term business setbacks.

Structured Products Structured products are exposed both to the price movements of the underlying assets or indices and to the risk of default on the part of the issuer of the structured product. In addition, it may be difficult for a Sub-Fund to find a buyer for any structured product it wishes to sell. Structured products may also embed leverage, which can cause their prices to be more volatile than the underlying asset or index.

With credit-linked notes (a type of structured product), any decline in credit quality or default of the bond or other credit instrument to which the note is linked may cause the value of the note to fall.

Subordinated and Senior Bonds Certain Sub-Funds may invest in subordinated bonds which, in the case of insolvency of the issuer, rank below other debt instruments in relation to repayment, in particular below senior bonds which take priority over other debt instruments of the issuer. The chance of receiving any repayment of subordinated bonds on insolvency is reduced and therefore subordinated bonds represent a greater risk to the investor. Further, senior bonds will not necessarily receive the full amount they are owed.

Distressed Securities Some Sub-Funds may hold distressed securities. These securities may have become the subject of bankruptcy proceedings or in repayment default or have low credit ratings assessed by a credit rating agency. Distressed securities are speculative and involve significant risk. They may frequently not produce income while they are outstanding and may require the Sub-Fund to bear certain extraordinary expenses in order to protect and recover its holding. This may diminish a Sub-Fund's ability to achieve income for its Unitholders. A Sub-Fund may be subject to significant uncertainty as to the outcome of any plan in respect of the distressed securities (liquidation, reorganisation, exchange offer etc.) and ultimately the value derived from the distressed securities or from other assets or securities resulting from an exchange offer or reorganisation.

Concentration Risk Some Sub-Funds may concentrate their investments in a specific sector or country. This means that the Sub-Fund is more sensitive to specific economic, market, political or regulatory events related to the sector or country.

Volatility Futures Sub-Funds may invest in volatility futures and options. These futures and options are forms of exchange-traded derivatives. Volatility futures refer to the volatility implied in option pricing. The main rationale for investing in these futures is that the volatility can be viewed as an asset class on its own. Each Sub-Fund will only invest in volatility futures traded on regulated markets and the stock indices underlying the volatility indices will comply with article 44(1) of the 2010 Law.

» Specific Market Risks

Emerging Markets Investing in emerging markets and less developed countries involves different or increased risk compared with those of developed countries. These risks may include:

- political, economic, or social instability
- securities regulation that is either underdeveloped or highly restrictive, and may include features that disadvantage foreign investors (such as currency exchange controls or trading restrictions)
- enforcement of laws and regulations that is lax, unpredictable, selective, or routinely favorable to certain interests, combined with limited investor protections or opportunities for legal recourse (for example, limited or ineffective means for enforcing obligations or obtaining restitution)
- excessive fees, trading costs or taxation
- risk of seizure of assets
- incomplete, misleading, or inaccurate information about securities issuers

- lack of uniform accounting, auditing and financial reporting standards
- custody and settlement arrangements that may not be reliable, standardised, transparent, or may be vulnerable to improper influence or systems failures
- significant price volatility
- smaller market size, which can reduce liquidity and make it more difficult to value securities
- increased risk of high inflation, deflation, and fluctuations in currency exchange rates
- higher levels of fraud, corruption or incompetence

Russia Investing in Russia involves particular risks. Risks associated with custody ownership and counterparties are higher than in developed countries. For example, Russian custodial institutions may not have adequate insurance to cover losses due to theft, destruction or default. The Russian securities market may also suffer from impaired efficiency and liquidity, which may exacerbate price volatility and market disruptions.

Those Russian Transferable Securities and Money Market Instruments that are not listed on stock exchanges or traded on a Regulated Market (within the meaning of the 2010 Law), are limited to 10% of the assets of any given Sub-Fund. However, the Russian Trading System and the Moscow Interbank Currency Exchange are recognised as Regulated Markets, and thus investments in Transferable Securities and Money Market Instruments that are listed or traded on those markets are not limited to 10% of the assets of the relevant Sub-Funds. This does not mean they are free from the risks mentioned in the previous paragraph, or from a generally higher degree of risk than, for example, comparable European or US securities.

Investment in China A Shares trading through Stock Connect Some of the Sub-Funds may seek exposure to stocks issued by companies listed on China stock exchanges via the Stock Connect (Shanghai-Hong Kong and/or the Shenzhen-Hong Kong Stock Connect). Stock Connect is a trading programme that links stock markets in China and Hong Kong and may be subject to additional risk factors. Investors in Hong Kong and Mainland China can trade and settle shares listed on the other market via the exchange and clearing house in their home market. Stock Connect is subject to quota limitations, which may restrict a Sub-Fund's ability to deal via Stock Connect on a timely basis. This may impact that Sub-Fund's ability to implement its investment strategy effectively. Initially, the scope of Stock Connect includes all constituent stocks of the SSE 180 Index, the SSE 380 Index and all SSE-listed China A Shares and certain other securities as well as select securities listed on the Shenzhen Stock Exchange including any constituent stock of the Shenzhen Stock Exchange Component Index and the Shenzhen Stock Exchange Small/Mid Cap Innovation Index which has a market capitalisation of RMB6 billion or above and all Shenzhen Stock exchange listed shares of companies which have issued both China A-shares and H shares. Investors should note that a security may be recalled from the scope of Stock Connect. This may adversely affect the Sub-Fund's ability to meet its investment objective, e.g.

when it wishes to purchase a security which is recalled from the scope of Stock Connect.

Under Stock Connect, China A Shares listed companies and trading of China A Shares are subject to market rules and disclosure requirements of the China A Shares market. Any changes in laws, regulations and policies of the China A Shares market or rules in relation to Stock Connect may affect share prices. Foreign shareholding restrictions and disclosure obligations are also applicable to China A Shares.

The Investment Managers will be subject to restrictions on trading (including restriction on retention of proceeds) in China A Shares as a result of its interest in the China A Shares. The Investment Managers are solely responsible for compliance with all notifications, reports and relevant requirements in connection with their interests in China A Shares.

Under the current Mainland China rules, once an investor holds up to 5% of the shares of a company listed on the SSE, the investor is required to disclose his interest within three working days and during which he cannot trade the shares of that company. The investor is also required to disclose any change in his shareholding and comply with related trading restrictions in accordance with the Mainland China rules.

According to existing Mainland China practices, the Fund as beneficial owners of China A Shares traded via Stock Connect cannot appoint a proxy to attend shareholders' meetings on its behalf.

Investment in China by Direct Access to the China Interbank Bond Market (CIBM) Some of the Sub-Funds may seek exposure to RMB fixed income securities without particular license or quota directly on the CIBM via an onshore bond settlement agent. The CIBM Direct Access rules and regulations are relatively new. The application and interpretation of such investment regulations are relatively untested and there is no certainty as to how they will be applied and there is no precedent or certainty as to how the wide discretion of the PRC authorities and regulators may be exercised now or in the future. Certain restrictions may be imposed by the authorities on investors participating in the CIBM Direct Access and/or bond settlement agent which may have an adverse effect on the Sub-Fund's liquidity and performance.

Investment in China via R-QFII System The Management Company has obtained a R-QFII licence and may allocate R-QFII investment quotas to certain Sub-Funds. Following the obtaining of such R-QFII quota, the Management Company may, subject to any applicable regulations, apply for increase of its R-QFII quota to the extent it has utilised its entire initial R-QFII quota on behalf of the relevant Sub-Funds. There can however be no assurance that additional R-QFII quota can be obtained. The size of the quota may be reduced or cancelled by the relevant Chinese authorities if the Management Company is unable to use its R-QFII quota effectively. Should the Management Company lose its R-QFII status or its investment quota is revoked or reduced, the Sub-Funds may no longer be able to invest directly in China or may be required to dispose of its investments held through the quota which could have an adverse effect on its performance or result in a significant loss.

PRC Custodian Risks: The Management Company (in its capacity as a R-QFII) and the Depositary have appointed the PRC Custodian as custodian (the "R-QFII Local Custodian") to maintain the assets of the relevant Sub-Funds in custody in the PRC, pursuant to relevant laws and regulations. The Depositary will make arrangements to ensure that the R-QFII Local Custodian has appropriate procedures to properly safe-keep the assets of the relevant Sub-Funds, in accordance with applicable requirements, including maintaining records that clearly show that the respective assets of such Sub-Funds are recorded in the name of such Sub-Funds and segregated from the other assets of the R-QFII Local Custodian. There is a risk that the Sub-Fund may suffer losses, whether direct or consequential, from the default or bankruptcy of the RQFII Local Custodian or disqualification of the same party from acting as a custodian. This may adversely affect the Sub-Fund in the execution or settlement of any transaction or in the transfer of any funds or securities.

Country Risk – India Given the focus of its investment strategy, the success of the Sub-Fund will depend in large part on the general economic and business conditions in India. Risks associated with the investments in India, including but not limited to the risks described below, could adversely affect the performance of the Sub-Fund and result in substantial losses. No assurance can be given as to the ability of the Sub-Fund to achieve any return on its investments and, in turn, any return on an investor's investment in the Sub-Fund. Accordingly, in acquiring Units in the Sub-Fund, appropriate consideration should be given to the following factors:

Economic Factors

The success of the Sub-Fund's investments depends in part on general economic and business conditions in India. A significant change in India's economic liberalization and deregulation policies could adversely affect business and economic conditions in India generally and in particular if new restrictions on the private sector are introduced or if existing restrictions are not relaxed over time. Notwithstanding current policies of economic liberalization, the roles of the Indian central and state governments in the Indian economy as producers, consumers and regulators have remained significant. The current government has announced policies and taken initiatives that support the continued economic liberalization policies that have been pursued by previous governments. There is, however, no assurance that these liberalization policies will continue in the future. The rate of economic liberalization could change, and specific laws and policies affecting taxation, foreign investment, currency exchange and other matters affecting the Sub-Fund's investments could change as well. In addition, laws and policies affecting the various investments held by the Sub-Fund could change, adversely affecting the values or liquidity of securities issued by those companies.

Political Factors

India's relations with other neighbouring countries historically have been tense. Since the separation of India and Pakistan upon their independence in 1947, a source of ongoing tension between the two countries has been the dispute over the northern border state of Kashmir. India and

Pakistan have fought three wars since independence, and in the last several years both countries have conducted successful tests of nuclear weapons and missile delivery systems. Although there are periodic efforts to normalize relations between the two countries, significant military confrontations between India and Pakistan have occurred in the disputed region of Kashmir in the last few years and both India and Pakistan continue to allocate substantial resources to the defense of their borders as a result. More recently, terrorist attacks in November 2008 in Mumbai have heightened tensions and security risks in both countries. Events of this nature in the future could influence the Indian economy and could have a material adverse effect on the market for securities of Indian companies, and on the market for the services of Indian companies in which the Sub-Fund may have investments. The Government of India is also confronted by insurgencies and separatist movements in several states in addition to Kashmir.

Bond Market Risks

The Indian bond markets especially the corporate bond markets are smaller in size and depth which could impact the liquidity in the instruments held by the Sub-Fund. Also, due to lack of broad based participation from a varied set of investors, the market participants often have uni-directional views which result in extreme reactions in valuations of certain instruments. The bond markets also have dual regulators with the Reserve Bank of India regulating the government bond market and SEBI regulating the corporate bond market which leads to dealing with multiple settlement and trading practices.

Foreign Portfolio Investors (“FPI”) Registration

For accessing the Indian securities market, the Sub-Fund will seek to register with Securities and Exchange Board of India (“SEBI”) as a sub-account of the Manager, which is in turn registered as an FPI. The investment by the Sub-Fund is dependent on the continued registration of the Manager as an FPI and the Sub-Fund as its sub-account. In the event the registration of the Manager as an FPI or the Sub-Fund as a sub-account is terminated or is not renewed, the Sub-Fund could potentially be forced to redeem the investments held in the Sub-Fund, and such forced realisation could adversely affect the returns to the Holders of the Sub-Fund, unless the approval of SEBI has been obtained to transfer the subaccount to another FPI or the Sub-Fund registers itself with SEBI as an FPI.

Risk relating to Regulatory Framework for FPI investment in Debt Capital Markets in India

Under the current regulatory framework for FPI investment in local Indian debt securities, investments by FPIs in local Indian debt securities are capped by the limit as allocated by SEBI and an auction process is carried out periodically to determine allocation of the limits to various FPIs. Moreover, there is a specified time window allocated within which the FPI can utilise the limits that have been allocated. Thus, the Sub-Fund faces risk relating to changes in the regulatory framework for FPI investment in debt capital markets and the outcome of the auction process. These changes may affect the investment activities of the Sub-Fund.

» Risks of Investment Techniques

Collateral management Counterparty risk arising from investments in OTC financial derivative instruments and securities lending transactions and repurchase agreements is generally mitigated by the transfer or pledge of collateral in favour of the relevant Sub-Fund. However, transactions may not be fully collateralised. Fees and returns due to the Sub-Fund may not be collateralised. If a counterparty defaults, the Sub-Fund may need to sell non-cash collateral received at prevailing market prices. In such a case the Sub-Fund could realise a loss due, inter alia, to inaccurate pricing or monitoring of the collateral, adverse market movements, deterioration in the credit rating of issuers of the collateral or illiquidity of the market on which the collateral is traded. Difficulties in selling collateral may delay or restrict the ability of the Sub-Fund to meet redemption requests.

A Sub-Fund may also incur a loss in reinvesting cash collateral received, where permitted. Such a loss may arise due to a decline in the value of the investments made. A decline in the value of such investments would reduce the amount of collateral available to be returned by the Sub-Fund to the counterparty as required by the terms of the transaction. The Sub-Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Sub-Fund.

Conflicts of interests and efficient portfolio management techniques and total return swaps To the extent that a Sub-Fund uses efficient portfolio management techniques, such as securities lending, repurchase transactions and reverse repurchase transactions as well as TRS, and in particular if it reinvests collateral associated with these techniques, the Sub-Fund takes on counterparty, liquidity, legal, custody (e.g. absence of the assets’ segregation) and operational risks, which can have an impact on the performance of the Sub-Fund concerned.

To the extent that related parties (companies of the same group as the Management Company or as the investment manager or the sub-investment manager) may intervene as either counterparty or agent (or in any other role) in efficient portfolio management operations and in particular in securities lending operations, a potential conflict of interest risk may arise. The Management Company is responsible for managing any conflict that might arise and avoid that such conflicts negatively impact unitholders.

All the revenues arising from repurchase transactions and stock lending transactions shall be returned to the relevant Sub-Fund following the deduction of any direct and indirect operational costs and fees. Such direct and indirect operational costs and fees, which shall not include hidden revenue, shall include fees and expenses payable to agents or counterparties at normal commercial rates. Amundi group policy for prevention and management of conflict of interests is available on the website of Amundi (<https://www.amundi.lu/retail/regulatory-documents-11>)

Counterparty risk An entity with which the Sub-Fund does business (e.g. entering into OTC derivative agreements or efficient portfolio management techniques such as repurchase or securities lending transactions) could become

unwilling or unable to meet its obligations to the Sub-Fund. A Sub-Fund may enter into OTC derivative agreements, including swap agreements, as well as efficient portfolio management techniques as more fully described in Appendix I. Such agreements may expose the relevant Sub-Fund to risks with regard to the credit status of its counterparties as a contract party may default on their obligations to meet the conditions of such agreements. The default risk arising from such transactions may, however, not exceed 10% of the net assets if the counterparty is a credit institution. In all other cases, the limit is a maximum of 5% of the Net Asset Value of each Sub-Fund.

Consistent with best execution, and when it is in the best interests of the Sub-Fund and its Unitholders, a Sub-Fund may also enter into OTC derivative agreements or efficient portfolio management techniques with other companies in the same Group of Companies as the Management Company or Investment Manager.

Derivatives Certain derivatives may behave unexpectedly or may expose a Sub-Fund to losses that are significantly greater than the cost of the derivative.

Derivatives, in general, are highly volatile, create leverage, do not carry any voting rights and may be very complex. Derivatives may also involve credit, market, legal, operational, liquidity, concentration and settlement risks. The pricing and volatility of many derivatives (especially credit default swaps) may diverge from that of their underlying exposures. In difficult market conditions, it may not be possible to place orders that would limit or offset the market exposure or financial losses created by certain derivatives.

There is no guarantee that the use of derivatives will yield positive results for a Sub-Fund.

The types of derivatives used are listed under the section “Derivatives and Efficient Portfolio Management” above.

Hedging and Income Enhancement Strategies To the extent that a Sub-Fund uses strategies designed to enhance return or offset specific risks (such as seeking to eliminate currency risks in a Unit Class that is denominated in a different currency than the Sub-Fund’s portfolio), these measures may work imperfectly, may not be feasible at times, or may fail completely. These strategies may include the use of derivatives and efficient portfolio management techniques which may have an adverse impact on the performance of a Sub-Fund. In addition, hedging involves costs, which reduce investment performance. To the extent that a hedge is successful, it generally eliminates opportunities for gain as well as risks of loss.

Investment in financial derivative instruments--Some Sub-Funds may invest a portion of their assets in financial derivative instruments. The risks posed by such instruments and techniques, which can be extremely complex and may involve leverage, include: (1) credit risks (the exposure to the possibility of loss resulting from a counterparty’s failure to meet its financial obligations); (2) market risk (adverse movements in the price of a financial asset); (3) legal risks (the characterisation of a transaction or a party’s legal capacity to enter into it could render the financial contract unenforceable and the insolvency or bankruptcy of a

counterparty could pre-empt otherwise enforceable contract rights); (4) operational risk (inadequate controls, deficient procedures, human error, system failure or fraud); (5) documentation risk (exposure to losses resulting from inadequate documentation); (6) liquidity risk (exposure to losses created by an inability prematurely to terminate the derivative); (7) system risk (the risk that financial difficulties in one institution or a major market disruption will cause uncontrollable financial harm to the financial system); (8) concentration risk (exposure to losses from the concentration of closely related risks such as exposure to a particular industry or exposure linked to a particular entity); and (9) settlement risk (the risk faced when one party to a transaction has performed its obligations under a contract but has not yet received value from its counterparty).

Use of derivative techniques involves certain additional risks, including (i) dependence on the ability to predict movements in the price of the securities hedged; (ii) imperfect correlation between movements in the securities on which the derivative is based and movements in the assets of the underlying portfolio; and (iii) possible impediments to effective portfolio management or the ability to meet short-term obligations because a percentage of the portfolio’s assets is segregated to cover its obligations.

In hedging a particular position, any potential gain from an increase in value of such position may be limited.

Investment Management and Opposing Positions The Investment Manager, or its affiliates, may make investment decisions, undertake transactions and maintain investment positions for one or more clients that may affect the interests of other clients. This may pose a conflict of interest for the Investment Manager, particularly if the company or its staff earn higher compensation from one mandate, product or client than for another. For instance, Investment Manager, may buy and sell the same security at the same time for different clients or maintains market positions in the same instruments with market exposure in opposite directions at the same time for different clients. Such conflicts may be more prevalent where the Investment Manager and individual portfolio managers may manage long only, long-short or short only mandates. Such investment decisions, transactions or positions are taken, made and maintained in accordance with established policies and procedures designed to ensure an appropriate aggregation and allocation of trades and investment decisions executed or taken without creating undue advantage or disadvantage to any of the particular mandate, product or client.

In certain situations, the management of these conflicts may result in a loss of investment opportunity for clients or may cause the Investment Manager to trade or maintain market exposures in a manner that is different from how it would trade if these conflicts were not present, which may negatively affect investment performance.

Legal risk The use of efficient portfolio management techniques and financial derivative instruments involves legal risks. The characterization of a transaction or a party’s legal capacity to enter into it could render the financial contract unenforceable and the insolvency or bankruptcy of a counterparty could pre-empt otherwise enforceable contract rights.

Leverage To the extent that a Sub-Fund creates leverage (invests in a way that magnifies the gain or loss it would normally receive), its NAV is likely to be more volatile and the risk of large losses is greater. Leverage risk can be created by many derivatives, by taking short positions (which also involves derivatives), and securities lending.

Use of techniques and instruments

Repurchase/Reverse Repurchase Transactions risk The entering by a Sub-Fund into repurchase and reverse repurchase transactions involves certain risks and there can be no assurance that the objective sought to be obtained from such use will be achieved. Investors must notably be aware that (1) in the event of the failure of the counterparty with which cash of a Sub-Fund has been placed there is the risk that collateral received may yield less than the cash placed out, whether because of inaccurate pricing of the collateral, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (2) (i) locking cash in transactions of excessive size or duration, (ii) delays in recovering cash placed out, or (iii) difficulties in realising collateral, may restrict the ability of the Sub-Fund to meet payment obligations arising from sale requests, security purchases or, more generally, reinvestment. Reinvestment of the cash collateral received in connection with repurchase transactions involves risks associated with the type of investments made and the risk that the value on return of the reinvested cash collateral may decline below the amount owed to the counterparties, and may create a leverage effect which will be taken into account for the calculation of the Fund's global exposure. The use of repurchase transactions also involves legal risks. The characterization of a transaction or a party's legal capacity to enter into it could render the financial contract unenforceable and the insolvency or bankruptcy of a counterparty could pre-empt otherwise enforceable contract rights. The use of repurchase transactions also involves operational risk, i.e. the risk of losses due to errors, service disruptions or other failures, as well as fraud, corruption, electronic crime, instability, terrorism or other irregular events in the settlement and accounting process. A Sub-Fund entering into repurchase transactions may also be exposed to custody risk, i.e. the risk of loss on assets held in custody in the event of a custodian's (or sub-custodian's) insolvency, negligence, fraud, poor administration or inadequate recordkeeping.

Securities Lending risk Loaned securities may not be returned or returned in a timely manner in the event of a default, bankruptcy or insolvency of the borrower, and rights to the collateral may be lost if the lending agent defaults. Should the borrower of securities fail to return securities lent by a Sub-Fund, there is a risk that the collateral received may be realised at a value lower than the value of

the securities lent out, whether due to inaccurate pricing of the collateral, adverse market movements in the value of the collateral, a deterioration in the credit rating of the issuer of the collateral, or the illiquidity of the market in which the collateral is traded. A Sub-Fund may reinvest the cash collateral received from borrowers. Reinvestment of the cash collateral received in connection with securities lending transactions involves risks associated with the type of investments made and the risk that the value on return of the reinvested cash collateral may decline below the amount owed to the counterparties, and may create a leverage effect which will be taken into account for the calculation of the Fund's global exposure. Delays in the return of securities on loan may restrict the ability of the Sub-Fund to meet delivery obligations under security sales or payment obligations arising from redemption requests. Securities lending also carries operational risks such as the non-settlement of instructions associated with securities lending. Such operational risks are managed by means of procedures, controls and systems implemented by the securities lending agent and the Management Company. The use of securities lending transactions also involves legal risks. The characterization of a transaction or a party's legal capacity to enter into it could render the financial contract unenforceable and the insolvency or bankruptcy of a counterparty could pre-empt otherwise enforceable contract rights. The use of securities lending transactions also involves operational risk, i.e. the risk of losses due to errors, service disruptions or other failures, as well as fraud, corruption, electronic crime, instability, terrorism or other irregular events in the settlement and accounting process. A Sub-Fund entering into securities lending transactions may also be exposed to custody risk, i.e. the risk of loss on assets held in custody in the event of a custodian's (or sub-custodian's) insolvency, negligence, fraud, poor administration or inadequate recordkeeping.

Short Positions A Sub-Fund may use derivatives to implement synthetic short positions, which it may or may not offset with corresponding long positions. Taking short positions involves leverage of the Sub-Fund's assets and presents various risks. If the price of the instrument or market which the Sub-Fund has taken a short position on increases, then the Sub-Fund will incur a loss equal to the increase in price from the time that the short position was entered into plus any premiums and interest paid to a counterparty. Therefore, taking short positions involves the risk that losses may be exaggerated, potentially losing more money than the actual cost of the investment.

» Sustainable Investment Risk

The Investment Manager considers the principal adverse impact of investment decisions on Sustainability Factors when making investments on behalf of the Sub-Funds. As indicated in the relevant supplement certain Sub-Funds may

also be established with either (i) investment policies that seek to promote environmental and social characteristics or (ii) a Sustainable Investment objective. In managing the Sub-Funds and in selecting the assets which the Sub-Fund shall invest in, the Investment Manager applies Amundi's Responsible Investment Policy.

Certain Sub-Funds may have an investment universe that focuses on investments in companies that meet specific criteria including ESG scores and relate to certain sustainable development themes and demonstrate adherence to environmental, social and corporate governance practices. Accordingly, the universe of investments of such Sub-Funds may be smaller than that of other funds. Such Sub-Funds may (i) underperform the market as a whole if such investments underperform the market and/or (ii) underperform relative to other funds that do not utilize ESG criteria when selecting investments and/or could cause the Sub-Fund to sell for ESG related concerns investments that both are performing and subsequently perform well.

Exclusion or disposal of securities of issuers that do not meet

certain ESG criteria from the Sub-Fund's investment universe may cause the Sub-Fund to perform differently compared to similar funds that do not have such a Responsible Investment Policy and that do not apply ESG screening criteria when selecting investments.

Sub-Funds will vote proxies in a manner that is consistent with the relevant ESG exclusionary criteria, which may not always be consistent with maximising the short-term performance of the relevant issuer. Further information relating to Amundi's ESG voting policy may be found in the Amundi's Responsible Investment Policy available at <https://www.amundi.lu/retail/regulatory-documents-11>.

The selection of assets may rely on a proprietary ESG scoring process that relies partially on third party data. Data provided by third parties may be incomplete, inaccurate or unavailable and as a result, there is a risk that the Investment Manager may incorrectly assess a security or issuer.

» Investing in the Sub-Funds

» Unit Classes

Available Classes

Unit Classes are described at the beginning of “The Sub-Funds”.

All information in this prospectus about Unit Class availability is as at the prospectus date. For the most current information on available Unit Classes, go to www.amundi.lu/amundi-funds or request a list free of charge from the Management Company.

Distribution Policy

Non-Distributing Units accumulate their entire earnings whereas Distributing Units may pay distributions. The Management Company determines the distributions to be made.

For Distributing Units dividends (if any) will be declared at least annually. Dividends may also be declared at other times or on other schedules as may be determined by the Management Company. Unitholders of Distributing Units may choose to receive a dividend cash payment. If no such instruction is given by the unitholder, dividends will be reinvested in additional Units within the same Class of the same Sub-Fund.

No interest is paid on dividends awaiting information or instruction from a Unitholder. Unclaimed dividend payments will be returned to the Sub-Fund after five years. No Sub-Fund will make a dividend payment if the assets of the Fund are below EUR 1,250,000, or if paying the dividend would cause that situation to occur.

Distributions will, in principle, be paid out of the net income available for distribution. The Management Company may, in compliance with the principle of equal treatment of Unitholders, decide that for some Unit Classes, distributions will be paid out of the gross investment income. For certain Unit Classes, the Management Company may decide from time to time to distribute capital or capital gains. See the relevant country specific information.

» Buying, Switching, and Redeeming Units

Placing Orders

You may place orders to buy, switch or redeem Units at any time by fax, letter or by any other method deemed acceptable by the Management Company, to the Transfer Agent, a paying agent or a distributor. Before buying or switching Units, you should read the relevant KID. You may be asked to declare that you have received an up-to-date KID.

When placing an order, you must include all necessary identifying information, documentation and instructions as to the Sub-Fund, Unit Class, account, and size and direction of transaction (buying or redeeming). It is important to keep your account details up to date.

Dealing Time

Any application to buy, switch or redeem Units must be received by the Administrator (on behalf of the Management Company from the Agents (if any) or directly from the investor), before the cut-off time shown in “The Sub-Funds” for the relevant Sub-Fund. Any orders not considered to have arrived before the cut-off time will be processed on the relevant Sub-Fund’s next Business Day.

If you are investing through an Agent, then, subject to the principle of equal treatment of Unitholders, different time limits or days when the Agent is open for business may apply, and may supersede the timing information given in this Prospectus. Agents will only forward applications received prior to the cut-off time. The Management Company may permit a purchase, redemption or switch application to be accepted after the cut-off time, but only if

- the Distributor and/or its Agent(s) received the application before the cut-off time
- the acceptance of the request does not affect other Unitholders; and
- there is equal treatment of all Unitholders

Payment of the dealing price is to be made in the Pricing Currency or any other currency acceptable to the Management Company. Any currency conversion costs as well as any costs incurred on cash transfers will be charged to the Unitholder.

Buying Units

To make an initial investment, you must submit a completed application form to the Transfer Agent or Agent. Payment should be made by money transfer net of any charges from your account. Please ensure that your payment amount meets the minimum initial investment amount for the Sub-Fund and Unit Class you wish to purchase. No Units will be registered until the Transfer Agent has received a complete and accurate application form and full payment for your initial investment.

You may also pay for Units in accordance with the requirements for regular instalments in an automatic investment plan. For more information, contact your financial advisor.

If we do not receive full payment for your Units within three (3) Business Days of the relevant Valuation Day, with the exception of the SBI FM India Bond where full payment needs to be received within four (4) Business Days of the relevant Valuation Day, we may cancel your transaction and return the payment to you, less any costs incurred in attempting to process your request.

Where purchases are through an Agent for which payments may have to be received within a different timeframe, the Agent will inform you of the relevant procedure.

A shorter timeframe may be applicable to some Sub-Funds as more fully described in the sales documents.

The investor will be liable for any costs (including, at the discretion of the Management Company, interest) of late or

non-payment of the dealing price and the Management Company will have the power to redeem all or part of the investor's holding of Units in the Fund in order to meet such costs or to take such other action as may be appropriate.

The Management Company reserves the right to reject any request to buy Units, whether for an initial or additional investment, for any reason. If your request is rejected, we will return your purchase money by banker's draft or electronic transfer, at your expense and sole risk.

Entry Charges

On certain Unit Classes, an initial sales charge is levied which the Distributor may share with its Agents. The following table shows the maximum rate for each Unit Class, as a percentage of Net Asset Value:

Unit Class	Maximum Initial Sales Charge
Classes A and A2	5%
Class AT	3%
Class D	3%
Class E	4.75%
Class E2	4.00%
Class G and G2	1.5% - 3.00% according to sub-fund type
Class H	2%
Classes B, C, U, W and W1	None; but see deferred sales charge table below
Classes F, F2, I, I2, J, J2, M, M2, P, P2, R, R2, S, T and X	None

Details of sales charges applicable to each Unit class and Sub-Fund are shown in "The Sub-Funds".

Contingent Deferred Sales Charges (CDSC)

On certain Unit Classes, a deferred sales charge is levied on Units that are redeemed within a certain amount of time after purchase. The following table shows how the rate is calculated for each Unit Class that levies this charge.

Unit Class	CDSC
Class B	Maximum 4% if redeemed within the first year of purchase, 3% if redeemed within the second year, 2% if redeemed within the third year and 1% if redeemed within the fourth year
Class C	Maximum 1% during the first year of investment; none thereafter
Class U	Maximum 3% if redeemed within the first year of purchase, 2% if redeemed within the second year and 1% if redeemed within the third year
Class W	4% if redeemed within the first year of purchase, 3% if redeemed within the second year, 2% if redeemed within the third year and 1% if redeemed within the fourth, fifth or sixth years
Class W1	2% if redeemed within the first year of purchase, 1.67% if redeemed within the second year, 1.33% if redeemed within the

third year, 1.00% if redeemed within the fourth year, 0.67% if redeemed within the fifth year, and 0.33% if redeemed within the sixth year, before the Maturity Date
--

The relevant rates applicable to the Unit Classes of the Sub-Funds are specified in "The Sub-Funds" where relevant. Unitholders should note that for the purpose of determining the number of years Units have been held:

- the anniversary of the date of subscription shall be used.
- the Units held the longest period are redeemed first.
- the Units which a Unitholder receives upon a conversion carry the holding period(s) which corresponds to the holding period(s) of the Units which were converted.
- when a Unitholder converts Units which have been subscribed at different times to Units of another Sub-Fund, the Administrator will convert the Units held for the longest period.

Units acquired by reinvestment of dividends or distributions will be exempt from the deferred sales charge in the same manner as the deferred sales charge will also be waived on redemption of Classes B, C, T, U, W and W1 Units arising out of death or disability of a Unitholder or all Unitholders (in the case of joint unitholding).

The amount of any deferred sales charge is based on the current market value and the purchase price of the Units being redeemed whichever is lower. For example, when a Unit that has appreciated in value is redeemed during the deferred sales charge period, a deferred sales charge is assessed only on its initial purchase price.

In determining whether a deferred sales charge is payable on any redemption, the Sub-Fund will first redeem Units not subject to any deferred sales charge, and then Units held longest during the deferred sales charge period. Any deferred sales charge due will be retained by the Management Company, which is entitled to such deferred sales charge.

Switching Units

You may switch Units of any Sub-Fund and Unit Class into Units of any other Sub-Fund within the same Unit Class, provided that:

- you meet all eligibility requirements for the Unit Class into which you are requesting to switch
- the switch meets the minimum investment amount of the Sub-Fund being switched into, and if it is a partial switch, does not leave less than the minimum investment amount in the Sub-Fund being switched from
- you switch into a Sub-Fund and Unit Class that is available in your country of residence
- you specify the relevant Sub-Fund and Class of Units as well as the number of Units or monetary amount you wish to switch and the newly selected Sub-Fund into which Units are to be exchanged

An exchange of Units may be a way of switching between Distributing, Non-Distributing, Hedged and Non-Hedged Units within the same Unit Class of the same or another Sub-Fund. All exchanges are processed based on the NAV

of the two Sub-Funds on the same Valuation Day, adjusted for any applicable exchange fee.

Note that for tax purposes a switch may be treated as a simultaneous redemption and purchase; therefore, you may realise a taxable gain or loss in connection with the exchange under the laws of the country of your citizenship, residence or domicile.

All terms relating to redemptions apply also to the redemption aspects of any switch.

If, on any given date, conversion requests representing more than 10% of the Units in issue in any Sub-Fund may not be effected without affecting the relevant Sub-Fund's assets, the Management Company may, upon consent of the Depositary, defer conversions exceeding such percentage for such period as is considered necessary to sell part of the relevant Sub-Fund's assets in order to be able to meet the substantial conversion requests

The Distributor or its Agents may offer the possibility of exchanging all or part of the Units held in a Sub-Fund into Units of the same class of another sub-fund belonging to the Amundi Funds II fund, subject to this fund's offering document.

Switch Fees

When switching into another Sub-Fund charging a higher sales charge, the difference between the two sales charges will be deducted from the amount being switched.

When switching from Class A, E, F or G Units into any of the same Units of another Sub-Fund, a switch fee of up to 1% may be charged. The Distributor or its Agents will let you know whether this switch fee applies.

When switching Class B, C, U, W or W1 Units (which are subject to a deferred sales charge) to the same respective Units of another Sub-Fund, there is no deferred sales charge at that time. However, you will be charged the deferred sales charge on any Units you sell at a time when the original deferred sales charge would have applied.

Redeeming Units

When redeeming Units, you may indicate either a Unit amount (including fractional Units) or a currency amount. All requests will be dealt with in the order in which they were received.

When you redeem Units, payment of the redemption price will be made by bank transfer with a value date at the latest three (3) Business Days following the relevant Valuation Day, with the exception of the SBI FM India Bond where payment will be made at the latest four (4) Business Days following the relevant Valuation Day, except for redemptions made through an Agent for which payment of the redemption price may be made within a different timeframe in which case, the Agent will inform the relevant Unitholder of the procedure relevant to that Unitholder.

You may also redeem Units through a systematic withdrawal plan, if your Agent offers such a plan. Please contact your financial adviser for further information.

You can have your redemption proceeds converted to a different currency. Contact the Transfer Agent for terms and fees prior to placing a redemption request (see page 103).

We will pay redemption proceeds only to the Unitholder(s) identified in the Register of Unitholders. The Fund does not pay interest on redemption proceeds whose transfer or receipt is delayed for any reason.

If your redemption order would leave an investment balance that is less than the minimum investment amount in the Sub-Fund, we may redeem all of your Units in that Sub-Fund and send you the proceeds.

If, on any given date, payment on redemption requests representing more than 10% of the Units in issue in any Sub-Fund may not be effected out of the relevant Sub-Fund's assets or authorised borrowing, the Management Company may, upon consent of the Depositary, defer redemptions exceeding such percentage for such period as is considered necessary to sell part of the relevant Sub-Fund's assets in order to be able to meet the substantial redemption requests.

» Calculation of NAV

The NAV of each Sub-Fund and Unit Class for each Valuation Day (as described below), is at the end of that day. Each NAV is stated in the Pricing Currency of the respective Unit Class, and is calculated up to three decimal places. The following formula is used to calculate NAV per Unit for each Unit Class of a Sub-Fund:

$$\frac{(\text{assets-liabilities}) \text{ per Unit Class}}{\text{number of outstanding Units of a Class}} = \text{NAV}$$

Appropriate provisions will be made to account for the charges and fees attributable to each Sub-Fund and Unit Class as well as accrued income on investments.

The Net Asset Value is normally calculated on each Business Day (the "Valuation Day") by reference to the value of the underlying assets of the relevant Class within the relevant Sub-Fund. These underlying assets are valued at the last available prices at the time of valuation on the relevant Valuation Day.

Swing pricing: Unitholders are advised that, to the extent that the Board considers that it is in the best interest of Unitholders of a particular Sub-Fund, if on Valuation Day, when the Board believes that trading in a Sub-Fund's Units will require significant purchases or sales of portfolio investments, the Board may adjust the sub-fund's NAV to more closely reflect the actual prices of the underlying transactions, based on estimated dealing spreads, costs and other market and trading considerations. In general, the NAV will be adjusted upwards when there is a strong demand to buy Sub-Fund's Units and downward when there is a strong demand to redeem Sub-Fund's Units. Any such adjustment is applied to all the Sub-Fund's transactions of a given day in respect of those Sub-Funds that apply full swing pricing, and for those Sub-Funds that apply partial swing pricing when net demands exceed a certain threshold set by the Board. Those adjustments follow the objective to protect the Fund's long-term Unitholders from costs associated with

ongoing subscription and redemption activity and are not meant to address specific circumstances of each individual investor. Therefore, orders in the opposite direction of the Sub-Fund's net transaction activity may be executed at the expense of all the other orders. For any given Valuation Day, the adjustment will normally not be larger than 2% of the NAV, but the Board can raise this limit when necessary to protect the interests of Unitholders. In such a case, a communication to investors will be published in the dedicated website. The adjustment applied to any given order may be obtained upon request addressed to the Management Company. The list of Sub-Funds applying swing pricing and whether partial or full swing pricing is applied can be found on www.amundi.lu.

» Other Fees, Charges and Expenses

The following fees, charges and expenses are also included in the calculation of the NAV.

Management Fee

The Management Company is entitled to receive from the Fund a management fee calculated as a percentage of the NAV of the relevant Class of Units within a Sub-Fund (as shown in the Sub-Fund information).

The management fee is calculated based on each Sub-Fund's daily net assets and is paid in arrears within a frequency defined by the Management Company.

For Class X Units, the management fee will be charged and collected by the Management Company directly from the Unitholder and will not be charged to the Sub-Funds or reflected in the NAV. The management fee may be calculated according to such methodology and payment terms as may be agreed between the Management Company and the relevant investor.

The Management Company is responsible for the payment of fees to the Investment Managers, who may pass on all or a portion of their own fees to the Sub-Investment Managers.

Depositary, Paying Agent and Administrator fees

The Depositary and Paying Agent and the Administrator are entitled to receive a fee out of the assets of the relevant Sub-Fund (or the relevant Class of Units, if applicable), which will range, depending on the country where the assets of the relevant Sub-Fund are held, from 0.003 % to 0.5 % of the asset values underlying the relevant Sub-Fund or Class of Units, payable monthly in arrears.

Distribution fee

When a distribution fee applies as indicated in "The Sub-Funds", the Management Company, in its capacity as Distributor, receives a distribution fee which is calculated based on each Sub-Fund's daily net assets and is paid in arrears within a frequency defined by the Management Company. The Management Company may pass on a portion of or all of such fees to its Agents (if any), as well as to professional advisers as commission for their services.

Performance Fees

When a performance fee applies as indicated in "The Sub-Funds", the Management Company charges a Performance Fee for certain Unit Classes of certain Sub-Funds.

Performance fees calculated in reference to a benchmark

The calculation of performance fees applies to each concerned Unit Class and on each NAV calculation date. The calculation is based on the comparison (hereafter the "Comparison") between:

- The NAV of each relevant Unit Class (before deduction of the performance fee); and
- The reference asset (hereafter the "Reference Asset")

which represents and replicates the NAV of the relevant Unit Class (before deduction of the performance fee) at the first day of the performance observation period, adjusted by subscriptions/redemptions at each valuation, to which the performance fees benchmark (as stated for each sub-fund and Unit Class) is applied.

As from the 1st January 2022, the Comparison is carried out over a performance observation period of five years maximum, the anniversary date of which corresponds to 31 December of each year (hereafter the "Anniversary Date").

During the life of the Unit Class, a new performance observation period of maximum 5 years starts:

- in the event of payment of the Performance Fees accruals on an Anniversary Date.
- in the event of cumulative underperformance observed at the end of a 5 year period. In this case, any underperformance of more than 5 years will no longer be taken into account during the new performance observation period; conversely, any underperformance generated over the past 5 years will continue to be taken into account.

The Performance Fee will represent a percentage (as stated for each sub-fund and Unit Class) of the positive difference between the net assets of the Unit Class (before deduction of the performance fee) and the Reference Asset if the following cumulative conditions are met:

- This difference is positive;
- The relative performance of the Unit Class compared to the Reference Asset is positive or nil, since the beginning of the performance observation period. Past underperformances over the last 5 years should be clawed back before any new accrual of performance fee.

An allocation for performance fees will be accrued ("Performance Fees Accruals") in the NAV calculation process.

In the event of redemption during the performance observation period, the portion of Performance Fees Accruals corresponding to the number of Units redeemed, is definitively acquired to the Management Company and will become payable at the next Anniversary Date.

If over the performance observation period, the NAV of each relevant Unit Class (before deduction of the performance Fee) is lower than the Reference Asset, the performance fee becomes nil and all Performance Fees Accruals previously

booked are reversed. Those reversals may not exceed the sum of the previous Performance Fees Accruals.

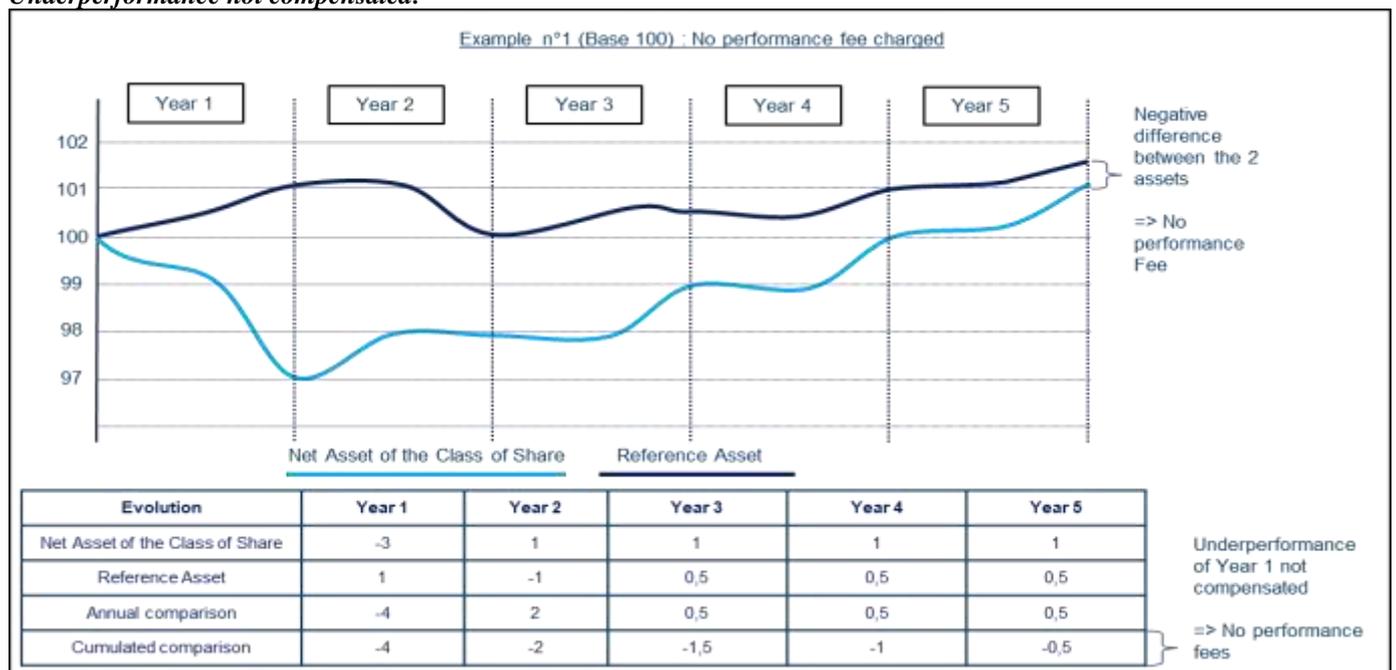

Over the performance observation period, all Performance Fees Accruals as defined above become due on the Anniversary Date and will be paid to the Management Company.

For some of the Sub-Funds having a performance calculation based on an overnight rate related to a given currency (the “€STR”, for example), the performance fee for non-Euro denominated, currency hedged Unit Classes of those Sub-Funds will be calculated against an equivalent overnight rate in the currency of the hedged Unit Class (the “SOFR” for a USD hedged Unit Class, for example).

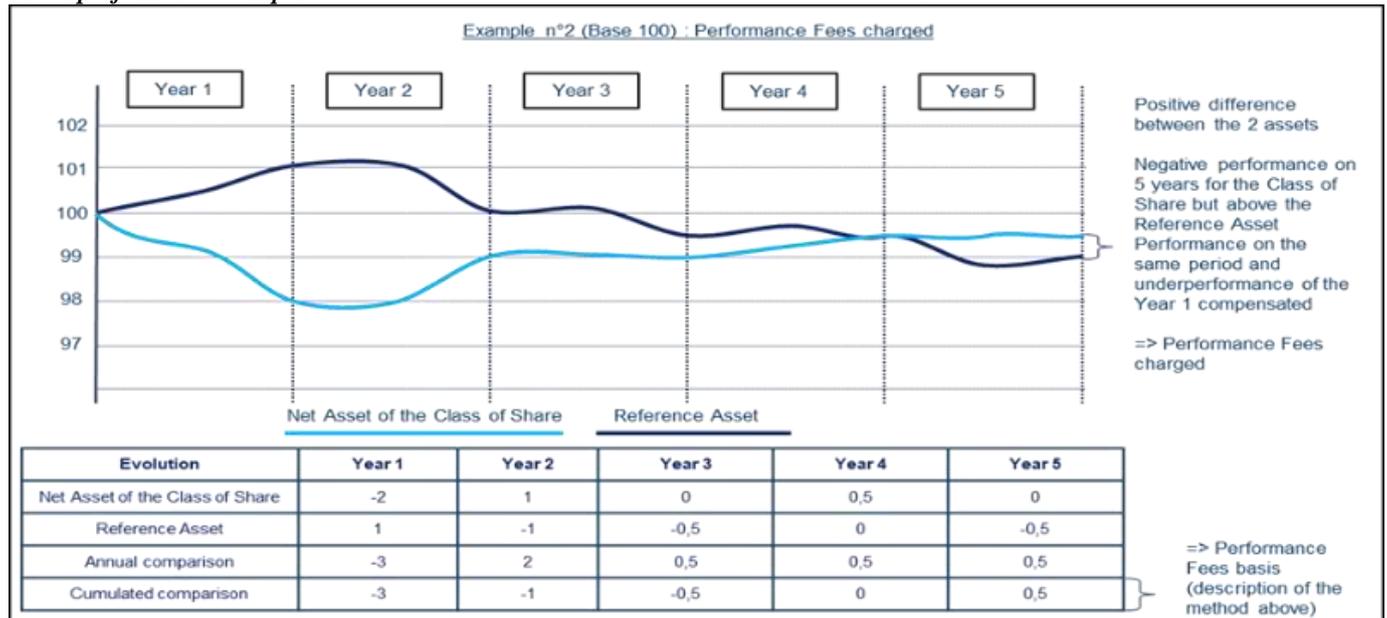

The performance fee is paid to the Management Company even if the performance of the Unit Class over the performance observation period is negative, while remaining higher than the performance of the Reference Asset.

The three examples below illustrate the methodology described for 5 years performance observation periods:

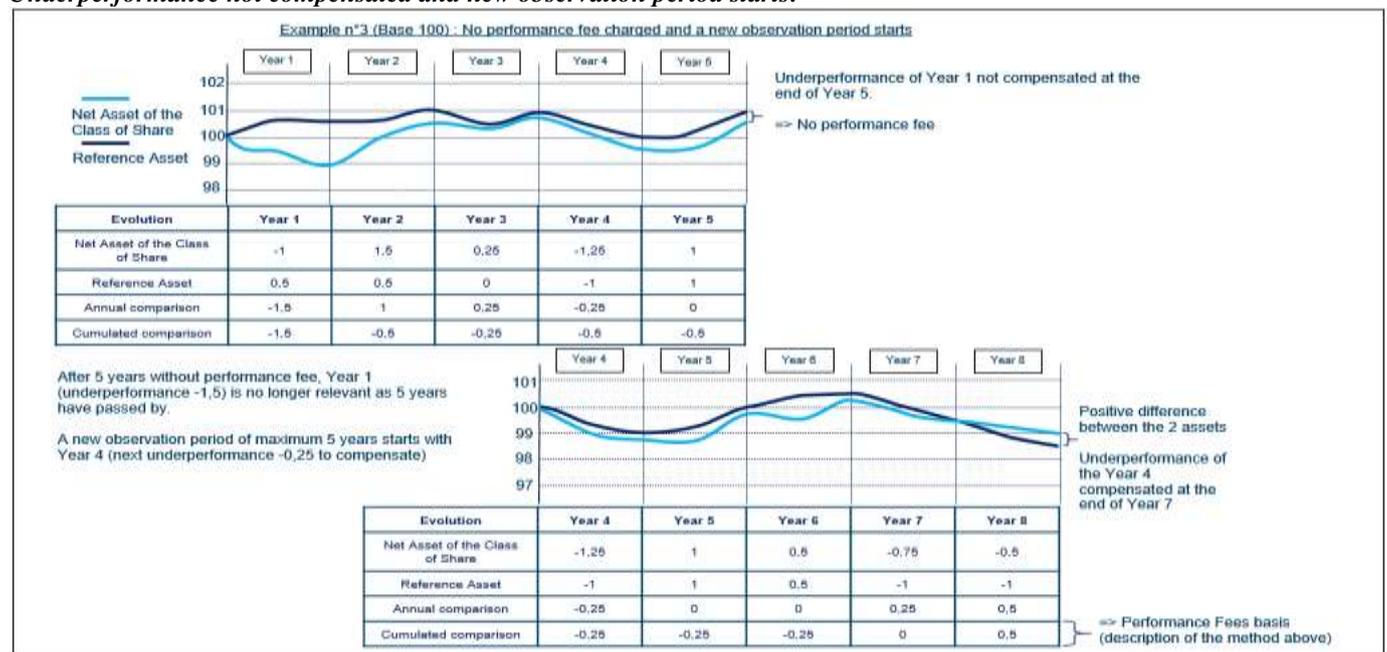

Underperformance not compensated:

Underperformance compensated:

Underperformance not compensated and new observation period starts:

For more details, please refer to the ESMA Guidelines n°34-39-968 on performance fees in UCITS and certain types of AIFs, as modified, and any related Q&A disclosed by ESMA.

relevant benchmark index or for any delay in the provision or availability of any benchmark index.

In calculating performance fees, the Management Company, the Investment Managers, and the Administrator, will not be liable to Unitholders for any error in the determination of the

Performance fees calculated in reference to a performance hurdle, for Sub-Funds having a Maturity Date

The calculation of performance fees applies to each concerned Unit Class and on each NAV calculation date. The calculation is based on the comparison between:

- The NAV of each relevant Unit Class (before deduction of the performance fee); and
- The reference asset (hereafter the “Reference Asset”) which represents and replicates the NAV of the relevant Unit Class (before deduction of the performance fee) at its launch date, adjusted by subscriptions/redemptions at each valuation, to which the performance fees hurdle (as stated for each sub-fund and Unit Class) is applied.

As from the launch date of the relevant Unit Class, the Comparison is carried out over a performance observation period which ends on the Maturity Date of the Sub-Fund.

The Performance Fee will represent a percentage (as stated for each sub-fund and Unit Class) of the difference between the net assets of the Unit Class (before deduction of the performance fee) and the Reference Asset if this difference is positive.

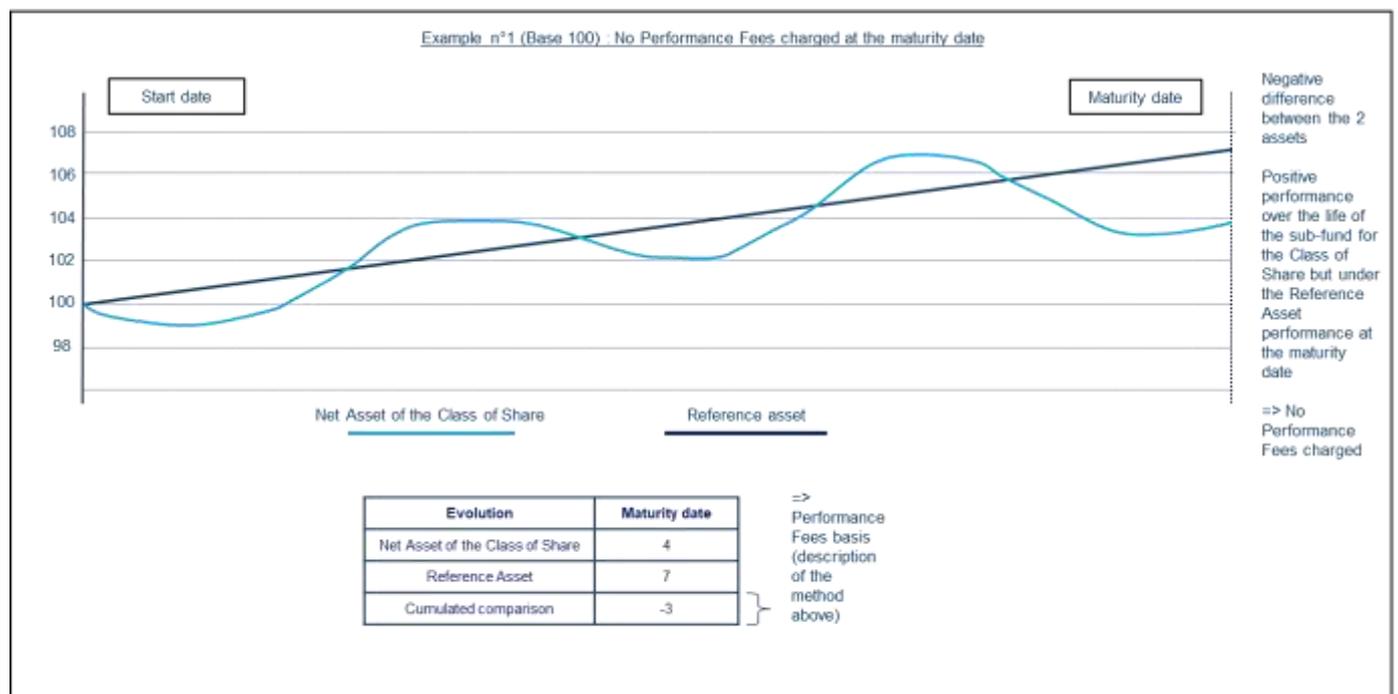

An allocation for performance fees will be accrued (“Performance Fees Accruals”) in the NAV calculation process.

In the event of redemption during the performance observation period, the portion of Performance Fees Accruals corresponding to the number of Units redeemed, is definitively acquired to the Management Company and will become payable on the Maturity Date of the relevant Sub-Fund.

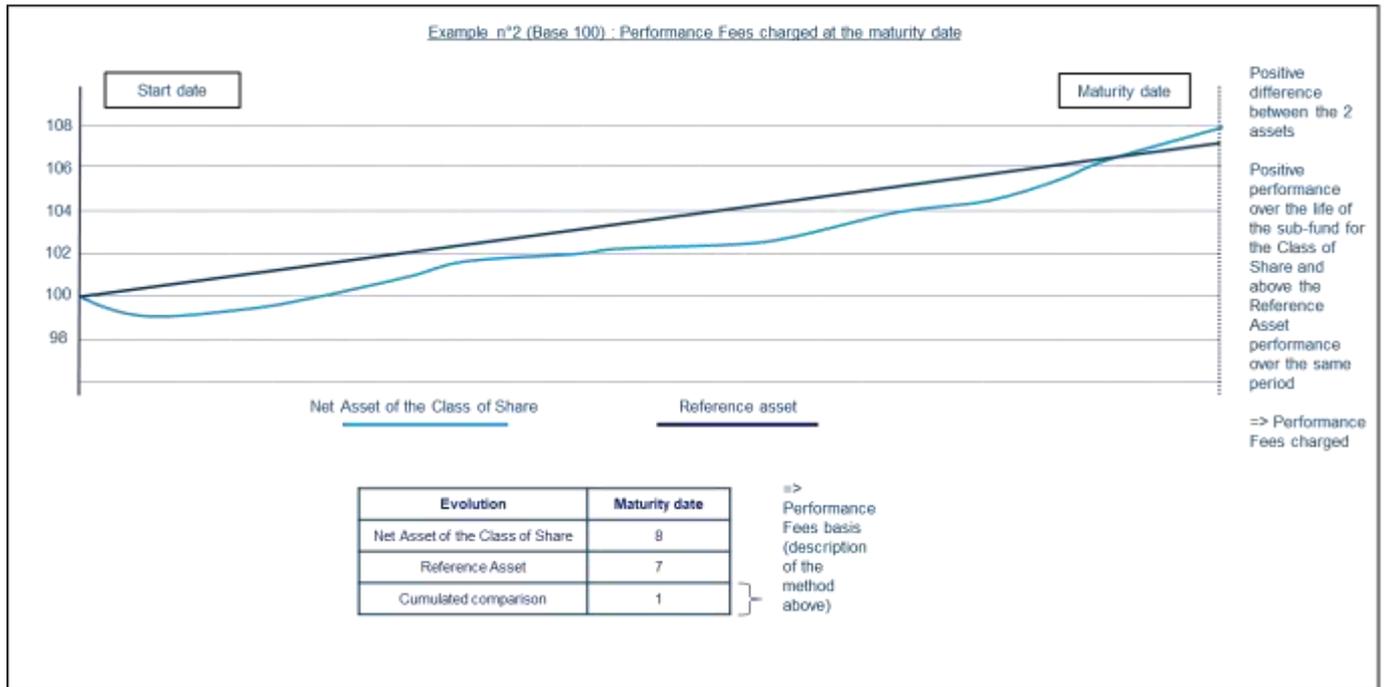

Over the performance observation period, all Performance Fees Accruals as defined above become due on the Maturity Date of the relevant Sub-Fund and will be paid to the Management Company.

Underperformance not compensated:

Underperformance compensated:

For more details, please refer to the ESMA Guidelines n°34-39-968 on performance fees in UCITS and certain types of AIFs, as modified, and any related Q&A disclosed by ESMA.

Master/Feeder Fees

Should a Sub-Fund qualify as a Master of another UCITS, that feeder fund will not be charged any entry charges, exit charges or switch fees, from the Master.

Best Execution

Each Investment Manager and Sub-Investment Manager has adopted a best execution policy to implement all reasonable measures to ensure the best possible result for the Fund, when executing orders. In determining what constitutes best execution, the Investment Manager and/or Sub-Investment Manager will consider a range of different factors, such as price, liquidity, speed and cost, among others, depending on their relative importance based on the various types of orders or financial instrument. Transactions are principally executed via brokers selected and monitored on the basis of the criteria of the best execution policy. Counterparties that are affiliates of Amundi may also be considered. To meet its best execution objective, the Investment Manager and/or Sub-Investment Manager may choose to use agents (which may be affiliates of Amundi) for its order transmission and execution activities.

Commission Sharing Arrangements

The Fund's Investment Managers may enter into commission sharing or similar arrangements. Consistent with obtaining best execution, commission sharing agreements (CSAs) are agreements between the Investment Managers and nominated brokers that specify that a certain proportion of dealing commission sent to a broker be reserved to pay for research with one or more third parties.

The provision of research is subject to arrangements between the Investment Managers and the research providers, and the commission split for execution and research is negotiated between the Investment Managers and the executing broker. Separate from any CSA, executing brokers may also provide research that is paid for through a deduction from the execution cost.

The receipt of investment research and information and related services permits the Investment Managers to supplement their own research and analysis and makes available to them the views and information of individuals and research staffs of other firms. Such services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payment, which are paid by the Investment Managers.

Use of Benchmarks

The Management Company has adopted a written plan setting out actions, which it will take with respect to the Sub-Funds in the event that any benchmark used by any Sub-Fund within the meaning of the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "Benchmarks Regulation") changes or ceases to be provided. Information

regarding this plan may be obtained, free of charge, at the registered office of the Management Company.

For a complete list of benchmarks currently referred to in this Prospectus and (i) provided by benchmark administrators who are availing of the transitional arrangements afforded under the Benchmarks Regulation and accordingly do not appear on the register of administrators and benchmarks maintained by ESMA pursuant to article 36 of the Benchmarks Regulation or (ii) provided by benchmark administrators mentioned in the register referred to in article 36 of the Benchmarks Regulation as administrator authorised pursuant to article 34 of the Benchmark Regulation, go to www.amundi.lu/amundi-funds.

» Taxes

General

The following general summary is based on the laws in force in Luxembourg on the date of this Prospectus and is subject to any future change in law or practice. The summary is provided solely for preliminary information purposes and is not intended as a comprehensive description of all of the tax considerations that may be relevant to a prospective investor or to any transactions in Units of the Fund and is not intended to be nor should it be construed as legal or tax advice. Investors should consult their professional advisers as to the effects of the laws of their countries of citizenship, establishment, domicile or residence or any other jurisdiction to which the investor may be subject to tax. Investors should be aware that income or dividends received or profits realized may lead to an additional taxation in those jurisdictions. Investors should consult their tax adviser to determine to what extent, if any, their jurisdiction of domicile or any other applicable jurisdiction will subject such Unitholder to tax.

The Fund

Under the current laws of Luxembourg, the Fund is liable in Luxembourg to a subscription tax (taxe d'abonnement) of 0.05% per annum of its net asset value, payable quarterly on the basis of the net assets of the Fund at the end of the calendar quarter.

However, a reduced tax rate of 0.01% applies where a Sub-Fund invests exclusively in money market instruments or deposits with credit institutions, or where the Units or Class of Units of the Sub-Fund are reserved to one or more institutional investors.

This reduced subscription tax (taxe d'abonnement) rate will apply in respect of Class I, Class J, Class S and Class X Units of all Sub-Funds provided they fall under the premises listed above.

The following exemptions from subscription tax (taxe d'abonnement) are applicable:

- where the Sub-Fund invests in the units of another UCI whereby that UCI has already been subject to a subscription tax (taxe d'abonnement);
- where Unit Classes of Sub-Funds (i) are sold to institutional investors; (ii) the Sub-Fund invests

exclusively in money market instruments or deposits with credit institutions (iii) the weighted residual portfolio maturity does not exceed 90 days; and (iv) the Sub-Fund has obtained the highest possible rating from a recognized rating agency; or

- where Unit Classes of Sub-Funds are reserved for (i) institutions incorporated for occupational retirement provision, or similar investment vehicles, created as part of the same group for the benefit of its employees or for (ii) undertakings of a group mentioned in (i) investing monies held by them to provide retirement benefits to their employees.

Withholding tax

Under current Luxembourg tax law, there is no withholding tax on any distribution, redemption or payment made by the Fund to its Unitholders in relation to the Units. There is also no withholding tax on the distribution of liquidation proceeds to the Unitholders.

VAT

In Luxembourg, regulated investment funds have the status of taxable persons for value added tax (“VAT”) purposes. The Fund is considered in Luxembourg as a taxable person for VAT purposes without input VAT deduction right. A VAT exemption applies in Luxembourg for services qualifying as fund management services. Other services supplied to the Fund and/or Management Company could potentially trigger VAT and require the VAT registration of the Fund/Management Company in Luxembourg. As a result of such VAT registration, the Fund, acting through its Management Company, will be in a position to fulfil its duty to self-assess the VAT regarded as due in Luxembourg on taxable services (or goods to some extent) purchased from abroad.

No VAT liability arises, in principle, in Luxembourg in respect of any payments by the Fund to the Unitholders, to the extent such payments are linked to their subscription to the Fund’s Units and therefore do not constitute consideration received for taxable services supplied.

» Measures for Investor Protection

Excessive trading and market timing

Buying and redeeming Sub-Fund Units for short-term profits can disrupt portfolio management and affect Sub-Fund expenses and performance, to the detriment of other Unitholders. We do not knowingly allow any market timing transactions, and we may take various measures to protect your interests, including imposing a fee of 2% of the value of any order we believe may be linked to an investor, group of investors, or trading pattern associated with excessive trading, market timing or trading that is disruptive to a Sub-Fund.

Other measures we may take if we believe you have engaged in excessive trading or market timing include rejecting, suspending or cancelling your order, or forcibly redeeming all your investments, at your sole cost and risk. The

Management Company will not be held liable for any loss resulting from rejecting orders or mandatory redemptions. We may apply these measures based on trading in multiple accounts with common ownership or control, or on coordinated trading patterns on unrelated accounts.

Where accounts are held by an intermediary on behalf of client(s), such as nominee accounts, the Management Company may require the intermediary to provide information about the transactions and to take action to prevent excessive trading practices.

Fight Against Money Laundering and Financing of Terrorism

To comply with Luxembourg laws, regulations, circulars, etc. aimed at preventing money laundering and the financing of terrorism, we or any distributor or delegate (especially the Administrator) may require certain types of account documentation to allow us ensuring proper identification of investors and ultimate beneficial owners.

We or any distributor or delegate may ask you to provide in addition to the application form, any information and supporting documents we deem necessary as determined from time to time (either before opening an account or at any time afterward) to ensure proper identification in the meaning of applicable laws and regulations, including information about the beneficial ownership, proof of residence, source of funds and origin of wealth in order to be compliant at all times with applicable laws and regulations.

You will also be required regularly to supply updated documentation and in general, you must ensure at all times that each piece of information and documentation provided, especially on the beneficial ownership, remains up to date. In case you subscribe through an intermediary and/or nominee investing on your behalf, enhanced due diligence measures are applied in accordance with applicable laws and regulations, to analyse the robustness of the AML/CFT control framework of the intermediary/nominee. Delay or failure to provide the required documentation may result in having any order delayed or not executed, or any proceeds withheld. Neither us or our delegates have any liability for delays or failure to process deals as a result of an investor providing no or only incomplete information and/or documentation.

We shall ensure that due diligence measures on investments are applied on a risk-based approach in accordance with applicable laws and regulations.

Privacy of personal information

In accordance with the Data Protection Law, the Management Company, acting as data controller, hereby informs the Unitholders (or if the Unitholder is a legal person, informs the Unitholder’s contact person and/or beneficial owner) that certain personal data (“Personal Data”) provided to the Management Company or its delegates may be collected, recorded, stored, adapted, transferred or otherwise processed for the purposes set out below.

Personal Data includes (i) the name, address (postal and/or e-mail), bank details, invested amount and holdings of an

Unitholder; (ii) for corporate Unitholders: the name and address (postal and/or e-mail) of the Unitholders' contact persons, signatories, and the beneficial owners; and (iii) any other personal data the processing of which is required in order to comply with regulatory requirements, including tax law and foreign laws.

Personal Data supplied by Unitholders is processed in order to enter into and execute transactions in Units of the Fund and for the legitimate interests of the Fund. In particular, legitimate interests include (a) complying with the Fund and Management Company's accountability, regulatory and legal obligations; as well as in respect of the provision of evidence of a transaction or any commercial communication; (b) exercising the business of the Management Company in accordance with reasonable market standards; and (c) the processing of Personal Data for the purpose of: (i) maintaining the register of Unitholders; (ii) processing transactions in Units and the payment of dividends; (iii) maintaining controls in respect of late trading and market timing practices; (iv) complying with applicable anti-money laundering rules; (v) marketing and client-related services; (vi) fee administration; and (vii) tax identification under the OECD Common Reporting Standard (the "CRS") and FATCA.

The Management Company may, subject to applicable law and regulation, delegate the processing of Personal Data, to other data recipients such as, inter alia, the Investment Managers, the Sub-Investment Managers, the Administrator, the Administrator, the Depositary and Paying Agent, the auditor and the legal advisors of the Fund and their service providers and delegates (the "Recipients").

The Recipients may, under their own responsibility, disclose Personal Data to their agents and/or delegates, for the sole purposes of assisting the Recipients to provide services to the Fund and/or to fulfil their own legal obligations. Recipients or their agents or delegates may, process Personal Data as data processors (when processing upon instruction of the Management Company), or as data controllers (when processing for their own purposes or to fulfil their own legal obligations). Personal Data may also be transferred to third parties such as governmental or regulatory agencies,

including tax authorities, in accordance with applicable law and regulation. In particular, Personal Data may be disclosed to the Luxembourg tax authorities, which in turn may, acting as data controller, disclose the same to foreign tax authorities.

Data processors may include any entity belonging to the Société Générale group of companies (including outside the EU) for the purposes of performing operational support tasks in relation to transactions in the Units, fulfilling anti-money laundering and counter-terrorist financing obligations, avoiding investment fraud and for compliance with the obligations of CRS.

In accordance with the conditions laid down by the Data Protection Law, Unitholders have the right to:

- request access to their Personal Data;
- request the correction of their Personal Data where it is inaccurate or incomplete;
- object to the processing of their Personal Data;
- request erasure of their Personal Data;
- request for restriction of the use of their Personal Data; and
- request for Personal Data portability.

Unitholders may exercise the above rights by writing to the Management Company at the following address: 5, Allée Scheffer L-2520 Luxembourg, Grand Duchy of Luxembourg.

The Unitholders also have the right to lodge a complaint with the National Commission for Data Protection (the "CNPDP") at the following address: 15, Boulevard du Jazz, L-4370 Belvaux, Grand Duchy of Luxembourg, or with any competent data protection supervisory authority.

An Unitholder may, at its discretion, refuse to communicate its Personal Data to the Management Company. In this event however, the Management Company may reject the request for subscription for Units and block an account for further transactions. Personal Data shall not be retained for periods longer than those required for the purpose of its processing subject to any limitation periods imposed by applicable law.

» Country-Specific Information

» Singapore

The offer or invitation of the Units, which are the subject of this Prospectus, does not relate to a collective investment scheme which is authorised under section 286 of the Securities and Futures Act (“SFA”). Chapter 289 of the SFA or recognised under section 287 of the SFA. The Units are not authorised or recognised by the Monetary Authority of Singapore (“MAS”) and may not be offered to the Singapore retail public. This Prospectus and any other document or material issued in connection with the offer or sale is not a prospectus as defined in the Securities and Futures Act, Chapter 289 of the SFA. Accordingly, statutory liability under the SFA in relation to the content of prospectuses would not apply. Investors should consider carefully whether the investment is suitable for them.

This Prospectus has not been registered as a prospectus with the MAS and the Units are being made available for subscription pursuant to the exemptions under Sections 304 and 305 of the SFA. Accordingly, the Units may not be offered or sold or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, nor may this Prospectus and any other document or material issued in connection with the offer or sale, or invitation for subscription or purchase, of the Units be circulated or distributed to any person in Singapore other than under exemptions provided in the SFA for offers made (a) to an institutional investor (as defined in Section 4A of the SFA) pursuant to Section 304 of the SFA, (b) to a relevant person (as defined in Section 305(5) of the SFA) or any person pursuant to Section 305(2) of the SFA, and in accordance with the conditions specified in Section 305 of the SFA or (c) otherwise pursuant to, and in accordance with, the conditions of any other applicable provision of the SFA.

Where the Units are acquired by persons who are relevant persons specified in Section 305A of the SFA, namely:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor, the shares, debentures and units of shares and debentures of that corporation or the beneficiaries’ rights and interest (howsoever described) in that trust shall not be transferred within 6 months after that corporation or that trust has acquired the Units pursuant to an offer made under Section 305 of the SFA other than:
 - (1) to an institutional investor or to a relevant person as defined in Section 305(5) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and

interest in that trust are acquired at a consideration of not less than S\$200,000 (or its equivalent in a foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets (in the case of that trust) and further for corporations in accordance with the conditions specified in Section 275 of the SFA;

- (2) where no consideration is or will be given for the transfer; or
- (3) where the transfer is by operation of law.

» United Kingdom

Distribution in the United Kingdom

The Fund is a collective investment scheme as defined in the United Kingdom Financial Services and Markets Act 2000 (“FSMA”). It has not been authorised, or otherwise recognised or approved by the United Kingdom Financial Conduct Authority (“FCA”) and, accordingly, cannot be marketed in the United Kingdom to the general public.

The issue or distribution of this Prospectus in the United Kingdom, (a) if made by a person who is not an authorised person under FSMA, is being made only to, or directed only at, persons who are (i) investment professionals under article 19 of the FSMA (Financial Promotion) Order 2005 (the “FPO”); or (ii) high net worth entities or certified sophisticated investors falling within articles 49 and 50 of the FPO, respectively, (all such persons under (i) and (ii) together being referred to as “FPO Persons”); and (b) if made by a person who is an authorised person under FSMA, is being made only to, or directed only at, persons who are (i) investment professionals under article 14 of the FSMA 2000 (Promotion of Collective Investment Schemes) (Exemptions) Order 2001 (the “PCIS Order”); or (ii) high net worth entities or certified sophisticated investors falling within articles 22 and 23 of the PCIS Order, respectively; or (iii) persons to whom it may otherwise be lawfully distributed under chapter 4.12B of the FCA’s Conduct of Business sourcebook (all such persons under (i) and (ii) together being referred to as “PCIS Persons” and, together with the FPO persons, “Relevant Persons”).

Investment professionals under the FPO and the PCIS Order are persons authorised pursuant to FSMA or exempt from the requirement to be so authorised; governments, local and public authorities; persons who invest, or can reasonably be expected to invest, in the Fund on a professional basis; and any director, officer, executive or employee of any such person when acting in that capacity.

High net worth entities under the FPO and the PCIS Order are (a) any body corporate with, or grouped with another person that has, paid up share capital or net assets exceeding £5m (or currency equivalent); (b) any body corporate with, or grouped with another person that has, at least 20 members and paid up share capital or net assets exceeding £500,000 (or currency equivalent); (c) any partnership or unincorporated body with net assets exceeding £5m (or

currency equivalent); (d) the trustee of any trust which at any time in the 12 months preceding the date of the promotion constituted by this Prospectus had a gross value of £10m (or currency equivalent) in cash or FSMA regulated investments; or (e) any director, officer, executive or employee of any person in (a) to (d) above when acting in that capacity.

Certified sophisticated investors under the FPO and the PCIS Order are persons who (a) have a certificate signed within the past three years by a firm authorised by the FCA or the Prudential Regulation Authority (“PRA”) stating that the person is sufficiently knowledgeable to understand the risks associated with participating in unregulated collective investment schemes; and (b) have themselves in the past 12 months signed a statement in prescribed terms.

This Prospectus is exempt from the scheme promotion restriction in section 238 FSMA on the communication of invitations or inducements to participate in unregulated collective investment schemes on the ground that it is made to Relevant Persons, and it must not be acted on or relied on by persons who are not Relevant Persons. Any investment or investment activity to which this Prospectus relates, including the sale of Units, is available only to Relevant Persons and will be engaged in only with Relevant Persons.

This Prospectus is exempt from the general restriction in section 21 FSMA on the communication of invitations or inducements to engage in investment activity on the grounds that it is made only to Relevant Persons. On the basis that the communication of this Prospectus is made only to Relevant Persons, the content of this Prospectus has not been approved by an authorised person, as would otherwise be required.

Buying Units may expose an investor to a significant risk of losing all of the property they invest. Any Relevant Person who is in any doubt about the Fund should consult an authorised person who specialises in advising on investing in unregulated collective investment schemes.

Potential investors in the United Kingdom are advised that all, or most, of the protections afforded by the United Kingdom regulatory system will not apply to an investment

in the Fund and that compensation will not be available under the United Kingdom Financial Services Compensation Scheme.

» United States

The Fund is not offering Units either (i) in the United States or (ii) to, or for the account or benefit of, any person that is (A) a “U.S. person” as defined in Regulation S under the United States Securities Act of 1933, as amended, (B) not a “Non-United States Person” as defined in Rule 4.7 under the U.S. Commodity Exchange Act, as amended, (C) a “United States person” as defined in Section 7701(a)(30) of the United States Internal Revenue Code, as amended or (D) a “U.S. Person” as defined in the Further Interpretative Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations, as promulgated by the United States Commodity Futures Trading Commission, 78 Fed. Reg. 45292 (26 July 2013), as may be amended, (any person referred to in any of (A), (B) (C) or (D), a “U.S. Person”). Neither the Securities and Exchange Commission (“SEC”) nor any other federal or state regulatory authority has passed on or endorsed the merits of this offering or the accuracy of adequacy of this Prospectus. This document may not be delivered to any prospective investor in the United States or to any U.S. Person. This Prospectus is being given to the recipient solely for the purpose of evaluating the investment in the Units described herein. All subscribers for Units will be required to represent that they are not, and are not subscribing for Units for the account or benefit of, a U.S. Person. If the Management Company determines that any Units are held by, or for the account or benefit of, a U.S. Person, the Management Company will direct the Administrator of the Fund to redeem those Units on a compulsory basis.

The investor is not, and is not subscribing for Units for the account or benefit of, a person that is a U.S. Person. The investor is required to notify the Management Company or its agents immediately if the investor either becomes a U.S. Person or holds Units for the account or benefit of a U.S. Person and any Units held by or for the account of the investor shall be subject to compulsory redemption.

The Investment Manager of each Sub-Fund is identified in "The Sub-Funds", as are any Sub-Investment Managers for that Sub-Fund.

Each Sub-Fund's Investment Manager is responsible for day-to-day management of that Sub-Fund. Upon request of the Management Company, an Investment Manager may provide advice and assistance to the Management Company in setting investment policy and in determining related matters for the Fund or for any Sub-Fund.

The Investment Manager of a Sub-Fund is entitled to receive management and performance fees as indicated in "The Sub-Funds". These fees are calculated based on each Sub-Fund's net assets and are paid quarterly in arrears. To the extent that it delegates various functions, an Investment Manager may also decline some or all of the fees associated with those functions in favor of the party to which the functions have been delegated.

An Investment Manager has the option of delegating to Sub-Investment Managers, at its own expense and responsibility and with the approval of the Management Company and the Regulatory Authority, any or all of its

investment management and advisory duties. An Investment Manager may also delegate any or all of its advisory duties to one or more advisors at its own expense and responsibility and with the approval of the Management Company.

For example, so long as it retains control and supervision, an Investment Manager can appoint one or more Sub-Investment Managers to handle the day-to-day management of Sub-Fund assets, or one or more advisors to provide investment information, recommendations and research concerning prospective and existing investments.

The Management Company has designed and implemented a remuneration policy that is consistent with, and promotes sound and effective risk management by having a business model that by its nature does not encourage excessive risk taking, such risk taking being inconsistent with the risk profiles of the Sub-Funds. The Management Company has identified those of its staff members whose professional activity has a material impact on the risk profiles of the Sub-Funds, and will ensure that these staff members comply with the remuneration policy. The remuneration policy integrates governance, a pay structure that is balanced between fixed and variable components, and risk and long-term performance alignment rules. These alignment rules are designed to be consistent with the interests of the Management Company, the Fund and the Unitholders, with respect to such considerations as business strategy, objectives, values and interests, and include measures to avoid conflicts of interest. The Management Company ensures that the calculation of any performance-based remuneration is based on the applicable multi-year performance figures of the Fund and that the actual payment of such remuneration is spread over the same period. The details of the current policy of the Management Company, such as a description of how remuneration and benefits are calculated and the identity of the persons responsible for awarding the remuneration and benefits, are available on the “Regulatory information” page of amundi.com, or you can request the fee paper copy from the registered office of the Management Company.

The Depositary

Société Générale Luxembourg has been appointed to act as depositary (the “Depositary”) of the Fund with the responsibility for:

- a) safekeeping of the Fund’s assets;
- b) oversight duties; and
- c) cash flow monitoring,

Under its oversight duties, the Depositary is required to:

- (a) ensure that the sale, issue, redemption, conversion and cancellation of Units effected on behalf of the Fund or by the Management Company are carried out in accordance with applicable law and the Management Regulations;

- (b) ensure that the value of the Units is calculated in accordance with applicable law and the Management Regulations;
- (c) carry out the instructions of the Management Company, unless they conflict with applicable law or the Management Regulations;
- (d) ensure that in transactions involving the assets of the Fund any consideration is remitted to it within the customary settlement dates; and
- (e) ensure that the income attributable to the Fund is applied in accordance with the Management Regulations.

The Depositary is entrusted with the safe-keeping of the Fund’s assets. All financial instruments that can be held in custody are registered in the Depositary’s books within segregated accounts, opened in the name of the Fund, in respect of each Sub-Fund. For other assets than financial instruments and cash, the Depositary must verify the ownership of such assets by the Fund in respect of each Sub-Fund. Furthermore, the Depositary shall ensure that the Fund’s cash flows are properly monitored.

The Depositary may delegate to Safe-keeping Delegates the safe-keeping of the Fund’s assets subject to the conditions laid down in the 2010 Law, articles 13 to 17 of the EU Level 2 Regulation and the Depositary Agreement. In particular, such Safe-keeping Delegates must be subject to effective prudential regulation (including minimum capital requirements, supervision in the jurisdiction concerned and external periodic audit) for the custody of financial instruments. The list of such Safe-keeping Delegates appointed by the Depositary, along with the sub-delegates, is available on the following website: https://www.securities-services.societegenerale.com/fileadmin/user_upload/sgss/publications/PDF/Global_list_of_sub_custodians_for_SGSS_2019-22_01.pdf.

The Depositary’s liability shall not be affected by any such delegation. Subject to the terms of the Depositary Agreement, entrusting the custody assets to the operator of a securities settlement system is not considered to be a delegation of functions. Where the law of a third country requires that certain financial instruments be held in custody by a local entity and there are no local entities that satisfy the delegation requirement (i.e. the effective prudential regulation) under the 2010 Law, the Depositary may, but shall be under no obligation to, delegate to a local entity to the extent required by the law of such jurisdiction and as long as no other local entity meeting such requirements exists, provided however that (i) the investors, prior to their investment in the Fund, have been duly informed of the fact that such a delegation is required, of the circumstances justifying the delegation and of the risks involved in such a delegation and (ii) instructions to delegate to the relevant local entity have been given by or for the Fund.

In accordance with the provisions of the 2010 Law, article 18 of the EU Level 2 Regulation and the Depositary Agreement, the Depositary shall be liable for the loss of a financial instrument held in custody by the Depositary or a third party to whom the custody of such financial instruments has been delegated as described above. In such

case, the Depositary must return a financial instrument of identical type or the corresponding amount to the Fund, without undue delay. The Depositary shall not be liable if it is able to prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. The Depositary shall also be liable to the Fund, or to the Unitholders for all other losses suffered by them as a result of the Depositary's negligent or intentional failure to properly fulfil its obligations under the 2010 Law and the Depositary Agreement.

The Depositary is not allowed to carry out activities with regard to the Fund that may create conflicts of interest between the Fund, the Unitholders and the Depositary itself, unless the Depositary has properly identified any such potential conflicts of interest, has functionally and hierarchically separated the performance of its depositaries tasks from its other potentially conflicting tasks, and the potential conflicts of interest are properly identified, managed, monitored and disclosed to the Unitholders.

The Depositary in its capacity, in one hand, as depositary and paying agent and, on the other hand, as Administrator of the Fund or other funds, may in the course of its business have conflicts or potential conflicts of interest with those of the Fund and/or other funds for which the Depositary acts. Thus, the Depositary has established a functional, hierarchical and contractual separation between the performance of its depositary functions and the performance of those tasks outsourced by the Fund.

In that respect, the Depositary has in place a policy for the prevention, detection and management of conflicts of interest resulting from the concentration of activities in Société Générale's group or from the delegation of safekeeping functions to other Société Générale entities or to an entity linked to the Management Company.

This conflict of interest management policy intends to:

- Identify and analyse potential conflict of interest situations
- Record, manage and track conflict of interest situations by:
 - (i) Implementing permanent measures to manage conflicts of interest including the separation of tasks, the separation of reporting and functional lines, the tracking of insider lists and dedicated IT environments;
 - (ii) Implementing, on a case-by-case basis:
 - (a) Appropriate preventive measures including the creation of an ad hoc tracking list and new Chinese Walls, and by verifying that transactions are processed appropriately and/or by informing the clients in question;
 - (b) Or, by refusing to manage activities which may create potential conflicts of interest.

Regarding the delegation of the Depositary's safekeeping duties to a company linked to other Société Générale entities or to an entity linked to the Management Company, where conflicts or potential conflicts of interest may arise, the policy implemented by the Depositary consists of a system

which prevents conflicts of interest and enables the Depositary to exercise its activities in a way that ensures that the Depositary always acts in the best interests of the Fund.

The prevention measures consist, specifically, of ensuring the confidentiality of the information exchanged, the physical separation of the main activities which may create potential conflicts of interest, the identification and classification of remuneration and monetary and non-monetary benefits, and the implementation of systems and policies for gifts and events.

Unitholders may obtain up-to-date information on the conflicts of interest upon request to the Management Company or the Depositary.

» Service Providers

Auditors of the Fund

PricewaterhouseCoopers Assurance, Société Cooperative

2, rue Gerhard Mercator
L-2182 Luxembourg

The Fund's annual reports are audited by PricewaterhouseCoopers Assurance, Société Coopérative in its capacity as Fund's *Réviseur d'Entreprise Agréé*.

Depositary and Paying Agent

Société Générale Luxembourg

11, Avenue Emile Reuter
L-2420 Luxembourg

The Depositary is a Luxembourg Société Anonyme and is registered with the Regulatory Authority as a credit institution.

The Paying Agent, upon instruction by the Administrator, makes payments to Unitholders in connection with distributions and with the redemption of Units.

Administrator

Société Générale Luxembourg

Centre Opérationnel
8-10 Porte de France
L-4360 Esch-Sur-Alzette
Luxembourg

The Administrator activity may be split into 3 main functions: the registrar function, the NAV calculation and accounting function, and the client communication function:

- The registrar function encompasses all tasks necessary to the maintenance of the Fund register and performs the registrations, alterations or deletions necessary to ensure its regular update and maintenance.
- The NAV calculation and accounting function is responsible for the correct and complete recording of transactions to adequately keep the Fund's books and records in compliance with applicable legal, regulatory and contractual requirements as well as corresponding accounting principles. It is also responsible for the calculation and the production of the NAV of the Fund in accordance with the application regulation in force.

- The client communication function is comprised of the production and delivery of the confidential documents intended for investors.

» Appendix I – Securities Financing Transactions and total return swaps techniques

The Sub-Funds will not use buy-sell back transactions, sell-buy back transactions, securities borrowing and margin lending transactions in the meaning of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse (SFTR).

As outlined in the below table, the Sub-Funds use securities financing transactions and total return swaps on continuous basis and/or temporary basis for following purposes:

When used for **efficient portfolio management** (indicated below with “**EPM**”), techniques and instruments on securities financing transactions are helping to meet any investment objective, for example to achieve exposure to assets while limiting costs, reducing risks, offer combined investments and/or facilitate the access to the market in a timely manner. For example, total return swaps may be used to gain exposure and benefit from the returns on a reference asset without purchasing the asset directly.

When used for **cash management** (indicated below with “**Cash Manag.**”), securities financing transactions are used as a treasury management tool, to facilitate a cost efficient flow of cash with the objective to contribute to a complementary financing of its investment strategies (repurchase agreements) or to affect temporary excess of cash while optimizing revenues (reverse repurchase agreements).

When used to **generate additional income** (indicated below with “**Add Income**”), securities financing transactions such as securities lending operations contribute to generate additional income and/or to offset costs.

By way of illustration in reference to the table below, the use of techniques and instruments on securities financing transactions by any Sub-Fund may be guided by market circumstances or specific opportunities which are less predictable. Estimate percentages are therefore absent in limited cases or, when present, are more likely to fluctuate over time due to following circumstances:

- Strong variations are affecting those sub-funds that enter into securities lending, reverse repurchase and repurchase agreements in the context of opportunities that generate additional income, are likely to be guided by isolated and/or specific needs of counterparties and which frequency may be inconstant.
- The volume of use of those techniques with a view to optimizing revenues (indicated with “**Revenues opt.**”) is likely to be impacted downwards when interest rates are low and upwards when getting higher:
- When considered for cash management purpose in case of important movements of subscription and redemption, the use of reverse repurchase and repurchase agreements are fluctuating depending on the occurrence of the latter and estimated percentages are therefore not adequately reflecting a constantly varying volume of use.

Also and subject to the above in case of combined use, a Sub-Fund that indicates a continuous use of a given technique or instrument, is generally considering them as part of a permanent program and/or as a component of the deployed management process and will have estimates less likely to fluctuate (although at times the Sub-Funds may not have any outstanding trades in its books).

Appendix II – ESG Related Disclosures to this Prospectus.

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: AMUNDI S.F. - DIVERSIFIED SHORT-TERM BOND SELECT **Legal entity identifier:** 213800FCWTCT5DJRFA98

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

No

It will make a minimum of **sustainable investments with an environmental objective: ___%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective: ___%**

It promotes **Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of 20% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

What environmental and/or social characteristics are promoted by this financial product?

The Sub-Fund promotes environmental and/or social characteristics by aiming to have a higher ESG score than that of the investment universe. In determining the ESG score of the Sub-Fund and the Investment Universe, ESG performance is assessed by comparing the average performance of a security against the security issuer's industry, in respect of each of the three ESG characteristics of environmental, social and governance. For the purpose of this measurement, the investment universe is defined as Bloomberg Euro Aggregated Corporate 1-3 Year Index. No ESG Reference Index has been designated.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The sustainability indicator used is the ESG score of the Sub-Fund that is measured against the ESG score of the investment universe of the Sub-fund.

Amundi has developed its own in-house ESG rating process based on the “best-in-class” approach. Ratings adapted to each sector of activity aim to assess the dynamics in which companies operate.

The Amundi ESG rating used to determine the ESG score is an ESG quantitative score translated into seven grades, ranging from A (the best scores) to G (the worst). In the Amundi ESG Rating scale, the securities belonging to the exclusion list correspond to a G. For corporate issuers, ESG performance is assessed globally and at relevant criteria level by comparison with the average performance of its industry, through the combination of the three ESG dimensions:

- Environmental dimension: this examines issuers’ ability to control their direct and indirect environmental impact, by limiting their energy consumption, reducing their greenhouse emissions, fighting resource depletion and protecting biodiversity.

- Social dimension: this measures how an issuer operates on two distinct concepts: the issuer’s strategy to develop its human capital and the respect of the human rights in general;

- Governance dimension: This assesses capability of the issuer to ensure the basis for an effective corporate governance framework and generate value over the long-term.

The methodology applied by Amundi ESG rating uses 38 criteria that are either generic (common to all companies regardless of their activity) or sector specific which are weighted according to sector and considered in terms of their impact on reputation, operational efficiency and regulations in respect of an issuer. Amundi ESG ratings are likely to be expressed globally on the three E, S and G dimensions or individually on any environmental or social factor.

For more information on ESG scores and criteria, please refer to the Amundi Sustainable Finance Statement available at <https://www.amundi.lu/retail/regulatory-documents-11>.

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments are to invest in investee companies that seek to meet two criteria:

- 1) follow best environmental and social practices; and

- 2) avoid making products or providing services that harm the environment and society.

In order for the investee company to be deemed to contribute to the above objective it must be a “best performer” within its sector of activity on at least one of its material environmental or social factors.

The definition of “best performer” relies on Amundi’s proprietary ESG methodology which aims to measure the ESG performance of an investee company. In order to be considered a “best performer”, an investee company must perform with the best top three rating (A, B or C, out of a rating scale going from A to G) within its sector on at least one material environmental or social factor. Material environmental and social factors are identified at a sector level. The identification of material factors is based on Amundi ESG analysis framework which combines extra-financial data and qualitative analysis of associated sector and sustainability themes. Factors identified as material result in a contribution of more than 10% to the overall ESG score. For energy sector for example, material factors are: emissions and energy, biodiversity and pollution, health and security, local communities and human rights. For a more complete overview of sectors and factors, please refer to the Amundi Sustainable Finance Statement available at <https://www.amundi.lu/retail/regulatory-documents-11>.

To contribute to the above objectives, the investee company should not have significant exposure to activities (e.g. tobacco, weapons, gambling, coal, aviation, meat production, fertilizer and pesticide

manufacturing, single-use plastic production) not compatible with such criteria. The sustainable nature of an investment is assessed at investee company level.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- *How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?*

To ensure sustainable investments do no significant harm ('DNSH'), Amundi utilises two filters:

- The first DNSH test filter relies on monitoring the mandatory Principal Adverse Impacts indicators in Annex 1, Table 1 of the RTS where robust data is available (e.g. GHG intensity of investee companies) via a combination of indicators (e.g. carbon intensity) and specific thresholds or rules (e.g. that the investee company's carbon intensity does not belong to the last decile of the sector).

Amundi already considers specific Principle Adverse Impacts within its exclusion policy as part of Amundi's Responsible Investment Policy. These exclusions, which apply on the top of the tests detailed above, cover the following topics: exclusions on controversial weapons, Violations of UN Global Compact principles, coal and tobacco.

- Beyond the specific Principal Adverse Impacts indicators sustainability factors covered in the first filter, Amundi has defined a second filter, which does not take the mandatory Principal Adverse Impact indicators above into account, in order to verify that the company does not have badly performed from an overall environmental or social standpoint compared to other companies within its sector which corresponds to an environmental or social score superior or equal to E using Amundi's ESG rating..

- *How have the indicators for adverse impacts on sustainability factors been taken into account?*

The indicators for adverse impacts have been taken into account as detailed in the first do not significant harm (DNSH) filter above:

The first DNSH filter relies on monitoring of mandatory Principal Adverse Impacts indicators in Annex 1, Table 1 of the RTS where robust data is available via the combination of following indicators and specific thresholds or rules:

- Have a CO2 intensity which does not belong to the last decile compared to other companies within its sector (only applies to high intensity sectors), and
- Have a Board of Directors' diversity which does not belong to the last decile compared to other companies within its sector, and
- Be cleared of any controversy in relation to work conditions and human rights.
- Be cleared of any controversy in relation to biodiversity and pollution

Amundi already considers specific Principle Adverse Impacts within its exclusion policy as part of Amundi's Responsible Investment Policy. These exclusions, which apply on the top of the tests detailed above, cover the following topics: exclusions on controversial weapons, Violations of UN Global Compact principles, coal and tobacco.

- *How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights are integrated into our ESG scoring methodology. Our proprietary ESG rating tool assesses issuers using available data from our data providers. For example the model has a dedicated criteria called "Community Involvement & Human Rights" which is applied to all sectors in addition to other human rights linked criteria including socially responsible supply chains, working conditions, and labor relations. Furthermore, we conduct controversy monitoring on a, at minimum, quarterly basis which includes companies identified for human rights violations. When controversies arise, analysts will evaluate the situation and apply a score to the controversy (using our proprietary scoring

methodology) and determine the best course of action. Controversy scores are updated quarterly to track the trend and remediation efforts

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes, the Sub-Fund considers all the mandatory Principal Adverse Impacts as per Annex 1, Table 1 of the RTS applying to the Sub-Fund’s strategy and relies on a combination of exclusion policies (normative and sectorial), ESG rating integration into the investment process, engagement and voting approaches:

- Exclusion: Amundi has defined normative, activity-based and sector-based exclusion rules covering some of the key adverse sustainability indicators listed by the Disclosure Regulation.

- ESG factors integration: Amundi has adopted minimum ESG integration standards applied by default to its actively managed open-ended funds (exclusion of G rated issuers and better weighted average ESG score higher than the applicable benchmark). The 38 criteria used in Amundi ESG rating approach were also designed to consider key impacts on sustainability factors, as well as quality of the mitigation undertaken are also considered in that respect.

- Engagement: Engagement is a continuous and purpose driven process aimed at influencing the activities or behaviour of investee companies. The aim of engagement activities can fall into two categories : to engage an issuer to improve the way it integrates the environmental and social dimension, to engage an issuer to improve its impact on environmental, social, and human rights-related or other sustainability matters that are material to society and the global economy..

- Vote: Amundi’s voting policy responds to an holistic analysis of all the long-term issues that may influence value creation, including material ESG issues. For more information please refer to Amundi’s Voting Policy.

- Controversies monitoring: Amundi has developed a controversy tracking system that relies on three external data providers to systematically track controversies and their level of severity. This quantitative approach is then enriched with an in-depth assessment of each severe controversy, led by ESG analysts and the periodic review of its evolution. This approach applies to all of Amundi’s funds.

For any indication on how mandatory Principal Adverse Impact indicators are used, please refer to the Amundi Sustainable Finance Statement available at <https://www.amundi.lu/retail/regulatory-documents-11>.

No

What investment strategy does this financial product follow?

Objective: this financial product seeks to increase the value of your investment and provide income over the recommended holding period.

The Sub-Fund invests mainly in a broad range of investment grade bonds of eurozone issuers, including governments and corporations, and in money market securities. These are denominated in euro or in other currencies, provided that the currency exposure is hedged back to the euro. The Sub-Fund aims to reduce interest rate risk through the use of floating rate bonds, short-term bonds and interest rate hedging techniques using derivative instruments such as interest rate swaps or futures. The Sub-Fund seeks to maintain interest rate duration in the range of -2 and +2. The Sub-Fund may invest up to 35% of its assets in below-investment grade bonds, excluding securities unrated by an international credit rating agency. The Sub-Fund may invest up to 20% of its assets in asset-backed securities, and up to 10% in contingent convertible bonds. The Sub-Fund may invest in subordinated securities mainly by corporate issuers based in the eurozone. Whilst the Sub-Fund aims to invest in ESG rated securities not all investments of the Sub-Fund will have an ESG rating and in any event such investments will not be more than 10% of the Sub-Fund. The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management or as a way to gain exposure to various assets, markets or income streams.

Benchmark : The Sub-Fund is actively managed. The Euro short term rate serves a posteriori as an indicator for assessing the Sub-Fund's performance and for the relevant unit classes calculating the performance fees. There are no constraints relative to those benchmarks restraining portfolio construction. The Sub-Fund has not designated the benchmark as reference benchmark for the purpose of the Disclosure Regulation.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process and takes into account principal adverse impacts of investment decisions on Sustainability Factors as outlined in more detail in section "Sustainable Investing" of the Prospectus.

The Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of its investment universe represented by the Bloomberg Euro Aggregated Corporate 1.3 Year index. When analysing ESG score against the universe, the Sub-Fund is compared with the ESG score of its investment universe after 20% of the lower ESG rated securities have been excluded from the investment universe.

The investment manager uses a combination of market analysis and analysis of individual bond issuers to identify those bonds that appear to offer the best return for their risk level.

The investment strategy guides investment decisions based on factors such as investment

● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

All securities held in the Sub-Fund are subject to the ESG Criteria. This is achieved through the use of Amundi's proprietary methodology and/or third party ESG information.

The Sub-Fund first applies Amundi's exclusion policy including the following rules:

- legal exclusions on controversial weapons (anti-personnel mines, cluster bombs, chemical weapons, biological weapons and depleted uranium weapons, etc.);
- companies that seriously and repeatedly violate one or more of the 10 principles of the Global Compact, without credible corrective measures;
- the sectoral exclusions of the Amundi group on Coal and Tobacco (details of this policy are available in Amundi's Responsible Investment Policy available on the website <https://www.amundi.lu/retail/regulatory-documents-11>).

The Sub-Fund as a binding elements aims to have a higher ESG score than the ESG score of the investment universe.

When analysing ESG score against the investment universe, the Sub-Fund is compared with the ESG score of its investment universe after 20% of the lowest ESG rated securities have been excluded from the investment universe.

The Sub-Fund's ESG Criteria apply to at least:

- 90% of equities issued by large capitalisation companies in developed countries; debt securities, money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries;
- 75% of equities issued by large capitalisation companies in emerging market countries; equities issued by small and mid-capitalisation companies in any country; debt securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging market countries.

However investors should note that it may not be practicable to perform ESG analysis on cash, near cash, some derivatives and some collective investment schemes, to the same standards as for the other investments. The ESG calculation methodology will not include those securities that do not have an ESG rating, nor cash, near cash, some derivatives and some collective investment schemes.

Furthermore and in consideration of the minimum commitment of 20% of Sustainable Investments to sustainable investments with an environmental objective, the Sub-Fund invests in investee companies considered as "best performer" when benefiting over the best top three rating (A, B or C, out of a rating scale going from A to G) within their sector on at least one material environmental or social factor.

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

N/A

● **What is the policy to assess good governance practices of the investee companies?**

We rely on Amundi ESG scoring methodology. Amundi's ESG scoring is based on a proprietary ESG analysis framework, which accounts for 38 general and sector-specific criteria, including governance criteria. In the Governance dimension, we assess an issuer's ability to ensure an effective corporate governance framework that guarantees it will meet its long-term objectives (e.g. guaranteeing the issuer's value over the long term). The governance sub-criteria considered are: board structure, audit and control, remuneration, shareholders' rights, ethics, tax practices and ESG strategy.

Amundi ESG Rating scale contains seven grades, ranging from A to G, where A is the best and G the worst rating. G-rated companies are excluded from our investment universe.

Each corporate security (shares, bonds, single name derivatives, ESG equity and fixed income

ETFs) included in investment portfolios has been assessed for good governance practices applying a normative screen against UN Global Compact (UN GC) principles on the associated issuer. The assessment is performed on an ongoing basis. Amundi's ESG ratings Committee monthly reviews lists of companies in breach of the UN GC leading to rating downgrades to G. Divestment from securities downgraded to G is carried out by default within 90 days.

Amundi Stewardship Policy (engagement and voting) related to governance complements this approach.

What is the asset allocation planned for this financial product?

Asset allocation describes the share of investments in specific assets.

At least 90% of the investments of the sub-fund will be used to meet the environmental or social characteristics promoted by the sub-fund in accordance with the binding elements of the investment strategy.

Furthermore, the Sub-Fund commits to have a minimum of 20% of sustainable investments as per the below chart. Investments aligned with other E/S characteristics (#1B) will represent the difference between the actual proportion of investments aligned with environmental or social characteristics (#1) and the actual proportion of sustainable investments (#1A).

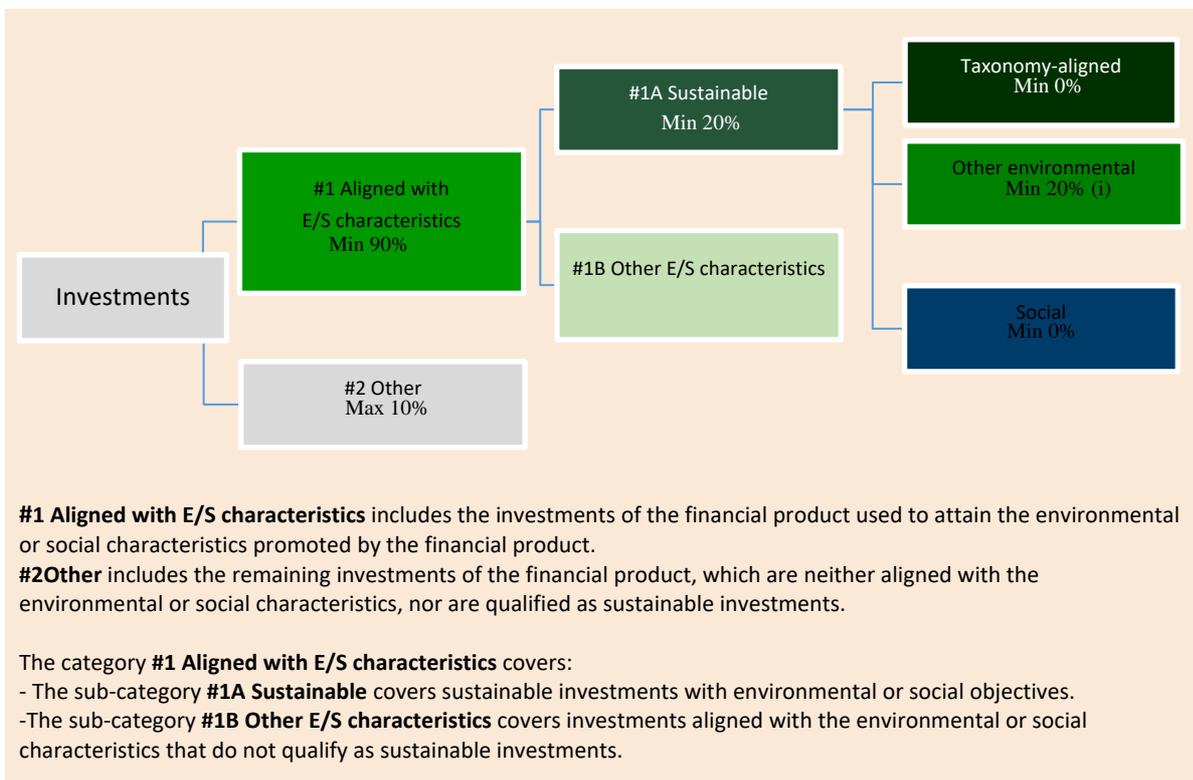

The planned proportion of other environmental investment represents a minimum of 20% (i) and may change as the actual proportions of Taxonomy-aligned and/or Social investments increase.

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies

-capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- operational expenditure (OpEx) reflecting green operational activities of investee companies.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Derivatives are not used to attain the environmental and social characteristics promoted by the sub-fund.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The sub-fund currently has no minimum commitment to sustainable investments with an environmental objective aligned with the EU Taxonomy.

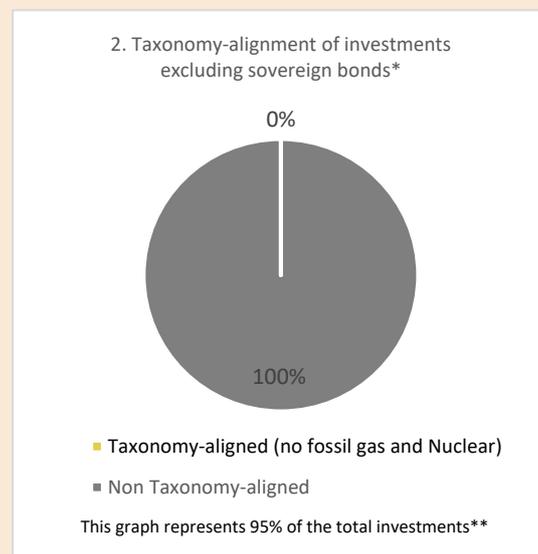

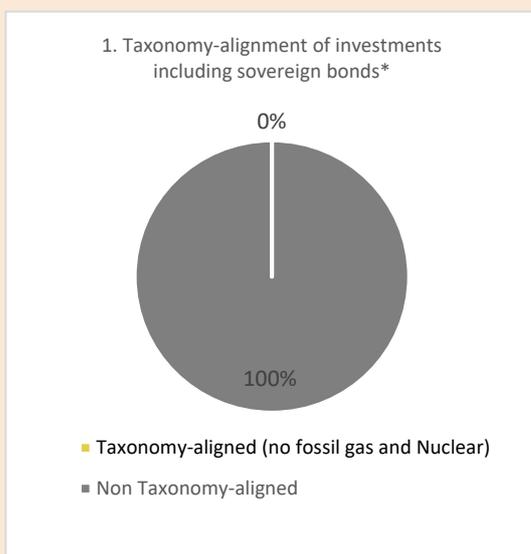

- **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- Yes:
- In fossil gas
 - In nuclear energy
- No

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
 ** This percentage is purely indicative and may vary.

- **What is the minimum share of investments in transitional and enabling activities?**

The Sub-Fund has no minimum proportion of investment in transitional or enabling activities.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

The Sub-Fund will have a minimum commitment of 20% of Sustainable Investments to sustainable investments with an environmental objective as indicated in this Annex with no commitment on their alignment with the EU Taxonomy.

What is the minimum share of socially sustainable investments?

The Sub-Fund has no minimum defined minimum share.

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

This Sub-Fund does not have a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental or social characteristics that it promotes.

- *How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?*

N/A

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

N/A

- *How does the designated index differ from a relevant broad market index?*

N/A

- *Where can the methodology used for the calculation of the designated index be found?*

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Where can I find more product specific information online?

More product-specific information can be found on the website: [Amundi S.F. - Regulatory page](#) | [Amundi Luxembourg Retail](#)

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
AMUNDI S.F. - HIGH POTENTIAL BOND

Legal entity identifier:
213800D4SEJSIL2F9A51

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

No

It will make a minimum of **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It promotes **Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of 5% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It will make a minimum of **sustainable investments with a social objective**: ___%

It promotes E/S characteristics, but **will not make any sustainable investments**

What environmental and/or social characteristics are promoted by this financial product?

The Sub-Fund promotes environmental and/or social characteristics by aiming to have a higher ESG score than the ESG score of the 15% ICE BofA Contingent Capital Index; 25% ICE BofA Euro Subordinated Financial Index; 20% ICE BofA Global Hybrid Non-Financial Corporate Index; 20% ICE BofA BB-B Global High Yield Index; 20% ICE BofA Emerging Markets Corporate Plus Index (the “Benchmark”). In determining the ESG score of the Sub-Fund and the Benchmark, ESG performance is assessed by comparing the average performance of a security against the security issuer’s industry, in respect of each of the three ESG characteristics of environmental, social and governance. The Benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the Sub-Fund. No ESG Benchmark has been designated.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The sustainability indicator used is the ESG score of the Sub-Fund that is measured against the ESG score of the Benchmark of the Sub-fund.

Amundi has developed its own in-house ESG rating process based on the “best-in-class” approach. Ratings adapted to each sector of activity aim to assess the dynamics in which companies operate.

The Amundi ESG rating used to determine the ESG score is an ESG quantitative score translated into seven grades, ranging from A (the best scores) to G (the worst). In the Amundi ESG Rating scale, the securities belonging to the exclusion list correspond to a G. For corporate issuers, ESG performance is assessed globally and at relevant criteria level by comparison with the average performance of its industry, through the combination of the three ESG dimensions:

- Environmental dimension: this examines issuers’ ability to control their direct and indirect environmental impact, by limiting their energy consumption, reducing their greenhouse emissions, fighting resource depletion and protecting biodiversity.
- Social dimension: this measures how an issuer operates on two distinct concepts: the issuer’s strategy to develop its human capital and the respect of the human rights in general;
- Governance dimension: This assesses capability of the issuer to ensure the basis for an effective corporate governance framework and generate value over the long-term.

The methodology applied by Amundi ESG rating uses 38 criteria that are either generic (common to all companies regardless of their activity) or sector specific which are weighted according to sector and considered in terms of their impact on reputation, operational efficiency and regulations in respect of an issuer. Amundi ESG ratings are likely to be expressed globally on the three E, S and G dimensions or individually on any environmental or social factor.

For more information on ESG scores and criteria, please refer to the Amundi Sustainable Finance Statement available at <https://www.amundi.lu/retail/regulatory-documents-11>.

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments are to invest in investee companies that seek to meet two criteria:

- 1) follow best environmental and social practices; and
- 2) avoid making products or providing services that harm the environment and society.

In order for the investee company to be deemed to contribute to the above objective it must be a “best performer” within its sector of activity on at least one of its material environmental or social factors.

The definition of “best performer” relies on Amundi’s proprietary ESG methodology which aims to measure the ESG performance of an investee company. In order to be considered a “best performer”, an investee company must perform with the best top three rating (A, B or C, out of a rating scale going from A to G) within its sector on at least one material environmental or social factor. Material environmental and social factors are identified at a sector level. The identification of material factors is based on Amundi ESG analysis framework which combines extra-financial data and qualitative analysis of associated sector and sustainability themes. Factors identified as material result in a contribution of more than 10% to the overall ESG score. For energy sector for example, material factors are: emissions and energy, biodiversity and pollution, health and security, local communities and human rights. For a more complete overview of sectors and factors, please refer to the Amundi Sustainable Finance Statement available at <https://www.amundi.lu/retail/regulatory-documents-11>.

To contribute to the above objectives, the investee company should not have significant exposure to activities (e.g. tobacco, weapons, gambling, coal, aviation, meat production, fertilizer and pesticide manufacturing, single-use plastic production) not compatible with such criteria.

The sustainable nature of an investment is assessed at investee company level.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?*

To ensure sustainable investments do no significant harm ('DNSH'), Amundi utilises two filters:

- The first DNSH test filter relies on monitoring the mandatory Principal Adverse Impacts indicators in Annex 1, Table 1 of the RTS where robust data is available (e.g. GHG intensity of investee companies) via a combination of indicators (e.g. carbon intensity) and specific thresholds or rules (e.g. that the investee company's carbon intensity does not belong to the last decile of the sector).

Amundi already considers specific Principle Adverse Impacts within its exclusion policy as part of Amundi's Responsible Investment Policy. These exclusions, which apply on the top of the tests detailed above, cover the following topics: exclusions on controversial weapons, Violations of UN Global Compact principles, coal and tobacco.

- Beyond the specific Principal Adverse Impacts indicators sustainability factors covered in the first filter, Amundi has defined a second filter, which does not take the mandatory Principal Adverse Impact indicators above into account, in order to verify that the company does not have badly perform from an overall environmental or social standpoint compared to other companies within its sector which corresponds to an environmental or social score superior or equal to E using Amundi's ESG rating.

– *How have the indicators for adverse impacts on sustainability factors been taken into account?*

The indicators for adverse impacts have been taken into account as detailed in the first do not significant harm (DNSH) filter above:

The first DNSH filter relies on monitoring of mandatory Principal Adverse Impacts indicators in Annex 1, Table 1 of the RTS where robust data is available via the combination of following indicators and specific thresholds or rules:

- Have a CO2 intensity which does not belong to the last decile compared to other companies within its sector (only applies to high intensity sectors), and
- Have a Board of Directors' diversity which does not belong to the last decile compared to other companies within its sector, and
- Be cleared of any controversy in relation to work conditions and human rights.
- Be cleared of any controversy in relation to biodiversity and pollution

Amundi already considers specific Principle Adverse Impacts within its exclusion policy as part of Amundi's Responsible Investment Policy. These exclusions, which apply on the top of the tests detailed above, cover the following topics: exclusions on controversial weapons, Violations of UN Global Compact principles, coal and tobacco.

– *How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights are integrated into our ESG scoring methodology. Our proprietary ESG rating tool assesses issuers using available data from our data providers. For example the model has a dedicated criteria called "Community Involvement & Human Rights" which is applied to all sectors in addition to other human rights linked criteria including socially responsible supply chains, working conditions, and labor relations. Furthermore, we conduct controversy monitoring on a, at minimum, quarterly basis which includes companies identified for human rights violations. When controversies arise, analysts will evaluate the situation and apply a score to the controversy (using our proprietary scoring methodology) and determine the best course of action. Controversy scores are updated quarterly to track the trend and remediation efforts.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes, the Sub-Fund considers all the mandatory Principal Adverse Impacts as per Annex 1, Table 1 of the RTS applying to the Sub-Fund’s strategy and relies on a combination of exclusion policies (normative and sectorial), ESG rating integration into the investment process, engagement and voting approaches:

- Exclusion: Amundi has defined normative, activity-based and sector-based exclusion rules covering some of the key adverse sustainability indicators listed by the Disclosure Regulation.

- ESG factors integration: Amundi has adopted minimum ESG integration standards applied by default to its actively managed open-ended funds (exclusion of G rated issuers and better weighted average ESG score higher than the applicable benchmark).- The 38 criteria used in Amundi ESG rating approach were also designed to consider key impacts on sustainability factors, as well as quality of the mitigation undertaken are also considered in that respect.

- Engagement: Engagement is a continuous and purpose driven process aimed at influencing the activities or behaviour of investee companies. The aim of engagement activities can fall into two categories : to engage an issuer to improve the way it integrates the environmental and social dimension, to engage an issuer to improve its impact on environmental, social, and human rights-related or other sustainability matters that are material to society and the global economy..

- Vote: Amundi’s voting policy responds to an holistic analysis of all the long-term issues that may influence value creation, including material ESG issues. For more information please refer to Amundi’s Voting Policy.

- Controversies monitoring: Amundi has developed a controversy tracking system that relies on three external data providers to systematically track controversies and their level of severity. This quantitative approach is then enriched with an in-depth assessment of each severe controversy, led by ESG analysts and the periodic review of its evolution. This approach applies to all of Amundi’s funds.

For any indication on how mandatory Principal Adverse Impact indicators are used, please refer to the Amundi Sustainable Finance Statement available at <https://www.amundi.lu/retail/regulatory-documents-11>.

No

What investment strategy does this financial product follow?

Objective: This financial product seeks to increase the value of your investment and provide income over the recommended holding period.

Investments: The Sub-Fund invests mainly in a broad range of subordinated securities from corporate issuers anywhere in the world, including Emerging Markets, and denominated in any currency.

The Sub-Fund's investments may include, but are not limited to, subordinated bonds, senior bonds, preferred securities, perpetual bonds, convertible securities such as corporate hybrid bonds (up to 50% of its assets) and contingent convertible bonds (up to 20% of its assets). The Sub-Fund may also invest in debt and debt-related instruments denominated in any currency issued by any government or by supranational bodies, local authorities and international public bodies, as well as money market instruments and cash. The Sub-Fund may invest in Investment or Sub-investment grade bonds. While complying with the above policies, the Sub-Fund may invest more than 10% of its assets in UCIs and UCITS. The Sub-Fund may use derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure to various assets, markets or income streams. The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investing" of the Prospectus.

Benchmark : The Sub-Fund is actively managed by reference to and seeks to outperform (after applicable fees) 15% ICE BofA Contingent Capital Index; 25% ICE BofA Euro Subordinated Financial Index; 20% ICE BofA Global Hybrid Non-Financial Corporate Index; 20% ICE BofA BB-B Global High Yield Index; 20% ICE BofA Emerging Markets Corporate Plus Index. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be material. Further, the Sub-Fund has designed the benchmark as a reference benchmark for the purpose of the Disclosure Regulation. The Benchmark comprises broad market indices, which do not assess or include constituents according to environmental characteristics, and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund. Information in respect of the methodology used for the calculation of the Benchmark can be found at www.amundi.com.

Management Process :

The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investing" of the Prospectus.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

- ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

All securities held in the Sub-Fund are subject to the ESG Criteria. This is achieved through the use of Amundi's proprietary methodology and/or third party ESG information.

The Sub-Fund first applies Amundi's exclusion policy including the following rules:

- legal exclusions on controversial weapons (anti-personnel mines, cluster bombs, chemical weapons, biological weapons and depleted uranium weapons, etc.);
- companies that seriously and repeatedly violate one or more of the 10 principles of the Global Compact, without credible corrective measures;
- the sectoral exclusions of the Amundi group on Coal and Tobacco (details of this policy are available in Amundi's Responsible Investment Policy available on the website <https://www.amundi.lu/retail/regulatory-documents-11>).

The Sub-Fund as a binding elements aims to have a higher ESG score than the ESG score of the Benchmark.

The Sub-Fund's ESG Criteria apply to at least:

- 90% of equities issued by large capitalisation companies in developed countries; debt securities, money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries;
- 75% of equities issued by large capitalisation companies in emerging market countries; equities issued by small and mid-capitalisation companies in any country; debt securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging market countries.

However investors should note that it may not be practicable to perform ESG analysis on cash, near cash, some derivatives and some collective investment schemes, to the same standards as for the other investments. The ESG calculation methodology will not include those securities that do not have an ESG rating, nor cash, near cash, some derivatives and some collective investment schemes.

Furthermore and in consideration of the minimum commitment of 5% of Sustainable Investments to sustainable investments with an environmental objective, the Sub-Fund invests in investee companies considered as "best performer" when benefiting over the best top three rating (A, B or C, out of a rating scale going from A to G) within their sector on at least one material environmental or social factor.

- ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

There is no minimum committed rate for the Sub-Fund.

- ***What is the policy to assess good governance practices of the investee companies?***

We rely on Amundi ESG scoring methodology. Amundi's ESG scoring is based on a proprietary ESG analysis framework, which accounts for 38 general and sector-specific criteria, including governance criteria. In the Governance dimension, we assess an issuer's ability to ensure an effective corporate governance framework that guarantees it will meet its long-term objectives (e.g. guaranteeing the issuer's value over the long term). The governance sub-criteria considered are: board structure, audit and control, remuneration, shareholders' rights, ethics, tax practices and ESG strategy.

Amundi ESG Rating scale contains seven grades, ranging from A to G, where A is the best and

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

G the worst rating. G-rated companies are excluded from our investment universe. Each corporate security (shares, bonds, single name derivatives, ESG equity and fixed income ETFs) included in investment portfolios has been assessed for good governance practices applying a normative screen against UN Global Compact (UN GC) principles on the associated issuer. The assessment is performed on an ongoing basis. Amundi's ESG ratings Committee monthly reviews lists of companies in breach of the UN GC leading to rating downgrades to G. Divestment from securities downgraded to G is carried out by default within 90 days.

Amundi Stewardship Policy (engagement and voting) related to governance complements this approach.

What is the asset allocation planned for this financial product?

Asset allocation describes the share of investments in specific assets.

At least 40% of the investments of the sub-fund will be used to meet the environmental or social characteristics promoted by the sub-fund in accordance with the binding elements of the investment strategy.

Furthermore, the Sub-Fund commits to have a minimum of 5% of sustainable investments as per the below chart. Investments aligned with other E/S characteristics (#1B) will represent the difference between the actual proportion of investments aligned with environmental or social characteristics (#1) and the actual proportion of sustainable investments (#1A).

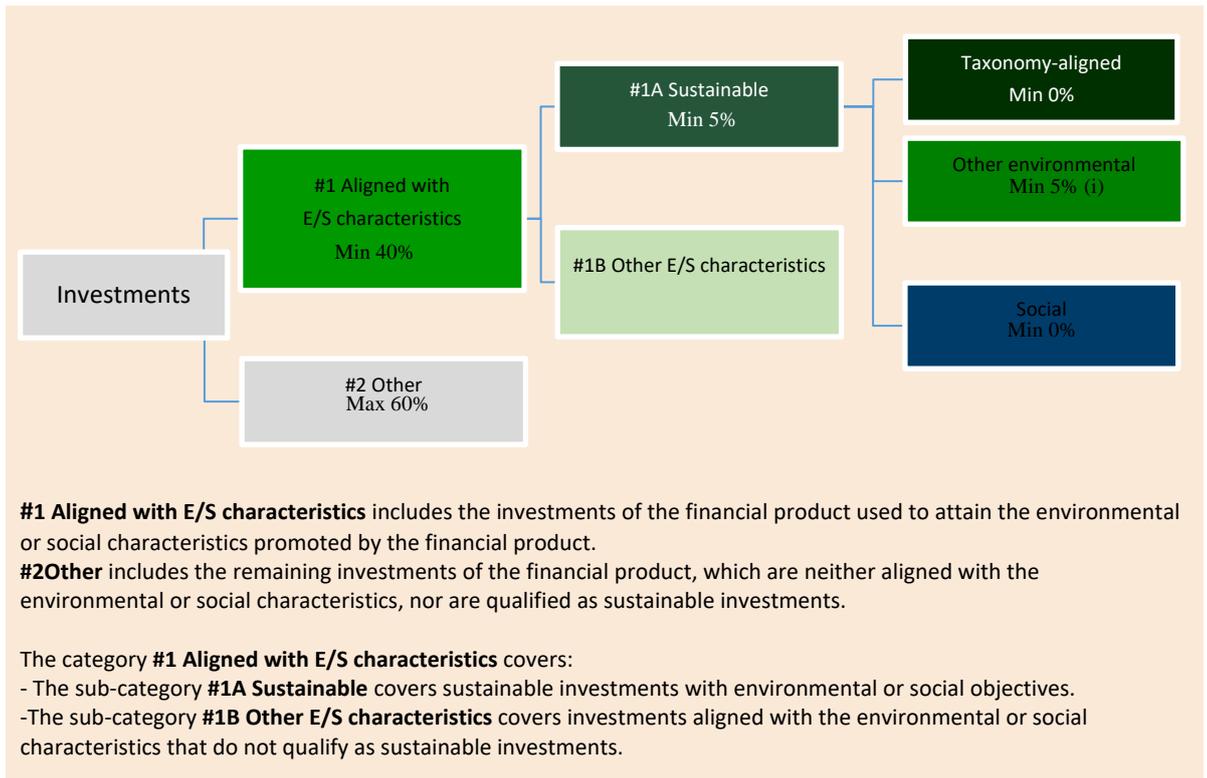

The planned proportion of other environmental investment represents a minimum of 5% (i) and may change as the actual proportions of Taxonomy-aligned and/or Social investments increase.

Taxonomy-aligned activities are expressed as a share of:

-turnover reflecting the share of revenue from green activities of investee companies

-capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- operational expenditure (OpEx) reflecting green operational activities of investee companies.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Derivatives are not used to attain the environmental and social characteristics promoted by the sub-fund.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The sub-fund currently has no minimum commitment to sustainable investments with an environmental objective aligned with the EU Taxonomy.

- Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy²?

- Yes:
- In fossil gas In nuclear energy
- No

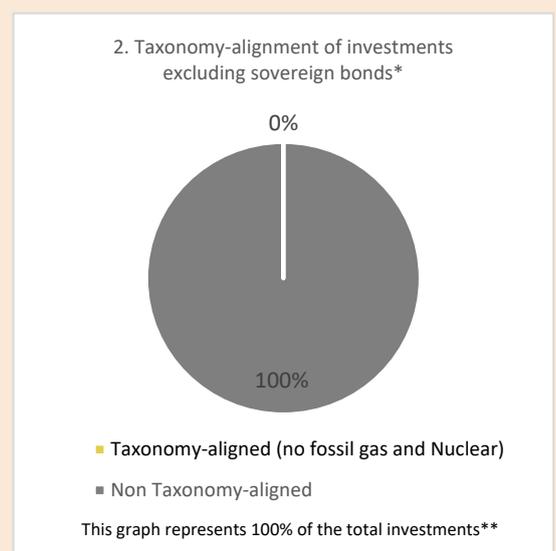

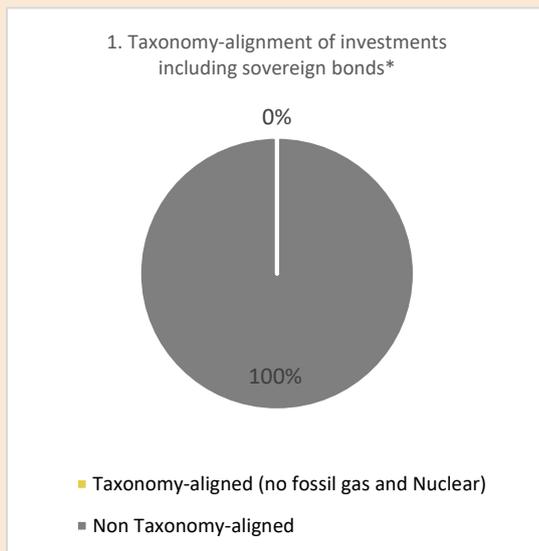

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

** This percentage is purely indicative and may vary.

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **What is the minimum share of investments in transitional and enabling activities?**

The Sub-Fund has no minimum proportion of investment in transitional or enabling activities

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

The Sub-Fund will have a minimum commitment of 5% of Sustainable Investments to sustainable investments with an environmental objective as indicated in this Annex with no commitment on their alignment with the EU Taxonomy.

What is the minimum share of socially sustainable investments?

The Sub-Fund has no minimum defined minimum share.

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

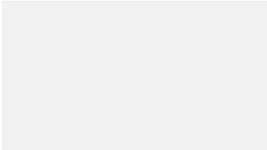

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

This Sub-Fund does not have a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental or social characteristics that it promotes.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

N/A

- *How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?*

N/A

- *How does the designated index differ from a relevant broad market index?*

More product-specific information can be found on the website: [Amundi S.F. - Regulatory page](#) | [Amundi Luxembourg Retail](#).

» Management Regulations

1 The Fund

Amundi S.F. (the “Fund”) was created on 6 June 2003 as an undertaking for collective investment governed by the laws of the Grand Duchy of Luxembourg. The Fund is organised under Part I of the Luxembourg law of 17 December 2010 on undertakings for collective investment, as amended (the “Law of 17 December 2010”), in the form of an open-ended mutual investment fund (“fonds commun de placement”), as an unincorporated co-ownership of Transferable Securities and other assets permitted by law.

The Fund shall consist of different sub-funds (collectively the “Sub-Funds” and individually a “Sub-Fund”) to be created pursuant to Article 4 hereof.

The assets of each Sub-Fund are solely and exclusively managed in the interest of the co-owners of the relevant Sub-Fund (the “Unitholders”) by Amundi Luxembourg S.A. (the “Management Company”), a company organised in the form of a public limited company (“société anonyme”) under chapter 15 of the Law of 17 December 2010 having its registered office in Luxembourg.

The assets of the Fund are held in custody by Société Générale Luxembourg (the “Depositary”). The assets of the Fund are segregated from those of the Management Company.

By purchasing units (the “Units”) of one or more Sub-Funds any Unitholder fully approves and accepts these management regulations (the “Management Regulations”) which determine the contractual relationship between the Unitholders, the Management Company and the Depositary. The Management Regulations and any future amendments thereto shall be lodged with the Registry of the District Court and a publication of such deposit will be made in the Recueil électronique des sociétés et associations (the “RESA”) (previously the Mémorial C, Recueil des Sociétés et Associations). Copies are available at the Registry of the District Court.

2 The Management Company

The Management Company manages the assets of the Fund in compliance with the Management Regulations in its own name, but for the sole benefit of the Unitholders of the Fund.

The board of directors of the Management Company (the “Board”) shall determine the investment policy of the Sub-Funds within the objectives set forth in Article 3 and the restrictions set forth in Article 15 hereafter.

The Board shall have the broadest powers to administer and manage each Sub-Fund within the restrictions set forth in Article 15 hereof, including but not limited to the purchase, sale, subscription, exchange and receipt of securities and other assets permitted by law and the exercise of all rights attached directly or indirectly to the assets of the Fund.

3 Investment Objectives and Policies

The objective of the Fund is to provide investors with a broad participation in the main asset classes in each of the main capital markets of the world through a set of Sub-Funds divided into eight main groups, i.e. Equity, Bond, Short-Term, Money Market, Absolute Return, Multi-Asset, Commodities and Capital Guaranteed Sub-Funds.

Each Sub-Fund’s objective is to aim at a performance superior to that of the market as a whole in which it invests, while containing volatility of performance and while respecting the principle of risk diversification.

Investors are given the opportunity to invest in one or more Sub-Funds and may determine their own preferred exposure on a region by region and/or asset class by asset class basis.

Investment management of each Sub-Fund is undertaken by one Investment Manager which may be assisted by one or several Sub-Investment Manager(s).

The specific investment policies and restrictions applicable to any particular Sub-Fund shall be determined by the Management Company and disclosed in the sales documents of the Fund.

4 Sub Funds and Classes of Units

For each Sub-Fund, a separate portfolio of investments and assets will be maintained. The different portfolios will be separately invested in accordance with the investment objectives and policies referred to in Article 3.

Within a Sub-Fund, classes of Units may be defined from time to time by the Management Company so as to correspond to (i) a specific distribution policy, such as entitling to distributions or not entitling to distributions and/or (ii) a specific sales and redemption charge structure and/or (iii) a specific management or advisory fee structure and/or (iv) different distribution, Unitholder servicing or other fees, and/or (v) the currency or currency unit in which the class may be quoted (the “Pricing Currency”) and based on the rate of exchange of the same Valuation Day between such currency or currency unit and the Base Currency of the relevant Sub-Fund and/or (vi) the use of different hedging techniques in order to protect in the Base Currency of the relevant Sub-Fund the assets and returns quoted in the Pricing Currency of the relevant class of Units against long-term movements of their Pricing Currency and/or (vii) specific jurisdictions where the Units are sold and/or (viii) specific distributions channels and/or (ix) different types of targeted investors and/or (x) specific protection against certain currency fluctuations and/or (xi) such other features as may be determined by the Management Company from time to time in compliance with applicable law.

Within a Sub-Fund, all Units of the same class have equal rights and privileges.

Details regarding the rights and other characteristics attributable to the relevant classes of Units shall be disclosed in the sales documents of the Fund.

5 The Units

5.1. The Unitholders

Except as set forth in section 5.4. below, any natural or legal person may be a Unitholder and own one or more Units of any class within each Sub-Fund on payment of the applicable subscription or acquisition price.

Each Unit is indivisible with respect of the rights conferred to it. In their dealings with the Management Company or the Depositary, the co-owners or disputants of Units, as well as the bare owners and the usufruct holders of Units, may either choose (i) that each of them may individually give instructions in relation to their Units provided that no orders will be processed on any Valuation Day when contradictory instructions are given or (ii) that each of them must jointly give all instructions in relation to the Units provided however that no orders will be processed unless all co-owners, disputants, bare owners and usufruct holders have confirmed the order (all owners must sign instructions). The Administrator will be responsible for ensuring that the exercise of rights attached to the Units is suspended when contradictory individual instructions are given or when all co-owners have not signed instructions.

Neither the Unitholders nor their heirs or successors may request the liquidation or the sharing-out of the Fund and shall have no rights with respect to the representation and management of the Fund and their death, incapacity, failure or insolvency shall have no effect on the existence of the Fund.

No general meetings of Unitholders shall be held and no voting rights shall be attached to the Units.

5.2. Pricing Currency/ Base Currency/ Reference Currency

The Units in any Sub-Fund shall be issued without par value in such currency as determined by the Management Company and disclosed in the sales documents of the Fund (the currency in which the Units in a particular class within a Sub-Fund are issued being the "Pricing Currency").

The assets and liabilities of each Sub-Fund are valued in its base currency (the "Base Currency").

The combined accounts of the Fund will be maintained in the reference currency of the Fund (the "Reference Currency").

5.3. Form, Ownership and Transfer of Units

Units in any Sub-Fund are issued in registered form only. The inscription of the Unitholder's name in the Unit register evidences his or her right of ownership of such Units. The Unitholder shall receive a written confirmation of his or her unitholding; no certificates shall be issued.

Fractions of registered Units may be issued up to three decimals, whether resulting from subscription or conversion of Units.

Title to Units is transferred by the inscription of the name of the transferee in the register of Unitholders upon delivery to the Management Company of a transfer document, duly completed and executed by the transferor and the transferee where applicable.

5.4. Restrictions on Subscription and Ownership

The Management Company may, at any time and at its discretion, temporarily discontinue, terminate or limit the issue of Units to persons or corporate bodies resident or established in certain countries or territories. The Management Company may also prohibit certain persons or corporate bodies from directly or beneficially acquiring or holding Units if such a measure is necessary for the protection of the Fund or any Sub-Fund, the Management Company or the Unitholders of the Fund or of any Sub-Fund.

In addition, the Management Company may direct the Administrator of the Fund to:

- (a) Reject any application for Units;
- (b) Redeem at any time Units held by Unitholders who are excluded from purchasing or holding such Units.

In the event that the Management Company gives notice of a compulsory redemption for any of the reasons set forth above to a Unitholder, such Unitholder shall cease to be entitled to the Units specified in the redemption notice immediately after the close of business on the date specified therein.

6 Issue and Redemption of Units

6.1. Issue of Units

After the initial offering date or period of the Units in a particular Sub-Fund, Units may be issued by the Management Company on a continuous basis in such Sub-Fund.

The Management Company will act as Distributor and may appoint one or more Agents for the distribution or placement of the Units and for connected processing services and foresee different operational procedures (for subscriptions, conversions and redemptions) depending on the Agent appointed. The Management Company will entrust them with such duties and pay them such fees as shall be disclosed in the sales documents of the Fund.

The Management Company may impose restrictions on the frequency at which Units shall be issued in any class of any relevant Sub-Fund; the Management Company may, in particular, decide that Units of any class of any relevant Sub-Fund shall only be issued during one or more offering periods or at such other periodicity as provided for in the sales documents of the Fund.

In each Sub-Fund, Units shall be issued on such Business Day (as defined in the sales documents of the Fund) designated by the Management Company to be a valuation day for the relevant Sub-Fund (the "Valuation Day"), subject

to the right of the Management Company to discontinue temporarily such issue as provided in Article 16.3.

The dealing price per Unit will be the Net Asset Value per Unit of the relevant class within the relevant Sub-Fund as determined in accordance with the provisions of Article 16 hereof as of the Valuation Day on which the application for subscription of Units is received by the Administrator including a sales charge (if applicable) representing a percentage of such Net Asset Value and which shall revert to the Distributor or the Agents. Subject to the laws, regulations, stock exchange rules or banking practices in a country where a subscription is made, taxes or costs may be charged additionally.

Investors may be required to complete a purchase application for Units or other documentation satisfactory to the Fund or to the Distributor or its Agents (if any) specifying the amount of the contemplated investment. Application forms are available from the Administrator or from the Distributor or its Agents (if any). For subsequent subscriptions, instructions may be given by fax, by telephone, by post or other form of communication deemed acceptable by the Management Company.

Payments shall be made not later than three (3) Business Days from the relevant Valuation Day in the Pricing Currency of the relevant class within the relevant Sub-Fund or in any other currency specified by the investor (in which case the cost of any currency conversion shall be borne by the investor and the rate of such conversion will be that of the relevant Valuation Day). Failing this payment, applications will be considered as cancelled, except for subscriptions made through an Agent. Subscriptions made through an Agent may need to be received within a different timeframe, in which case the Agent will inform the investor of the relevant procedure. A shorter timeframe may be applicable to some Sub-Funds as more fully described in the sales documents of the Fund.

The investor will be liable for any costs (including, at the discretion of the Management Company, interest) of late or non-payment of the dealing price and the Management Company will have the power to redeem all or part of the investor's holding of Units in the Fund in order to meet such costs or to take such other action as may be appropriate. If the requisite dealing price is not received in time the subscription request may also be cancelled by the Management Company.

Except if otherwise provided in the sales documents of the Fund for some Sub-Funds, the Management Company will not issue Units as of a particular Valuation Day unless the application for subscription of such Units has been received by the Administrator (on behalf of the Management Company from the Distributor or its Agents (if any) or direct from the subscriber) at any time before cut-off time on such Valuation Day, otherwise such application shall be deemed to have been received on the next following Valuation Day.

However different time limits may apply if subscriptions of Units are made through an Agent, provided that the principle of equal treatment of Unitholders is complied with. In such

cases, the Agent will inform the relevant investor of the procedure relevant to such investor.

Applications for subscription, redemption or conversion through the Distributor or the Agent(s) may not be made on days where the Distributor and/or its Agent(s), if any, are not open for business.

The Management Company may agree to issue Units as consideration for a contribution in kind of securities, in compliance with the conditions set forth by the Management Company, in particular the obligation to deliver a valuation report from the auditor of the Fund ("réviseur d'entreprises agréé") which shall be available for inspection, and provided that such securities comply with the investment objectives and policies of the relevant Sub-Fund described in the sales documents for the Units of the Fund. Any costs incurred in connection with a contribution in kind of securities shall be borne by the relevant Unitholders.

When an order is placed by an investor with a Distributor or its Agents (if any), the latter may be required to forward the order to the Administrator on the same day, provided the order is received by the Distributor or its Agents (if any) before such time of a day as may from time to time be established in the office in which the order is placed. Neither the Distributor nor any of its Agents (if any) are permitted to withhold placing orders whether with aim of benefiting from a price change or otherwise.

If in any country in which the Units are offered, local law or practice requires or permits a lower sales charge than that listed in the sales documents of the Fund for any individual purchase order for Units, the Distributor may offer such Units for sale and may authorise its agents to offer such Units for sale within such country at a total price less than the applicable price set forth in the sales documents of the Fund, but in accordance with the maximum amounts permitted by the law or practice of such country.

Subscription requests made in accordance with the foregoing procedure shall be irrevocable, except that a Unitholder may revoke such request in the event that it cannot be honoured for any of the reasons specified in Article 16.3. hereof.

To the extent that a subscription does not result in the acquisition of a full number of Units, fractions of registered Units may be issued up to three decimals.

Minimum amounts of initial and subsequent investments for any class of Units may be set by the Management Company and disclosed in the sales documents of the Fund.

In addition to any applicable minimum amounts for initial or subsequent investments, the Management Company may also require that Unitholders maintain a minimum account value of EUR 1,000 (or the equivalent in another currency). Should any Unitholder hold less than EUR 1,000 in their account, the Management Company reserves the right to notify affected Unitholders of its intention to sell their Units (without applying any redemption fee as the case may be) and close their account. Unitholders will be given 60 days from the date of the notice to make additional investments to avoid having their Units sold. This policy does not apply to accounts with automatic investment plans.

6.2. Redemption of Units

Except as provided in Article 16.3., Unitholders may at any time request redemption of their Units.

Redemptions will be made at the dealing price per Unit of the relevant class within the relevant Sub-Fund as determined in accordance with the provisions of Article 16 hereof on the relevant Valuation Day on which the application for redemption of Units is received, provided that such application is received by the Administrator before the cut-off time specified in the sales documents of the Fund, on a Valuation Day, otherwise such application shall be deemed to have been received on the next Valuation Day.

However, different time limits may apply where redemptions of Units are made through an Agent, provided that the principle of equal treatment of Unitholders is complied with. In such cases, the Agent will inform the relevant investor of the procedure relevant to such investor.

A deferred sales charge and a redemption fee (if applicable) representing a percentage of the Net Asset Value of the relevant class within the relevant Sub-Fund may be deducted and revert to the Management Company or the Sub-Fund as appropriate.

The dealing price per Unit will correspond to the Net Asset Value per Unit of the relevant class within the relevant Sub-Fund reduced, if applicable, by any relevant deferred sales charge and/or redemption fee.

The Distributor and its Agents (if any) may transmit redemption requests to the Administrator on behalf of Unitholders.

Instructions for the redemption of Units may be made by fax, by telephone, by post or other form of communication deemed acceptable by the Management Company. Applications for redemption should contain the following information (if applicable): the identity and address of the Unitholder requesting the redemption, the relevant Sub-Fund and class of Units, the number of Units to be redeemed, the name in which such Units are registered and full payment details, including name of beneficiary, bank and account number or other documentation satisfactory to the Fund or to the Distributor or its Agents (if any). All necessary documents to fulfil the redemption should be enclosed with such application.

Redemption requests by a Unitholder who is not a physical person must be accompanied by a document evidencing authority to act on behalf of such Unitholder or power of attorney which is acceptable in form and substance to the Management Company. Redemption requests made in accordance with the foregoing procedure shall be irrevocable, except that a Unitholder may revoke such request in the event that it cannot be honoured for any of the reasons specified in Article 16.3. hereof.

The Management Company shall ensure that an appropriate level of liquidity is maintained so that redemption of Units in each Sub-Fund may, under normal circumstances, be made promptly upon request by Unitholders.

Upon instruction received from the Administrator, payment of the redemption price will be made by the Depositary or its agents by money transfer with a value date no later than three

(3) Business Days from the relevant Valuation Day, or at the date on which the transfer documents have been received by the Administrator, whichever is the later date except for redemptions made through an Agent for which the redemption price may have to be paid within a different timeframe, in which case the Agent will inform the relevant investor of the procedure relevant to that investor. Payment may also be requested by cheque in which case a delay in processing may occur. A shorter timeframe may be applicable to some Sub-Funds as more fully described in the sales documents of the Fund.

Payment of the redemption price will automatically be made in the Pricing Currency of the relevant class within the relevant Sub-Fund or in any other currency specified by the investor. The cost of any currency conversion shall be borne by the investor and the rate of such conversion will be that of the relevant Valuation Day.

The Management Company may, at the request of a Unitholder who wishes to redeem Units, agree to make, in whole or in part, a distribution in kind of securities of any class of Units to that Unitholder in lieu of paying to that Unitholder redemption proceeds in cash. The Management Company will agree to do so if it determines that such transaction would not be detrimental to the best interests of the remaining Unitholders of the relevant class. The assets to be transferred to such Unitholder shall be determined by the relevant Investment Manager and the Depositary, with regard to the practicality of transferring the assets, to the interests of the relevant class of Units, continuing participants and to the Unitholder. Such a Unitholder may incur charges, including but not limited to brokerage and/or local tax charges on any transfer or sale of securities so received in satisfaction of a redemption. The net proceeds from this sale by the redeeming Unitholder of such securities may be more or less than the corresponding redemption price of Units in the relevant class due to market conditions and/or differences in the prices used for the purposes of such sale or transfer and the calculation of the Net Asset Value of that class of Units. The selection, valuation and transfer of assets shall be subject to a valuation report of the Fund's auditors.

If on any given date payment on redemption requests representing more than 10% of the Units in issue in any Sub-Fund may not be effected out of the relevant Sub-Fund's assets or authorised borrowing, the Management Company may, upon consent of the Depositary, defer redemptions exceeding such percentage for such period as considered necessary to sell part of the relevant Sub-Fund's assets in order to be able to meet the substantial redemption requests.

If, as a result of any request for redemption, the aggregate Net Asset Value of all the Units held by any Unitholder in any class of Units would fall below the minimum amount referred to in 6.1. hereof, the Management Company may treat such request as a request to redeem the entire unitholding of such Unitholder in the relevant class of Units.

7 Conversion

Except as otherwise specified in the sales documents of the Fund, Unitholders who wish to convert all or part of their Units of a Sub-Fund into Units of another Sub-Fund within the same class of Units must give instructions for the conversion by fax, by telephone, by post or any other form of communication deemed acceptable by the Management Company to the Administrator or the Distributor or any of its Agents (if any), specifying the class of Units and Sub-Fund or Sub-Funds and the number of Units they wish to convert.

If on any given date dealing with conversion requests representing more than 10% of the Units in issuance in any Sub-Fund may not be effected without affecting the relevant Sub-Fund's assets, the Management Company may, upon consent of the Depositary, defer conversions exceeding such percentage for such period as is considered necessary to sell part of the relevant Sub-Fund's assets in order to be able to meet such substantial conversion requests.

In converting Units, the Unitholder must meet the applicable minimum investment requirements referred to in Article 6.1. hereof.

If, as a result of any request for conversion, the aggregate Net Asset Value of all the Units held by any Unitholder in any class of Units would fall below the minimum amount referred to in Article 6.1. hereof, the Management Company may treat such request as a request to convert the entire unitholding of such Unitholder in the relevant class of Units.

The dealing price per Unit will be the Net Asset Value per Unit of the relevant class within the relevant Sub-Fund as determined in accordance with the provisions of Article 16 hereof as of the Valuation Day on which the application for conversion of Units is received by the Administrator decreased by a conversion fee equal to (i) the difference (if applicable) between the sales charge of the Sub-Fund to be purchased and the sales charge of the Sub-Fund to be sold and/or (ii) a percentage of the Net Asset Value of the Units to be converted for the purposes of covering transaction costs in relation to such conversions, as more fully provided in the sales documents and which shall revert to the Distributor or the Agents, provided that such application is received by the Administrator before 6.00 p.m., Luxembourg time, on the relevant Valuation Day, otherwise such application shall be deemed to have been received on the next following Valuation Day. However, different cut-off times may apply for some Sub-Funds as more fully described in the sales documents of the Fund. However different time limits may apply if conversions of Units are made through an Agent, provided that the principle of equal treatment of Unitholders is complied with. In such cases, the Agent will inform the relevant investor of the procedure relevant to such investor.

The number of Units in the newly selected Sub-Fund will be calculated in accordance with the following formula:

$$A = \frac{B \times C}{D}$$

where:

A is the number of Units to be allocated in the new Sub-Fund

B is the number of Units relating to the original Sub-Fund to be converted

C is the Net Asset Value per Unit as determined for the original Sub-Fund calculated in the manner referred to herein

D is the Net Asset Value per Unit as determined for the new Sub-Fund

E is the conversion fee (if any) that may be levied to the benefit of the Distributor or any Agent appointed by it as disclosed in the sales documents of the Fund

F is the currency exchange rate representing the effective rate of exchange applicable to the transfer of assets between the relevant Sub-Funds, after adjusting such rate as may be necessary to reflect the effective costs of making such transfer, provided that when the original Sub-Fund and new Sub-Fund are designated in the same currency, the rate is one.

The Distributor and its Agents (if any) may further authorize conversions of Units held by a Unitholder in the Fund in other funds of the promoter as more fully described in the sales documents.

8 Charges of the Fund

The Management Company is entitled to receive out of the assets of the relevant Sub-Fund (or the relevant class of Units, if applicable) a management fee in an amount to be specifically determined for each Sub-Fund or class of Units; such fee shall be expressed as a percentage rate of the daily Net Asset Value of the relevant Sub-Fund or class, and such management fee shall not exceed 2.55% per annum paid in arrears within a frequency defined by the Management Company. The Management Company will remunerate the Investment Managers out of the management fee.

The Management Company is also entitled to receive the applicable deferred sales charge and redemption fee as well as to receive, in its capacity as Distributor, out of the assets of the relevant Sub-Fund (or the relevant class of Units, if applicable) a distribution fee in an amount to be specifically determined for each Sub-Fund or class of Units; the Management Company may pass on to the Agents, if any, as defined in Article 6 herein, a portion of or all of such fee which shall be expressed as a percentage rate of the daily Net Asset Value of the relevant Sub-Fund or class, and shall not exceed 2% per annum paid in arrears within a frequency defined by the Management Company.

Finally, the Management Company is also entitled to receive a performance fee (if applicable) in respect of certain classes of Units in certain Sub-Funds, calculated as a percentage of the amount by which the increase in total Net Asset Value per Unit of the relevant class during the relevant performance period exceeds the increase in any relevant benchmark over the same period or the growth in value of the Net Asset Value per Unit where the benchmark has declined, as more fully described in the sales documents. The level of such fee shall be a percentage of the outperformance of the relevant class of Units of the Sub-Fund concerned compared to a benchmark index as described in the sales documents. The Management

Company may pass on such performance fee or part thereof to the Investment Manager(s).

The Depositary and Paying Agent and the Administrator are entitled to receive out of the assets of the relevant Sub-Fund (or the relevant Class of Units, if applicable) such fees as will be determined from time to time by agreement between the Management Company, the Depositary and the Administrator as more fully described in the sales documents of the Fund.

The Distributor or any Agent appointed by it are entitled to receive out of the assets of the relevant Sub-Fund the sales charge and any applicable conversion fee as described above.

Other costs and expenses charged to the Fund include:

- all taxes which may be due on the assets and the income of the Sub-Funds;
- usual brokerage fees due on transactions involving securities held in the portfolio of the Sub-Funds (such fees to be included in the acquisition price and to be deducted from the selling price);
- legal expenses incurred by the Management Company or the Depositary while acting in the interest of the Unitholders of the Fund;
- the fees and expenses involved in preparing and/or filing the Management Regulations and all other documents concerning the Fund, including the sales documents and any amendments or supplements thereto, with all authorities having jurisdiction over the Fund or the offering of Units of the Fund or with any stock exchanges in the Grand Duchy of Luxembourg and in any other country;
- the formation expenses of the Fund;
- the fees payable to the Management Company, fees and expenses payable to the Fund's accountants, Depositary and its correspondents, Administrator, any permanent representatives in places of registration, as well as any other agent employed by the Fund;
- the fees payable to the Guarantor in relation to the provision of a guarantee to the Capital Guaranteed Sub-Funds;
- reporting and publishing expenses, including the cost of preparing, printing, in such languages as are necessary for the benefit of the Unitholders, and distributing sales documents, annual, semi-annual and other reports or documents as may be required under applicable law or regulations;
- a reasonable share of the cost of promoting the Fund, as determined in good faith by the Board, including reasonable marketing and advertising expenses;
- the cost of accounting and bookkeeping;
- the cost of preparing and distributing public notices to the Unitholders;
- the cost of buying and selling assets for the Sub-Funds, including costs related to trade and collateral matching and settlement services;

- any fees and costs incurred by the agents of delegated Investment Managers in centralising orders and supporting best execution (some of these agents may be affiliates of Amundi);
- the costs of publication of Unit prices and all other operating expenses, including, interest, bank charges, postage, telephone and auditors' fees and all similar administrative and operating charges, including the printing costs of copies of the above mentioned documents or reports.

All liabilities of any Sub-Fund, unless otherwise agreed upon by the creditors of such Sub-Fund, shall be exclusively binding and may be claimed from such Sub-Fund.

All recurring charges will be charged first against income of the Fund, then against capital gains and then against assets of the Fund. Other charges may be amortised over a period not exceeding five years.

Charges relating to the creation of a new Sub-Fund shall be amortised over a period not exceeding five years against the assets of that Sub-Fund and in such amounts in each year as determined by the Management Company on an equitable basis. The newly created Sub-Fund shall not bear a pro rata of the costs and expenses incurred in connection with the formation of the Fund and the initial issue of Units, which have not already been written off at the time of the creation of the new Sub-Fund.

9 Accounting Year; Audit

The accounts of the Fund shall be kept in euro and are closed each year on December 31.

The accounts of the Management Company and of the Fund will be audited annually by an auditor appointed from time to time by the Management Company.

10 Publications

Audited annual reports and unaudited semi-annual reports will be mailed free of charge by the Management Company to the Unitholders at their request. In addition, such reports will be available at the registered offices of the Management Company/ Distributor or its Agent(s) (if any) and the Depositary as well as at the offices of the information agents of the Fund in any country where the Fund is marketed. Any other financial information concerning the Fund or the Management Company, including the periodic calculation of the Net Asset Value per Unit of each class within each Sub-Fund, the issue, redemption and conversion prices will be made available at the registered offices of the Management Company/Distributor or its Agent(s) (if any) and the Depositary and the local information agents where the Fund is marketed. Any other substantial information concerning the Fund may be published in such newspaper(s) or notified to Unitholders in such manner as may be specified from time to time by the Management Company.

The Management Company may prepare and deliver, in respect of the Units of the Sub-Funds offered in Japan, management reports (un-yo houkokusho) as set forth in Article 14, Paragraph 1 of the Law Concerning Investment

Trusts and Investment Corporations of Japan (Law No. 198 of 1951, as amended) (the “Investment Trusts Law”) in electronic form in lieu of those in printed form in accordance with the Investment Trusts Law and any regulation thereunder; provided that, in the case where any requests for such management reports to be delivered in printed form are received, the Management Company shall prepare and deliver them accordingly.

11 The Depositary

The Management Company shall appoint and terminate the appointment of the Depositary of the assets of the Fund. Société Générale Luxembourg is appointed as Depositary of the assets of the Fund.

Each of the Depositary or the Management Company may terminate the appointment of the Depositary at any time upon ninety (90) calendar days’ prior written notice delivered by either to the other, provided, however, that any termination by the Management Company is subject to the condition that a successor depositary assumes within two months the responsibilities and the functions of the Depositary under these Management Regulations and provided, further, that the duties of the Depositary hereunder shall, in the event of a termination by the Management Company, continue thereafter for such period as may be necessary to allow for the transfer of all assets of the Fund to the successor depositary.

In the event of the Depositary’s resignation, the Management Company shall forthwith, but not later than two months after the resignation, appoint a successor depositary who shall assume the responsibilities and functions of the Depositary under these Management Regulations.

All securities and other assets of the Fund shall be held in custody by the Depositary on behalf of the Unitholders of the Fund. The Depositary may, with the approval of the Management Company, entrust to banks and other financial institutions all or part of the assets of the Fund. The Depositary may hold securities in fungible or non-fungible accounts with such clearing houses as the Depositary, with the approval of the Management Company, may determine. The Depositary may dispose of the assets of the Fund and make payments to third parties on behalf of the Fund only upon receipt of proper instructions from the Management Company or its duly appointed agent(s). Upon receipt of such instructions and provided such instructions are in compliance with these Management Regulations, the Depositary Agreement and applicable law, the Depositary shall carry out all transactions with respect of the Fund’s assets.

The Depositary shall assume its functions and responsibilities in accordance with the Law of 17 December 2010.

In particular, the Depositary shall:

- (a) ensure that the sale, issue, redemption, conversion and cancellation of Units effected on behalf of the Fund or by the Management Company are carried out in accordance with applicable law and these Management Regulations;

- (b) ensure that the value of the Units is calculated in accordance with applicable law and these Management Regulations;
- (c) carry out the instructions of the Management Company, unless they conflict with applicable law or these Management Regulations;
- (d) ensure that in transactions involving the assets of the Fund any consideration is remitted to it within the customary settlement dates; and
- (e) ensure that the income attributable to the Fund is applied in accordance with these Management Regulations.

Any liability that the Depositary may incur with respect to any damage caused to the Management Company, the Unitholders or third parties as a result of the defective performance of its duties hereunder will be determined under the laws of the Grand Duchy of Luxembourg.

The Fund has appointed the Depositary as its paying agent (the “Paying Agent”) responsible, upon instruction by the Administrator, for the payment of distributions, if any, to Unitholders of the Fund and for the payment of the redemption price by the Fund.

12 The Administrator

Société Générale Luxembourg serves as administrator (the “Administrator”) for the Fund and is responsible for the general administrative duties required by the Law of 17 December 2010.

The Administrator activity may be split into 3 main functions: the registrar function, the NAV calculation and accounting function, and the client communication function:

- The registrar function encompasses all tasks necessary to the maintenance of the Fund register and performs the registrations, alterations or deletions necessary to ensure its regular update and maintenance.
- The NAV calculation and accounting function is responsible for the correct and complete recording of transactions to adequately keep the Fund’s books and records in compliance with applicable legal, regulatory and contractual requirements as well as corresponding accounting principles. It is also responsible for the calculation and production of the NAV of the Fund in accordance with the applicable regulation in force.
- The client communication function is comprised of the production and delivery of the confidential documents intended for investors.

13 The Distributor/Domiciliary Agent

Amundi Luxembourg S.A. has been appointed as distributor for the Fund (the “Distributor”) and is responsible for the marketing and the promotion of the Units of the Fund in various countries throughout the world except in the United States of America or any of its territories or possessions subject to its jurisdiction.

The Distributor and its Agent(s), if any, may be involved in the collection of subscription, redemption and conversion orders on behalf of the Fund and may, subject to local law in countries where Units are offered and with the agreement of the respective Unitholders, provide a nominee service to investors purchasing Units through them. The Distributor and its Agent(s), if any, may only provide such a nominee service to investors if they are (i) professionals of the financial sector and are located in a country belonging to the Financial Action Task Force or having adopted money laundering rules equivalent to those imposed by Luxembourg law in order to prevent the use of financial system for the purpose of money laundering and financing terrorism or (ii) professionals of the financial sector being a branch or qualifying subsidiary of an eligible intermediary referred to under (i), provided that such eligible intermediary is, pursuant to its national legislation or by virtue of a statutory or professional obligation pursuant to a group policy, obliged to impose the same identification duties on its branches and subsidiaries situated abroad.

In this capacity, the Distributor and its Agents (if any) shall, in their name but as nominee for the investor, purchase or sell Units for the investor and request registration of such operations in the Fund's register. However, the investor may invest directly in the Fund without using the nominee service and if the investor does invest through a nominee, he has at any time the right to terminate the nominee agreement and retain a direct claim to his Units subscribed through the nominee. However, the provisions above are not applicable for Unitholders solicited in countries where the use of the services of a nominee is necessary or compulsory for legal, regulatory or compelling practical reasons.

The Management Company is also appointed as domiciliary agent for the Fund (the "Domiciliary Agent").

In such capacity, the Management Company shall provide the Fund with an address and shall receive, accept and dispatch to the appropriate persons all notices, correspondence, telegrams, telex messages, telephone advices and communications on behalf of the Fund.

14 The Investment Manager(s)/ Sub-Investment Manager(s)

The Management Company may enter into a written agreement with one or more persons to act as investment manager (the "Investment Manager(s)") for the Fund and to render such other services as may be agreed upon by the Management Company and such Investment Manager(s). The Investment Manager(s) shall provide the Management Company with advice, reports and recommendations in connection with the management of the Fund, and shall advise the Management Company as to the selection of the securities and other assets constituting the portfolio of each Sub-Fund. Furthermore, the Investment Manager(s) shall, on a day-to-day basis and subject to the overall control and ultimate responsibility of the Board, purchase and sell securities and otherwise manage the Fund's portfolio and may, subject to the approval of the Management Company, sub-delegate all or part of their functions hereunder to one or more several sub-investment manager(s) (the "Sub-

Investment Manager(s)") to which they may pass on all or a portion of their management fees. Such agreement(s) may provide for such fees and contain such terms and conditions as the parties thereto shall deem appropriate. Notwithstanding such agreement(s), the Management Company shall remain ultimately responsible for the management of the Fund's assets. Compensation for the services performed by the Investment Manager(s) shall be paid by the Management Company out of the management fee payable to it in accordance with these Management Regulations.

15 Investment Restrictions, Techniques and Instruments

15.1. Investment Restrictions

The Management Company shall, based upon the principle of risk spreading, have power to determine the corporate and investment policy for the investments for each Sub-Fund, the Base Currency of a Sub-Fund, the Pricing Currency of the relevant Class of Units, as the case may be, and the course of conduct of the management and business affairs of the Fund.

Except to the extent that more restrictive rules are provided for in connection with a specific Sub-Fund under chapter "Investment Objectives and Policies" in the sales documents, the investment policy of each Sub-Fund shall comply with the rules and restrictions laid down hereafter:

A. Permitted Investments:

The investments of a Sub-Fund must comprise of one or more of the following:

- (1) Transferable Securities and Money Market Instruments listed or dealt in on a Regulated Market;
- (2) Transferable Securities and Money Market Instruments dealt on an Other Regulated Market in a Member State;
- (3) Transferable Securities and Money Market Instruments admitted to official listing on a stock exchange of an Other State or dealt in on an Other Regulated Market in an Other State;
- (4) recently issued Transferable Securities and Money Market Instruments, provided that:
 - the terms of issue include an undertaking that application will be made for admission to official listing on a stock exchange in an Other State or on an Other Regulated Market as described under (1)-(3) above;
 - such admission is secured within one year of issue;
- (5) shares or units of UCITS authorised according to the UCITS Directive (including Units issued by one or several other Sub-Funds of the Fund and shares or units of a master fund qualifying as a UCITS, in accordance with the Law of 17 December 2010) and/or other UCIs within the meaning of Article 1, paragraph (2), points a) and b) of the UCITS Directive, whether established in a Member State or in an Other State, provided that:

- such other UCIs are authorised under laws which provide that they are subject to supervision considered by the Regulatory Authority to be equivalent to that laid down in Community law, and that cooperation between authorities is sufficiently ensured (currently the United States of America, Canada, Switzerland, Hong Kong, Norway and Japan);
 - the level of protection for unitholders in such other UCIs is equivalent to that provided for unitholders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending, and short sales of Transferable Securities and Money Market Instruments are equivalent to the requirements of UCITS Directive;
 - the business of the other UCIs is reported in half-yearly and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period;
 - no more than 10% of the assets of the UCITS or of the other UCIs, whose acquisition is contemplated, can, according to their constitutional documents, in aggregate be invested in units of other UCITS or other UCIs;
- (6) deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in an Other State, provided that it is subject to prudential rules considered by the Regulatory Authority as equivalent to those laid down in Community law;
- (7) financial derivative instruments, i.e. in particular options, futures, including equivalent cash-settled instruments, dealt in on a Regulated Market or on an Other Regulated Market referred to in (1), (2) and (3) above, and/or financial derivative instruments dealt in over-the-counter (“OTC derivatives”) including without limitation, total return swaps or other financial derivative instruments with similar characteristics (within the meaning of, and under the conditions set out in, applicable laws, regulations and CSSF circulars issued from time to time, in particular, but not limited to, Regulation (EU) 2015/2365), provided that:
- (i) • the underlying consists of instruments covered by this Section A., financial indices, interest rates, foreign exchange rates or currencies, in which the Sub-Fund may invest according to its investment objectives;
 - the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the Regulatory Authority, and
 - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Fund’s initiative.
- (ii) under no circumstances shall these operations cause the Sub-Fund to diverge from its investment objectives.
- (8) Money Market Instruments other than those dealt on a Regulated Market or on an Other Regulated Market, to the extent that the issue or the issuer of such instruments is itself regulated for the purpose of protecting investors and savings, and provided that such instruments are:
- issued or guaranteed by a central, regional or local authority or by a central bank of a Member State, the European Central Bank, the EU or the European Investment Bank, an Other State or, in case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
 - issued by an undertaking any securities of which are dealt in on Regulated Markets or on Other Regulated Markets referred to in (1), (2) or (3) above, or
 - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by Community law, or by an establishment which is subject to and complies with prudential rules considered by the Regulatory Authority to be at least as stringent as those laid down by Community law, or
 - issued by other bodies belonging to the categories approved by the Regulatory Authority provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least ten million euro (EUR 10,000,000) and which presents and publishes its annual accounts in accordance with directive 2013/34/EU, is an entity which, within a Group of Companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.

In addition, the investment policy of a Sub-Fund may replicate the composition of an index of securities or debt securities in compliance with the Grand-Ducal Regulation of 8 February 2008.

B. However, each Sub-Fund:

- (1) shall not invest more than 10% of its assets in Transferable Securities or Money Market Instruments other than those referred to above under A;
- (2) shall not acquire either precious metals or certificates representing them;
- (3) may hold Bank Deposits at Sight (i.e. Bank deposits at sight that are accessible at any time). The holding of Bank Deposits at Sight is limited to 20% of the net assets of the Sub-Fund. This limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interest of the Sub-fund and the unitholders. Initial and variation margins relating to financial derivative instruments do not fall under this restriction;
- (4) may borrow up to 10% of its assets, provided that such borrowings are made only on a temporary basis.

Collateral arrangements with respect to the writing of options or the purchase or sale of forward or futures contracts are not deemed to constitute “borrowings” for the purpose of this restriction;

- (5) may acquire foreign currency by means of a back-to-back loan.

C. Investment Restrictions:

(a) Risk Diversification rules

For the purpose of calculating the restrictions described in (1) to (5), (8), (9), (13) and (14) hereunder, companies which are included in the same Group of Companies are regarded as a single issuer.

To the extent an issuer is a legal entity with multiple sub-funds where the assets of a sub-fund are exclusively reserved to the investors in such sub-fund and to those creditors whose claim has arisen in connection with the creation, operation and liquidation of that sub-fund, each sub-fund is to be considered as a separate issuer for the purpose of the application of the risk diversification rules described under items (1) to (5), (7) to (9) and (12) to (14) hereunder.

Transferable Securities and Money Market Instruments

- (1) No Sub-Fund may purchase additional Transferable Securities and Money Market Instruments of any single issuer if:
 - (i) upon such purchase more than 10% of its assets would consist of Transferable Securities or Money Market Instruments of one single issuer; or
 - (ii) the total value of all Transferable Securities and Money Market Instruments of issuers in each of which it invests more than 5% of its assets would exceed 40% of the value of its assets. This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.
- (2) A Sub-Fund may invest on a cumulative basis up to 20% of its assets in Transferable Securities and Money Market Instruments issued by the same Group of Companies.
- (3) The limit of 10% set forth above under (1)(i) is increased to 35% in respect of Transferable Securities and Money Market Instruments issued or guaranteed by a Member State, by its local authorities, by any Other State or by a public international body of which one or more Member State(s) are member(s).
- (4) The limit of 10% set forth above under (1)(i) is increased up to 25% in respect of bonds that fall under the definition of covered bonds in point (1) of Article 3 of Directive (EU) 2019/2162 of the European Parliament and of the Council of 27 November 2019 on the issue of covered bonds and covered bond public supervision and amending Directives 2009/65/EC and 2014/59/EU ("Directive (EU) 2019/2162"), and for certain bonds where they are issued before 8 July 2022 by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bondholders. In

particular, sums deriving from the issue of those bonds issued before 8 July 2022 must be invested, in accordance with the law, in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. To the extent that a relevant Sub-Fund invests more than 5% of its assets in qualifying debt securities issued by such an issuer, the total value of such investments may not exceed 80% of the assets of such Sub-Fund.

- (5) The securities specified above under (3) and (4) are not to be included for purposes of computing the ceiling of 40% set forth above under (1)(ii).
- (6) **Notwithstanding the ceilings set forth above, each Sub-Fund is authorized to invest, in accordance with the principle of risk spreading, up to 100% of its assets in Transferable Securities and Money Market Instruments issued or guaranteed by (i) a Member State, its local authorities or a public international body of which one or more Member State(s) are member(s), (ii) any member state of the Organisation for Economic Cooperation and Development (“OECD”), or any member country of the G-20, or (iii) Singapore or Hong Kong, provided that (i) such securities are part of at least six different issues and (ii) the securities from any such issue do not account for more than 30% of the total assets of such Sub-Fund.**
- (7) Without prejudice to the limits set forth hereunder under (b) Limitation on Control, the limits set forth in (1) are raised to a maximum of 20% for investments in stocks and/or debt securities issued by the same body when the aim of the Sub-Fund’s investment policy is to replicate the composition of a certain stock or debt securities index which is recognised by the Regulatory Authority, on the following basis:
 - the composition of the index is sufficiently diversified,
 - the index represents an adequate benchmark for the market to which it refers,
 - it is published in an appropriate manner.The limit of 20% is raised to 35% where that proves to be justified by exceptional market conditions in particular in Regulated Markets where certain Transferable Securities or Money Market Instruments are highly dominant provided that any investment up to this 35% limit is only permitted for a single issuer.

Bank Deposits

- (8) A Sub-Fund may not invest more than 20% of its assets in deposits made with the same body.

Derivative Instruments

- (9) The risk exposure to a counterparty in an OTC derivative transaction may not exceed 10% of the Sub-Fund’s assets when the counterparty is a credit institution referred to in A. (6) above or 5% of its assets in other cases.

- (10) Investment in financial derivative instruments shall only be made within the limits set forth in (2), (5) and (14) and provided that the exposure to the underlying assets does not exceed in aggregate the investment limits set forth in (1) to (5), (8), (9), (13) and (14). When the Sub-Fund invests in index-based financial derivative instruments, these investments do not necessarily have to be combined to the limits set forth in (1) to (5), (8), (9), (13) and (14).
- (11) When a Transferable Security or Money Market Instrument embeds a derivative, the latter must be taken into account when complying with the requirements of (C) (a) (10) and (D) hereunder as well as with the risk exposure and information requirements laid down in the sales documents of the Fund.

Units of Open-Ended Funds

- (12) No Sub-Fund may invest more than 20% of its assets in the units of a single UCITS or other UCI; unless it is acting as a Feeder in accordance with the provisions of Chapter 9 of the Law of 17 December 2010.

A Sub-Fund acting as a Feeder shall invest at least 85% of its assets in the shares or units of its Master.

A Sub-Fund acting as a Master shall not itself be a Feeder nor hold shares or units in a Feeder.

For the purpose of the application of these investment limits, each sub-fund of a UCI with multiple sub-funds within the meaning of Article 181 of the Law of 17 December 2010 is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various sub-funds vis-à-vis third parties is ensured. Investments made in units of UCIs other than UCITS may not in aggregate exceed 30% of the assets of a Sub-Fund.

When a Sub-Fund has acquired units of UCITS and/or other UCIs, the assets of the respective UCITS or other UCIs do not have to be combined for the purposes of the limits laid down in (1) to (5), (8), (9), (13) and (14).

When a Sub-Fund invests in the units of other UCITS and/ or other UCIs that are managed, directly or indirectly by delegation, by the same management company or by any other company with which this management company is linked by common management or control, or by a substantial direct or indirect holding, that management company or other company may not charge subscription or redemption fees on account of the Sub-Fund's investment in the units of such other UCITS and/or other UCIs.

A Sub-Fund that invests a substantial proportion of its assets in other UCITS and/or other UCIs shall disclose in the relevant Sub-Fund's part of the sales documents of the Fund the maximum level of the management fees that may be charged both to the Sub-Fund itself and to the other UCITS and/or other UCIs in which it intends to invest. In its annual report the Fund shall indicate the maximum proportion of management fees charged both to the Sub-Fund itself and to the UCITS and/or other UCIs in which it invests.

A Sub-Fund may subscribe, acquire and/or hold Units to be issued or issued by one or more other Sub-Fund(s) of the Fund under the condition that:

- the target Sub-Funds do not, in turn, invest in the Sub-Fund invested in these target Sub-Funds;
- no more than 10% of the assets of the target Sub-Funds which acquisition is contemplated may be invested in aggregate in Units of other target Sub-Funds; and
- in any event, for as long as these Units are held by the Fund, their value will not be taken into consideration for the calculation of the net assets of the Fund for the purposes of verifying the minimum threshold of the net assets imposed by the Law of 17 December 2010.

Combined limits

- (13) Notwithstanding the individual limits laid down in (1), (8) and (9) above, a Sub-Fund shall not combine, where this would lead to investing more than 20% of its assets in a single body, any of the following:
- investments in Transferable Securities or Money Market Instruments issued by that body,
 - deposits made with that body, and/or
 - exposures arising from OTC derivative transactions undertaken with that body.
- (14) The limits set out in (1), (3), (4), (8), (9) and (13) above may not be combined, and thus investments in Transferable Securities or Money Market Instruments issued by the same body, in deposits or derivative instruments made with this body carried out in accordance with (1), (3), (4), (8), (9) and (13) above may not exceed a total of 35 % of the assets of each Sub-Fund of the Fund.

(b) Limitations on Control

- (15) With regard to all UCITS under its management, the Management Company may not acquire voting shares to the extent that it is able overall to exert a material influence on the management of the issuer.
- (16) The Fund as a whole may acquire no more than (i) 10% of the outstanding non-voting shares of the same issuer; (ii) 10% of the outstanding debt securities of the same issuer; (iii) 10% of the Money Market Instruments of any single issuer; or (iv) 25% of the outstanding shares or units of the same UCITS and/or UCI.

The limits set forth in (ii) to (iv) may be disregarded at the time of acquisition if at that time the gross amount of debt securities or of the Money Market Instruments or the net amount of the instruments in issue cannot be calculated.

The limits set forth above under (15) and (16) do not apply in respect of:

- Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or by its local authorities;
- Transferable Securities and Money Market Instruments issued or guaranteed by any Other State;

- Transferable Securities and Money Market Instruments issued by a public international body of which one or more Member State(s) are member(s);
- Shares in the capital of a company which is incorporated under or organised pursuant to the laws of an Other State provided that (i) such company invests its assets principally in securities issued by issuers having their registered office in that state, (ii) pursuant to the laws of that state a participation by the relevant Sub-Fund in the equity of such company constitutes the only possible way to purchase securities of issuers of that state, and (iii) such company observes in its investment policy the restrictions set forth under C., items (1) to (5), (8), (9) and (12) to (16); and
- Shares held by one or more Sub-Funds in the capital of subsidiary companies which, exclusively on its or their behalf carry on only the business of management, advice or marketing in the country where the subsidiary is established, in regard to the redemption of units at the request of unitholders, exclusively on its or their behalf.
- Units or shares of a Master held by a Sub-Fund acting as a Feeder in accordance with Chapter 9 of the Law of 17 December 2010.

D. Global Exposure:

Each Sub-Fund shall ensure that its global exposure relating to derivative instruments does not exceed the total net value of its portfolio.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions.

E. Additional investment restrictions:

- (1) No Sub-Fund may acquire commodities or precious metals or certificates representative thereof, provided that transactions in foreign currencies, financial instruments, indices or Transferable Securities as well as futures and forward contracts, options and swaps on such foreign currencies, financial instruments, indices or Transferable Securities thereon are not considered to be transactions in commodities for the purpose of this restriction.
- (2) No Sub-Fund may invest in real estate or any option, right or interest therein, provided that investments may be made in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein.
- (3) A Sub-Fund may not grant loans or guarantees in favour of a third party, provided that such restriction shall not prevent each Sub-Fund from investing in non-fully paid-up Transferable Securities, Money Market Instruments or other financial instruments, as mentioned under A., items (5), (7) and (8) and shall not prevent the lending of securities in accordance with applicable laws

and regulations (as described further in “Securities Lending and Borrowing” below).

- (4) The Fund may not enter into short sales of Transferable Securities, Money Market Instruments or other financial instruments as listed under A., items (5), (7) and (8).

F. Notwithstanding anything to the contrary herein contained:

(1) The limits set forth above may be disregarded by each Sub-Fund when exercising subscription rights attaching to Transferable Securities and Money Market Instruments in such Sub-Fund’s portfolio.

(2) If such limits are exceeded for reasons beyond the control of a Sub-Fund or as a result of the exercise of subscription rights, such Sub-Fund must adopt as its priority objective in its sale transactions the remedying of such situation, taking due account of the interests of its unitholders.

The Management Company has the right to determine additional investment restrictions to the extent that those restrictions are necessary to comply with the laws and regulations of countries where Units of the Fund are offered or sold.

15.2. Swap Agreements and Efficient Portfolio Management Techniques

The Fund may employ techniques and instruments relating to Transferable Securities and other financial liquid assets for efficient portfolio management, duration management and hedging purposes as well as for investment purposes, in compliance with the provisions laid down in 15.1. “Investment Restrictions”.

Under no circumstances shall these operations cause a Sub-Fund to diverge from its investment objectives and risk profiles as laid down under “Investment Objectives and Policies” in the sales documents of the Fund.

In addition to any limitation contained herein, for particular Sub-Funds to be determined by the Board from time to time and disclosed in the sales documents of the Fund, the total amount (i.e. total amount of commitments taken and premiums paid in respect of such transactions) held in derivatives for the purposes of risk hedging, duration or efficient portfolio management as well as for investment purposes (with the exception that amounts invested in currency forwards and currency swaps for hedging are excluded from such calculation) shall not exceed at any time 40% of the Net Asset Value of the relevant Sub-Fund.

(A) Swap Agreements

Some Sub-Funds of the Fund may enter into Credit Default Swaps. A Credit Default Swap is a bilateral financial contract in which one counterparty (the protection buyer) pays a periodic fee in return for a contingent payment by the protection seller following a credit event of a reference issuer. The protection buyer acquires the right to sell a particular bond or other designated reference obligations issued by the reference issuer for its par value or the right to receive the difference between the par value and the market price of the said bond or other designated reference

obligations when a credit event occurs. A credit event is commonly defined as bankruptcy, insolvency, receivership, material adverse restructuring of debt, or failure to meet payment obligations when due.

Provided it is in its exclusive interest, the Fund may sell protection under Credit Default Swaps (individually a “Credit Default Swap Sale Transaction”, collectively the “Credit Default Swap Sale Transactions”) in order to acquire a specific credit exposure.

In addition, the Fund may, provided it is in its exclusive interest, buy protection under Credit Default Swaps (individually a “Credit Default Swap Purchase Transaction”, collectively the “Credit Default Swap Purchase Transactions”) without holding the underlying assets.

Such swap transactions must be effected with first-class financial institutions specializing in this type of transaction and executed on the basis of standardized documentation such as the International Swaps and Derivatives Association (ISDA) Master Agreement.

In addition, each Sub-Fund of the Fund must ensure to guarantee adequate permanent coverage of commitments linked to such Credit Default Swap and must always be in a position to honour redemption requests from investors.

Some Sub-Funds of the Fund may enter into other types of swap agreements such as total return swaps, interest rate swaps, swaptions and inflation-linked swaps with counterparties duly assessed and selected by the Management Company that are first-class institutions subject to prudential supervision, and belonging to the categories approved by the Regulatory Authority.

(B) Efficient Portfolio Management Techniques

Any Sub-Fund may enter into efficient portfolio management techniques relating to transferable securities and money market instruments (within the meaning of, and under the conditions set out in, applicable laws, regulations and CSSF circulars issued from time to time, in particular, but not limited to CSSF circulars 08/356 and 14/592, ESMA guidelines 2014/937 and Regulation (EU) 2015/2365), including securities lending and borrowing and repurchase and reverse repurchase agreements, where this is in the best interests of the Sub-Fund and in line with its investment objective and investor profile, provided that the applicable legal and regulatory rules are complied with.

Authorised counterparties to efficient portfolio management techniques must be specialised in the relevant types of transactions and are either credit institutions with a registered office in a Member State or an investment firm, authorised under MiFID or an equivalent set of rules, and subject to prudential supervision, with a rating of at least BBB- or its equivalent.

(a) Securities Lending and Borrowing

Any Sub-Fund may enter into securities lending and borrowing transactions provided that it complies with the following rules:

- (i) The Sub-Fund may only lend or borrow securities through a standardised system organised by a

recognised clearing institution, through a lending program organized by a financial institution or through a first-class financial institution as mentioned above.

- (ii) As part of lending transactions, the Sub-Fund must receive a guarantee, the value of which must be, during the lifetime of the agreement, at any time at least 90% of the value of the securities lent.
- (iii) The Sub-Fund must ensure that the volume of the securities lending transactions is kept at an appropriate level or that it is entitled at all times to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations and that these transactions do not jeopardise the management of the Sub-Fund’s assets in accordance with its investment policy.
- (iv) The Sub-Fund shall ensure that it is able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.
- (v) The securities borrowed by the Sub-Fund may not be disposed of during the time they are held by this Sub-Fund, unless they are covered by sufficient financial instruments which enable the Sub-Fund to reconstitute the borrowed securities at the close of the transaction.
- (vi) The Sub-Fund may borrow securities under the following circumstances in connection with the settlement of a sale transaction: (a) during a period the securities have been sent out for re-registration; (b) when the securities have been loaned and not returned in time; (c) to avoid a failed settlement when the Depository fails to make delivery; and (d) as a technique to meet its obligation to deliver the securities being the object of a repurchase agreement when the counterparty to such agreement exercises the right to repurchase these securities, to the extent such securities have been previously sold by the Sub-Fund.

(b) Reverse Repurchase and Repurchase Agreement Transactions

Any Sub-Fund may, on an ancillary or a principal basis, as specified in the description of its investment policy disclosed in the sales documents of the Fund, enter into reverse repurchase and repurchase agreement transactions which consist of a forward transaction at the maturity of which:

- (i) The seller (counterparty) has the obligation to repurchase the asset sold and the Sub-Fund the obligation to return the asset received under the transaction. Securities that may be purchased in reverse repurchase agreements are limited to those referred to in the CSSF Circular 08/356 dated 4 June 2008 and they must conform to the relevant Sub-Fund’s investment policy; or
- (ii) The Sub-Fund has the obligation to repurchase the asset sold and the buyer (the counterparty) the obligation to return the asset received under the transaction.

A Sub-Fund must take care to ensure that the value of the reverse repurchase or repurchase agreement transactions is

kept at a level such that it is able, at all times, to meet its redemption obligations towards its unitholders.

A Sub-Fund that enters into a reverse repurchase transaction must ensure that it is able at any time to recall the full amount of cash or to terminate the reverse repurchase agreement.

A Sub-Fund that enters into a repurchase agreement must ensure that it is able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered.

Fixed-term repurchase and reverse repurchase agreements that do not exceed seven days shall be considered as arrangements on terms that allow the assets to be recalled at any time by the Sub-Fund.

(C) Management of Collateral

The risk exposures to a counterparty arising from OTC financial derivative transactions and efficient portfolio management techniques shall be combined when calculating the counterparty risk limits provided for under item 15.1. C. (a) above.

Where a Sub-Fund enters into OTC financial derivative transactions and efficient portfolio management techniques, all collateral used to reduce counterparty risk exposure shall comply with the following criteria at all times:

- a) any collateral received other than cash shall be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received shall also comply with the provisions of 15.1. C. (b) above.
- b) collateral received shall be valued in accordance with the rules of Article 16.4. hereof on at least a daily basis. Assets that exhibit high price volatility shall not be accepted as collateral unless suitably conservative haircuts are in place.
- c) collateral received shall be of high quality.
- d) the collateral received shall be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- e) collateral shall be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Sub-Fund receives from a counterparty of efficient portfolio management and over-the-counter financial derivative transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its net asset value. When a Sub-Fund is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation, a Sub-Fund may be fully collateralised in different Transferable Securities and Money Market Instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member States belong. Such a Sub-Fund should receive securities from at least six different issues, but securities

from any single issue should not account for more than 30% of the Sub-Fund's Net Asset Value. Sub-Funds that intend to be fully collateralised in these securities as well as the identity of the Member States, third countries, local authorities, or public international bodies issuing or guaranteeing these securities will be disclosed in the Prospectus.

- f) Where there is a title transfer, the collateral received shall be held by the Depositary. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral.
- g) Collateral received shall be capable of being fully enforced by the relevant Sub-Fund at any time without reference to or approval from the counterparty.
- h) Non-cash collateral received shall not be sold, re-invested or pledged.
- i) Cash collateral received shall only be:
 - placed on deposit with entities as prescribed in 15.1. A. (6) above;
 - invested in high-quality government bonds;
 - used for the purpose of reverse repurchase transactions provided the transactions are with credit institutions subject to prudential supervision and the Sub-Fund is able to recall at any time the full amount of cash on accrued basis;
 - invested in short-term money market funds as defined in the "Guidelines on a Common Definition of European Money Market Funds".

Re-invested cash collateral shall be diversified in accordance with the diversification requirements applicable to non-cash collateral.

(D) Risk Management Process

The Fund must employ a risk-management process which enables it to monitor and measure at any time the risk of the positions in its portfolios, the use of efficient portfolio management techniques, the management of collateral and their contribution to the overall risk profile of each Sub-Fund.

In relation to financial derivative instruments the Fund must employ a process for accurate and independent assessment of the value of OTC derivatives and the Fund shall ensure for each Sub-Fund that its global risk exposure relating to financial derivative instruments does not exceed the total net value of its portfolio.

The global risk exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

The Fund may use Value at Risk ("VaR") and/or, as the case may be, commitments methodologies depending on the Sub-Fund concerned, in order to calculate the global risk exposure of each relevant Sub-Fund and to ensure that such global risk exposure relating to financial derivative instruments does not exceed the total Net Asset Value of such Sub-Fund.

Each Sub-Fund may invest, according to its investment policy and within the limits laid down in Articles 15.1. and 16.2. in financial derivative instruments provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in Article 15.1 herein.

When a Sub-Fund invests in index-based financial derivative instruments, these investments do not necessarily have to be combined to the limits laid down in Article 16.1. item C a) (1)-(5), (8), (9), (13) and (14).

When a Transferable Security or Money Market Instrument embeds a financial derivative instrument, the latter must be taken into account when complying with the requirements of this Section.

(E) Co-Management Techniques

In order to reduce operational and administrative charges while allowing a wider diversification of the investments, the Management Company may decide that part or all of the assets of a Sub-Fund will be co-managed with assets belonging to other Sub-Funds within the present structure and/or other Luxembourg collective investment schemes. In the following paragraphs, the words “co-managed entities” shall refer to the Fund and all entities with and between which there would exist any given co-management arrangement and the words “co-managed Assets” shall refer to the entire assets of these co-managed entities co-managed pursuant to the same co-management arrangement.

Under the co-management arrangement, the Investment Manager will be entitled to take, on a consolidated basis for the relevant co-managed entities, investment, disinvestment and portfolio readjustment decisions which will influence the composition of each Sub-Fund’s portfolio. Each co-managed entity shall hold a portion of the co-managed Assets corresponding to the proportion of its net assets to the total value of the co-managed Assets. This proportional holding shall be applicable to each and every line of investment held or acquired under co-management. In case of investment and/or disinvestment decisions these proportions shall not be affected and additional investment shall be allotted to the co-managed entities pursuant to the same proportion and assets sold shall be levied proportionately on the co-managed Assets held by each co-managed entity.

In case of new subscriptions in one of the co-managed entities, the subscription proceeds shall be allotted to the co-managed entities pursuant to the modified proportions resulting from the net asset increase of the co-managed entity which has benefited from the subscriptions and all lines of investment shall be modified by a transfer of assets from one co-managed entity to the other in order to be adjusted to the modified proportions. In a similar manner, in case of redemptions in one of the co-managed entities, the cash required may be levied on the cash held by the co-managed entities pursuant to the modified proportions resulting from the net asset reduction of the co-managed entity which has suffered from the redemptions and, in such case, all lines of investment shall be adjusted to the modified proportions. Unitholders should be aware that, in the absence

of any specific action by the Board or its appointed agents, the co-management arrangement may cause the composition of assets of the Fund to be influenced by events attributable to other co-managed entities such as subscriptions and redemptions.

Thus, all other things being equal, subscriptions received in one entity with which the Fund or any Sub-Fund is co-managed will lead to an increase in the Fund’s and Sub-Fund’s reserve(s) of cash. Conversely, redemptions made in one entity with which the Fund or any Sub-Fund is co-managed will lead to a reduction in the Fund’s and Sub-Fund’s reserves of cash respectively. Subscriptions and redemptions may however be kept in the specific account opened for each co-managed entity outside the co-management arrangement and through which subscriptions and redemptions must pass. The possibility to allocate substantial subscriptions and redemptions to these specific accounts together with the possibility for the Board or its appointed agents to decide at any time to terminate its participation in the co-management arrangement permit the Fund to avoid the readjustments of its portfolio if these readjustments are likely to affect the interest of the Fund and of its Unitholders.

If a modification of the composition of the Fund’s portfolio resulting from redemptions or payments of charges and expenses peculiar to another co-managed entity (i.e. not attributable to the Fund) is likely to result in a breach of the investment restrictions applicable to the Fund, the relevant assets shall be excluded from the co-management arrangement before the implementation of the modification in order for it not to be affected by the ensuing adjustments.

Co-managed Assets of the Fund shall, as the case may be, only be co-managed with assets intended to be invested pursuant to investment objectives identical to those applicable to the co-managed Assets in order to ensure that investment decisions are fully compatible with the investment policy of the Fund. Co-managed Assets shall only be co-managed with assets for which the Depositary is also acting as depositary in order to assure that the Depositary is able, with respect to the Fund, to fully carry out its functions and responsibilities pursuant to the Law of 17 December 2010. The Depositary shall at all times keep the Fund’s assets segregated from the assets of other co-managed entities, and shall therefore be able at all times to identify the assets of the Fund. Since co-managed entities may have investment policies, which are not strictly identical to the investment policy of the Fund, it is possible that as a result the common policy implemented may be more restrictive than that of the Fund.

A co-management agreement shall be signed between the Fund, the Depositary, the Administrator and the Investment Managers in order to define each of the parties’ rights and obligations. The Board may decide at any time and without notice to terminate the co-management arrangement.

Unitholders may at all times contact the registered office of the Fund to be informed of the percentage of assets which are co-managed and of the entities with which there is such a co-management arrangement at the time of their request.

Annual and half-yearly reports shall state the co-managed Assets' composition and percentages.

16 Determination of the Net Asset Value Per Unit

17.1. Frequency of Calculation

The Net Asset Value per Unit as determined for each class and the issue, conversion and redemption prices will be calculated at least twice a month on dates specified in the sales documents of the Fund (a "Valuation Day"), by reference to the value of the assets attributable to the relevant class as determined in accordance with the provisions of Article 16.4. hereinafter. Such calculation will be done by the Administrator under guidelines established by, and under the responsibility of, the Management Company.

16.2. Calculation

The Net Asset Value per Unit as determined for each class shall be expressed in the Pricing Currency of the relevant class and shall be calculated by dividing the Net Asset Value of the Sub-Fund attributable to the relevant class of Units which is equal to (i) the value of the assets attributable to such class and the income thereon, less (ii) the liabilities attributable to such class and any provisions deemed prudent or necessary, through the total number of Units of such class outstanding on the relevant Valuation Day.

The Net Asset Value per Unit may be rounded up or down to the nearest unit of the Pricing Currency of each class within each Sub-Fund.

If since the time of determination of the Net Asset Value of the Units of a particular Sub-Fund there has been a material change in the quotations in the markets on which a substantial portion of the investments of such Sub-Fund are dealt in or quoted, the Management Company may, in order to safeguard the interests of the Unitholders and the Fund, cancel the first calculation of the Net Asset Value of the Units of such Sub-Fund and carry out a second calculation.

To the extent feasible, investment income, interest payable, fees and other liabilities (including the administration costs and management fees payable to the Management Company) will be accrued each Valuation Day.

The value of the assets will be determined as set forth in Article 16.4. hereof. The charges incurred by the Fund are set forth in Article 8 hereof.

16.3. Suspension of Calculation

The Management Company may temporarily suspend the determination of the Net Asset Value per Unit within any Sub-Fund and in consequence the issue, redemption and conversion of Units of any class in any of the following events:

- When one or more stock exchanges, Regulated Markets or any Other Regulated Market in a Member or in an Other State which is the principal market on which a substantial portion of the assets of a Sub-Fund, or when one or more foreign exchange markets in the currency in which a

substantial portion of the assets of the Sub-Fund is denominated, are closed otherwise than for ordinary holidays or if trading thereon is restricted or suspended.

- When, as a result of political, economic, military or monetary events or any circumstances outside the responsibility and the control of the Management Company, disposal of the assets of the Sub-Fund is not reasonably or normally practicable without being seriously detrimental to the interests of the Unitholders.
- In the case of breakdown in the normal means of communication used for the valuation of any investment of the Sub-Fund or if, for any reason, the value of any asset of the Sub-Fund may not be determined as rapidly and accurately as required.
- When the Management Company is unable to repatriate funds for the purpose of making payments on the redemption of Units or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of Units cannot in the opinion of the Board be effected at normal rates of exchange.
- Following the suspension of (i) the calculation of the net asset value per share/unit, (ii) the issue, (iii) the redemption, and/or (iv) the conversion of the shares/units issued within the master fund in which the Sub-Fund invests in its capacity as a feeder fund.

Any such suspension and the termination thereof shall be notified to those Unitholders who have applied for subscription, redemption or conversion of their Units and shall be published as provided in Article 10 hereof.

16.4. Swing Pricing

Unitholders are advised that, to the extent that the Board considers that it is in the best interest of Unitholders of a particular Sub-Fund, if on Valuation Day, when the Board believes that trading in a Sub-Fund's Units will require significant purchases or sales of portfolio investments, the Board may adjust the sub-fund's NAV to more closely reflect the actual prices of the underlying transactions, based on estimated dealing spreads, costs and other market and trading considerations. In general, the NAV will be adjusted upwards when there is a strong demand to buy Sub-Fund's Units and downward when there is a strong demand to redeem Sub-Fund's Units. Any such adjustment is applied to all the Sub-Fund's transactions of a given day in respect of those Sub-Funds that apply full swing pricing, and for those Sub-Funds that apply partial swing pricing when net demands exceed a certain threshold set by the Board. Those adjustments follow the objective to protect the Fund's long-term Unitholders from costs associated with ongoing subscription and redemption activity and are not meant to address specific circumstances of each individual investor. Therefore, orders in the opposite direction of the Sub-Fund's net transaction activity may be executed at the expense of all the other orders. For any given Valuation Day, the adjustment will normally not be larger than 2% of the NAV,

but the Board can raise this limit when necessary to protect the interests of Unitholders. In such a case, a communication to investors will be published in the dedicated website. The adjustment applied to any given order may be obtained upon request addressed to the Management Company.

17.5. Valuation of the Assets

The Board has approved the valuation policy that applies to the Sub-Funds. Moreover, the administrative agent of the Fund has been appointed to proceed with the calculation of the Net Asset Value of the Sub-Funds in accordance with the methods and principles described below.

The purpose of the valuation policy is to ensure that the Sub-Funds are valued in a reliable and consistent manner, in accordance with the management regulations and with the principle of “fair value”, ensuring the equitable treatment of unitholders.

Fair value shall be understood as the amount for which an asset could be exchanged, or a liability settled, in an orderly transaction between knowledgeable parties in an arm’s length transaction at the Valuation Day.

The calculation of the Net Asset Value of Units in any class of any Sub-Fund and of the assets and liabilities of any class of any Sub-Fund shall be made in the following manner:

I. The assets of the Fund shall include:

- 1) all cash on hand or on deposit, including any interest accrued thereon;
- 2) all bills and notes payable and accounts receivable (including proceeds of securities sold but not delivered);
- 3) all bonds, time notes, shares, stock, debenture stocks, subscription rights, warrants, options and other securities, financial instruments and similar assets owned or contracted for by the Fund (provided that the Fund may make adjustments in a manner not inconsistent with paragraph 1. below with regard to fluctuations in the market value of securities caused by trading ex-dividends, ex-rights, or by similar practices);
- 4) all stock dividends, cash dividends and cash distributions receivable by the Fund to the extent information thereon is reasonably available to the Fund;
- 5) all interest accrued on any interest-bearing assets owned by the Fund except to the extent that the same is included or reflected in the principal amount of such asset;
- 6) the liquidating value of all forward contracts and all call or put options the Fund has an open position in;
- 7) the preliminary expenses of the Fund, including the cost of issuing and distributing Units of the Fund, insofar as the same have to be written off;
- 8) all other assets of any kind and nature including expenses paid in advance.

(A) The value of the assets of all Sub-Funds shall be determined in principle as follows:

1. For Cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued but not yet

received. They shall be valued at full value, minus any appropriate discount the Management Company may apply based on its assessments of any circumstances that make the full payment unlikely.

2. For Transferable Securities and derivatives that are quoted or dealt in on any stock exchange or traded in any other Regulated Market. Generally, they shall be valued at the last available quoted prices of the Valuation Day at the time of valuation.
3. For Money market instruments. They shall be valued at the last quoted prices of the Valuation Day at the time of valuation if available and valued at amortized cost otherwise.
4. For Derivatives that are not listed on any official stock exchange or are traded over the counter. They shall be valued daily in a reliable and verifiable manner, consistent with market practice. The reference to reliable and verifiable shall be understood as (i) a reference to a valuation which does not rely only on quotations of the counterparty, (ii) relying on valuations is carried out by a party that is independent from the counterparty.
5. For Shares or units of UCITS or UCIs. They shall be valued at the most recent NAV reported by the UCITS/UCI that is available of the Valuation Day at the time the Sub-Fund is calculating its NAV.
6. For Currencies. They shall be valued at the applicable foreign exchange rate (applies to currencies held as assets and when translating values of securities denominated in other currencies into the base currency of the Sub-Fund).
7. For Non-listed securities, or listed securities for which the price determined according to the above methods not representative of fair market value. They shall be valued with care and in good faith on the basis of their probably realization value by the Board or it’s delegate.

In the event that the valuation of an asset in accordance with the above principles is rendered impossible, incorrect or not representative, the Board or its delegate is entitled to use other generally recognised and auditable valuation principles in order to reach a fair valuation of that asset. In doing so, reliance may be made on the Investment Managers ability to assess fair value, provided such contribution is subject to the appropriate control and verification by parties independent from portfolio management.

II. The liabilities of the Fund shall include:

- 1) all loans, bills and accounts payable;
- 2) all accrued interest on loans of the Fund (including accrued fees for commitment for such loans);
- 3) all accrued or payable expenses (including, without limitation, administrative expenses, management fees, including incentive fees, if any, and depositary fees);
- 4) all known liabilities, present and future, including all matured contractual obligations for payments of money or property, including the amount of any unpaid distributions declared by the Fund;

- 5) an appropriate provision for future taxes based on capital and income as of the Valuation Day, as determined from time to time by the Fund, and other reserves (if any) authorized and approved by the Management Company, as well as such amount (if any) as the Management Company may consider to be an appropriate allowance in respect of any contingent liabilities of the Fund;
- 6) all other liabilities of the Fund of whatsoever kind and nature reflected in accordance with generally accepted accounting principles. In determining the amount of such liabilities, the Fund shall take into account all charges and expenses payable by the Fund pursuant to Article 8 hereof. The Fund may accrue administrative and other expenses of a regular or recurring nature based on an estimated amount rateably for yearly or other periods.

The value of all assets and liabilities not expressed in the Base Currency of a Sub-Fund will be converted into the Base Currency of such Sub-Fund at the rate of exchange ruling in Luxembourg on the relevant Valuation Day. If such quotations are not available, the rate of exchange will be determined in good faith by or under procedures established by the Board.

The Board, in its discretion, may permit some other method of valuation to be used, if it considers that such valuation better reflects the fair value of any asset of the Fund.

In the event that extraordinary circumstances render a valuation in accordance with the foregoing guidelines impracticable or inadequate, the Management Company will, prudently and in good faith, use other criteria in order to achieve what it believes to be a fair valuation in the circumstances.

III. Allocation of the assets of the Fund:

The Board shall establish a Sub-Fund in respect of each class of Units and may establish a Sub-Fund in respect of two or more classes of Units in the following manner:

- a) if two or more classes of Units relate to one Sub-Fund, the assets attributable to such classes shall be commonly invested pursuant to the specific investment policy of the Sub-Fund concerned;
- b) the proceeds to be received from the issue of Units of a class shall be applied in the books of the Fund to the Sub-Fund corresponding to that class of Units, provided that if several classes of Units are outstanding in such Sub-Fund, the relevant amount shall increase the proportion of the net assets of such Sub-Fund attributable to the class of Units to be issued;
- c) the assets and liabilities and income and expenditure applied to a Sub-Fund shall be attributable to the class or classes of Units corresponding to such Sub-Fund;
- d) where the Fund incurs a liability which relates to any asset of a particular Sub-Fund or class or to any action taken in connection with an asset of a particular Sub-Fund or class, such liability shall be allocated to the relevant Sub-Fund or class;
- e) in the case where any asset or liability of the Fund cannot be considered as being attributable to a particular

class or Sub-Fund, such asset or liability shall be allocated to all the classes in any Sub-Fund or to the Sub-Funds pro rata to the Net Asset Values of the relevant classes of Units or in such other manner as determined by the Management Company acting in good faith. The Fund shall be considered as one single entity. However, with regard to third parties, in particular towards the Fund's creditors, each Sub-Fund shall be exclusively responsible for all liabilities attributable to it;

- f) upon the payment of distributions to the holders of any class of Units, the Net Asset Value of such class of Units shall be reduced by the amount of such distributions.

17 Income Allocation Policies

The Management Company may issue Distributing Units and Non-Distributing Units in certain classes of Units within the Sub-Funds of the Fund.

Non-Distributing Units capitalise their entire earnings whereas Distributing Units pay dividends. The Management Company shall determine how the income of the relevant classes of Units of the relevant Sub-Funds shall be distributed and the Management Company may declare from time to time, at such time and in relation to such periods as the Board may determine, as disclosed in the sales documents of the Fund, distributions in the form of cash or Units as set forth hereinafter.

All distributions will in principle be paid out of the net investment income available for distribution at such frequency as shall be determined by the Management Company. The Management Company may, in compliance with the principle of equal treatment between Unitholders, also decide that for some classes of Units, distributions will be paid out of the gross assets (i.e. before deducting the fees to be paid by such class of Units) depending on the countries where such classes of Units are sold and as more fully described in the relevant country specific information. For certain classes of Units, the Management Company may decide from time to time to distribute capital or capital gains. Interim dividends may be declared and distributed from time to time at a frequency decided by the Management Company with the conditions set forth by law.

Unless otherwise specifically requested, dividends will be reinvested in further Units within the same class of the same Sub-Fund and investors will be advised of the details by dividend statement. No sales charge will be imposed on reinvestments of dividends or other distributions.

No distribution may however be made if, as a result, the Net Asset Value of the Fund would fall below euro 1,250,000.

Dividends not claimed within five years of their due date will lapse and revert to the relevant class.

No interest shall be paid on a distribution declared by the Fund and kept by it at the disposal of its beneficiary.

18 Amendments to the Management Regulations

These Management Regulations as well as any amendments thereto shall enter into force on the date of signature thereof unless otherwise specified.

The Management Company may at any time amend wholly or in part the Management Regulations in the interests of the Unitholders.

The first valid version of the Management Regulations and amendments thereto shall be deposited with the commercial register in Luxembourg. Reference to respective depositing shall be published in the RESA.

19 Duration and Liquidation of the Fund or of any Sub-Fund or Class of Units

The Fund and each of the Sub-Funds have been established for an unlimited period except as otherwise provided in the sales documents of the Fund. However, the Fund or any of its Sub-Funds (or classes of Units therein) may be dissolved and liquidated at any time by mutual agreement between the Management Company and the Depositary, subject to prior notice. The Management Company is, in particular, authorised, subject to the approval of the Depositary, to decide the dissolution of the Fund or of any Sub-Fund or any class of Units therein where the value of the net assets of the Fund or of any such Sub-Fund or any class of Units therein has decreased to an amount determined by the Management Company to be the minimum level for the Fund or for such Sub-Fund or class of Units to be operated in an economically efficient manner, or in case of a significant change of the economic or political situation.

In case of dissolution of any Sub-Fund or class of Units, the Management Company shall not be precluded from redeeming or converting all or part of the Units of the Unitholders, at their request, at the applicable Net Asset Value per Unit (taking into account actual realisation prices of investments as well as realisation expenses in connection with such dissolution), as from the date on which the resolution to dissolve a Sub-Fund or class of Units has been taken and until its effectiveness.

Issuance, redemption and conversion of Units will cease at the time of the decision or event leading to the dissolution of the Fund.

In the event of dissolution, the Management Company will realise the assets of the Fund or of the relevant Sub-Fund(s) or class of Units in the best interests of the Unitholders thereof, and upon instructions given by the Management Company, the Depositary will distribute the net proceeds from such liquidation, after deducting all expenses relating thereto, among the Unitholders of the relevant Sub-Fund(s) or class of Units in proportion to the number of Units of the relevant class held by them. The Management Company may distribute the assets of the Fund or of the relevant Sub-Fund(s) or class of Units wholly or partly in kind in compliance with the conditions set forth by the Management Company (including, without limitation, delivery of an independent valuation report) and the principle of equal treatment of Unitholders.

As provided by Luxembourg law, at the close of liquidation of the Fund, the proceeds thereof corresponding to Units not surrendered will be kept in safe custody at the Caisse de Consignation in Luxembourg until the statute of limitations relating thereto has elapsed.

In the event of dissolution of the Fund, the decision or event leading to the dissolution shall be published in the manner required by the Law of 17 December 2010 in the RESA and in two newspapers with adequate distribution, one of which at least must be a Luxembourg newspaper.

The decision to dissolve a Sub-Fund or class of Units shall be published as provided in Article 10 hereof for the Unitholders of such Sub-Fund or class of Units.

The liquidation or the partition of the Fund or any of its Sub-Funds or class of Units may not be requested by a Unitholder, or by his heirs or beneficiaries.

20 Merger of Sub-Funds or Merger With Another UCI

The Board may decide to proceed with a merger (within the meaning of the Law of 17 December 2010) of the Fund or of one of the Sub-Funds, either as receiving or merging UCITS or Sub-Fund, subject to the conditions and procedures imposed by the Law of 17 December 2010, in particular concerning the merger project and the information to be provided to the Unitholders, as follows:

a) Merger of the Fund

The Board may decide to proceed with a merger of the Fund, either as receiving or merging UCITS, with:

- another Luxembourg or foreign UCITS (the “New UCITS”); or
- a sub-fund thereof,

and, as appropriate, to redesignate the Units of the Fund as Units of this New UCITS, or of the relevant sub-fund thereof as applicable.

b) Merger of the Sub-Funds

The Board may decide to proceed with a merger of any Sub-Fund, either as receiving or merging Sub-Fund, with:

- another existing Sub-Fund within the Fund or another sub-fund within a New UCITS (the “New Sub-Fund”); or
- a New UCITS,

and, as appropriate, to redesignate the Units of the Sub-Fund concerned as Units of the New UCITS, or of the New Sub-Fund as applicable.

Rights of the Unitholders and Costs to be borne by them

In all merger cases above, the Unitholders will in any case be entitled to request, without any charge other than those retained by the Fund or the Sub-Fund to meet disinvestment costs, the repurchase or redemption of their Units, or, where possible, to convert them into units or shares of another UCITS pursuing a similar investment policy and managed by the Management Company or by any other company with which the Management Company is linked by common management or control, or by substantial direct or indirect

holding, in accordance with the provisions of the Law of 17 December 2010. This right will become effective from the moment that the relevant unitholders have been informed of the proposed merger and will cease to exist five working days before the date for calculating the exchange ratio for the merger.

Any cost associated with the preparation and the completion of the merger shall neither be charged to the Fund, any Sub-Fund nor to its Unitholders.

21 Applicable Law; Jurisdiction; Language

Any claim arising between the Unitholders, the Management Company and the Depositary shall be settled according to the laws of the Grand Duchy of Luxembourg and subject to the jurisdiction of the District Court of Luxembourg, provided, however, that the Management Company and the Depositary may subject themselves and the Fund to the jurisdiction of courts of the countries in which the Units are offered or sold, with respect to claims by investors resident in such countries and, with respect to matters relating to subscriptions, redemptions and conversions by Unitholders resident in such countries, to the laws of such countries. English shall be the governing language of these Management Regulations.

Executed on 21 November 2025 in three originals and effective on the same date.
